

Apparatus or Resources Module: NFIRS-9

Objectives

After completing the Apparatus or Resources Module you will be able to:

1. Describe when the Apparatus or Resources Module is to be used.
 2. Demonstrate how to complete the Apparatus or Resources Module and identify appropriate other modules required, given the scenario of a hypothetical incident.

Using the Apparatus or Resources Module

The Apparatus or Resources Module (NFIRS-9) is an optional module that is used to help manage and track apparatus and resources used on incidents. The Personnel Module (NFIRS-10) should be used when details about apparatus and personnel are needed. Resource counts are not needed on the Basic Module (G₁) if either the Apparatus or Resources Module or the Personnel Module is used.

The information in **Section A** is drawn from Section A of the Basic Module. Use the data in the Basic Module to help you supply the requested information. If you are using an automated system the data need to be entered only once, then they will be transferred automatically into other modules that use the data.

Section B: Apparatus or Resources, Dates and Times, Sent, Number of People, Apparatus Use, and Actions Taken

In **Section B** you will document all apparatus responding to the incident; for paper-reporting, if more than nine pieces of apparatus responded to an incident, use additional sheets to record the information about the additional apparatus.

Section B is divided into six blocks. You will fill out all six blocks for each piece of apparatus that you record.

B	Apparatus or Resources Use codes listed below
1	ID [][][][][][][][][]
★	Type [][]

Record information and details about the apparatus and/or resources used at an incident. This information is useful in determining actual apparatus requirements for different types of incidents and for different levels of incident severity as well as tracking times and actions taken by apparatus or resource type.

Enter the type and identification number of each apparatus or resource used at the incident. If more than nine resources or apparatus were used, complete an additional NFIRS-9 module.

Various types are grouped into the following categories:

- Ground Fire Suppression;
- Marine Equipment;
- Heavy Ground Equipment;
- Support Equipment;
- Aircraft; and
- Medical & Rescue.

Please see the codes listed for this data element in the *Quick Reference Guide (QRG)*.

DATES AND TIMES

The second block records the dates and times at which the apparatus was used.

Lines are provided to indicate dates and times for Dispatch, Arrival, and Clear. Hours and minutes for all times are recorded in 24-hour time (midnight is 0000).

If the date for any of the times being documented is the same as the alarm date, mark the box indicated.

SENT

<input type="checkbox"/>

NOTE: This is for paper reporting only.

It indicates which apparatus was sent on the incident. Fire departments can preprint or preenter apparatus in this module. When an incident occurs, the firefighter completing the module can mark (x) the “Sent” box to indicate which apparatus in the module actually responded.

If the unit was held in quarters, leave the box blank.

NUMBER OF PEOPLE

Number of ★ People

The fourth block allows you to record the total number of people responding on the specific piece of apparatus. Enter the number on the line provided. This field is required.

APPARATUS USE

Record the **main** use of the apparatus in the fifth block.

<input type="checkbox"/> Suppression
<input type="checkbox"/> EMS
<input type="checkbox"/> Other

Three choices are offered in this section. Only one box should be marked for each piece of equipment. This field is required.

ACTIONS TAKEN

The duties performed at the incident scene by the apparatus or resource personnel.

Actions Taken
List up to 4 actions for each apparatus.

Enter up to four actions taken by the specific piece of apparatus or resource at the scene of the incident reporting from most significant to least significant. Specific actions may include extinguishing fires, forcible entry, providing first aid, identifying and analyzing hazardous materials, and transporting the injured. The action may involve simply standing by at an incident for possible service. Be as specific as possible in stating the actions taken.

The codes used for Actions Taken are the same codes used for Actions Taken (Section F) in the Basic Module. Please see the codes listed for that data element in the CRG.

SUMMARY

The Apparatus or Resources Module is used as a local option to identify the apparatus and personnel sent to an incident. If this module is used, it is not necessary to use the Personnel Module.

On the paper form, lines are available to document nine pieces of apparatus and additional sheets can be used. This will document all apparatus that were used to control the incident, alarms, and district.

EXAMPLE: Vehicle Crash

Directions: Read the call information in the example below. Then look at the completed Apparatus or Resources Module form. Look at each section and follow along with the proper use of the information as applicable to the Apparatus or Resources Module.

Engine 231 (three firefighters and one Captain), Rescue Unit 345 (two firefighters and one Lieutenant), and an EMT-Basic Unit 114 (two EMT's) from Department FDID #TR131 (Station 10) are dispatched to 4125 N. Vine Avenue, Taylor, WI 12345, at 1215 hours on April 21, 2000, to an auto wreck – incident #9800789. All units arrive on the scene at 1218 hours.

Engine 231 provides assistance with the extrication and patient loading. The crew also controls traffic.

The male driver is trapped between the steering wheel and seat and must be extricated. Rescue Unit 345 performs the extrication.

The driver is alert and complains of neck pain. It is obvious that he also suffers from a broken arm. He states that no other vehicles were involved and he is traveling alone.

Unit 114 applies a “C” collar to the patient’s neck. The crew also splints his broken arm once he is removed from the vehicle. He is transported to the nearest emergency care facility by the fire department BLS Unit at 1235.

Engine 231 and Rescue 345 cleared the incident at 1245 hours. BLS 114 cleared the incident and was available for service at 1330.

EXERCISE SCENARIO 9-1: Structure Fire

Directions: Read the call information in the exercise below. Use the information provided to complete the Apparatus or Resources Module form. Compare your work to the answers provided on the completed Apparatus or Resources Module form. If your answers are different from the ones provided, read over the Apparatus or Resources Module again.

Engine 422 (three firefighters and one Captain), Engine 425 (two firefighters and one Lieutenant), Truck 42 (three firefighters and one Captain), and D/C 1 from FDID #TR100, Station #6, respond to a structure fire at 1326 Market Street, Eau Claire, WI on June 21, 2002 (Incident #670026). All units were dispatched at 2:39 a.m.

Engine 422 arrives on location at 0241 hours and advances one 1-3/4-inch hoseline to the first floor and attacks the fire. The crew also searches for victims.

D/C Depew arrives at 0242 and establishes command.

Upon their arrival at 0243, the truck company splits into two crews. One crew performs search and rescue, and the other, ventilation. After the fire is knocked down, the company performs salvage and overhaul.

Engine 425 - 0244 arrival - takes a hydrant and supplies Engine 422. They then advance a back-up line to the second floor and extinguish the fire that extended to the bedroom.

Engine 422 cleared the scene at 0300 and was available for duty at 0325. Truck 42 was cleared at 0320 and available at 0345. D/C Depew cleared at 0325 and was available at 0326. Engine 425 cleared the scene at 0350 and was available at 0410.

Directions: Read the call information in the exercise below. Use the information provided to complete the entire Apparatus or Resources Module form and other required forms. Compare your work to the answers provided in Appendix A. If your answers are different from the ones provided, read over the Apparatus or Resources Module again.

The Alberta Fire Department (FDID #92188) received a call for a reported house fire at 5 East Cary Street, Brunswick, Virginia 23351, on May 1, 2005. The dispatcher assigned the incident (#5433) to Engine 1, Engine 2, and Truck 1 from Shift A. The units received the alarm at 12:53 p.m. Engine 1 and Truck 1 arrived at the scene at 12:58. Engine 2 arrive at the scene at 1:00 p.m. Each unit was staffed with four firefighters. The owner of the single-family dwelling, Mrs. Christy Gordon (66 years old), said that she was warming her lunch on the stove when the grease from the pan began to burn. The gas stove was a Whirlpool, Model RF330PXVN, Serial Number F925888840, Year 2000. The fire spread from the pan to the curtains. She had fallen asleep upstairs and was alerted when the hardwired smoke detector activated. The flame damage was confined to the kitchen. The 2,000 square feet, two-story home was filled with smoke in the other rooms. She called 911. Crews from Engine 1 and 2 worked to extinguish the fire while the crew from Truck 1 performed salvage and overhaul. The fire was brought under control at 1:25 p.m. There was \$24,000 fire loss to property and \$9,600 content loss. The value of the property was \$161,000 and the content value was \$80,400. All units cleared the scene at 2:40 p.m. FF1 Adam C. Wallner, Badge No. 224, completed the report after returning to Station No. 2. Captain Tonya S. Gordon, Badge No. 105, was the officer in charge. The incident was in Census Tract 501.10, District A12.
