Reply to: MC-RRR

Mr. Prasad Sharma, Esq. Senior Vice President and General Counsel American Trucking Associations, Inc. 950 North Glebe Road, Suite 210 Arlington, VA 22203

Dear Mr. Sharma:

Thank you for your comments concerning the Federal Motor Carrier Safety Administration's (FMCSA) New Information Collection Request: The Impact of Driver Compensation on Motor Vehicle Safety [Docket No. FMCSA-2014-0325]. The following are responses to issues you raise in your letter. I have combined your issues into themes and followed each with the response.

Theme: The FMCSA should focus its efforts on issues directly related to its core mission (to reduce crashes, injuries and fatalities involving large trucks and buses) and not concern its resources with the business relationship between motor carriers and drivers.

FMCSA Response: The FMCSA strives to pursue its mission using a strategic approach that not only includes enhancing and enforcing the Federal Motor Carrier Regulations but also reducing the number and severity of commercial motor vehicle (CMV) crashes and enhancing the efficiency of CMV operations by conducting systematic studies directed toward fuller scientific discovery, knowledge, or understanding (FMCSA Analysis, Research and Technology Mission Statement). Conducting research to understand the nature of an industry or entity and the means it conducts its business and operations is at the heart of any safety-conscious work environment including the motor carrier industry. The proposed study is within the FMCSA's mission and is in the best interests of public safety and the motor carrier industry.

Theme: The proposed study implies the FMCSA has a predisposition to eliminating all forms of pay except hourly.

FMCSA Response: The FMCSA acknowledges its statement made on the FMCSA website that "An unintended safety consequence of the pay-per-mile system is that it may reward drivers for speeding and for driving excessive miles." This statement was not intended to imply this research has a predisposition to any particular method of compensation, nor does the research plan reflect such a bias. This study is designed to capture all methods of pay across the motor carrier industry independent of the type of operation and assess its potential relationship to driver

behavior. This research is being conducted to determine whether there is a statistical relationship between method of driver compensation and safety.

Theme: The proposed ICR needs to consider additional influential variables related to safety performance.

FMCSA Response: The FMCSA acknowledges that there may be many factors that affect safe driving performance such as driver experience, training, type of operation, as well as geographic location and so on. This study will focus on how compensation of any method or combination affects driver safety performance but will certainly control for potential confounding variables. Future research efforts may focus on other areas of carrier operations or driver performance.

In response to your comment that FMCSA did not include the survey items in the ICR, we are enclosing a printed copy of the survey questionnaire.

This response is posted along with other public responses in the 30-day Federal Register notice; docket FMCSA-2014-0325. Should you need additional information or assistance, please contact Theresa Hallquist, Mathematical Statistician, FMCSA Research Division, at (202) 366-1064 or theresa hallquist/addt.gov.

Sincerely,

Dr. matel War

Dr. Martin R. Walker Chief, Research Division

Enclosure: MCSA-5887

QUESTION 4: Has your company changed the way it pays its drivers within the past five years? (If "yes," complete questions 5 and 6; if "no," skip to question 7)

 \bigcirc Yes \bigcirc No

QUESTION 5: If you answered "yes" to Question 4, please describe the change your company made to the way it pays it's drivers:

QUESTION 6: If you answered "yes" to Question 4, please explain why your company changed the way it pays it's drivers:

QUESTION 7: Which of the following best describes your trucking operation? (check all that apply)

Short-haul

🗌 Long-haul

🗌 Line-haul

QUESTION 8: If you indicated earlier that you pay by multiple methods of compensation, then this question deals with how your pay methods break down by type of operation. What percent of your operations does each pay method apply to? (Note: complete the applicable operations and pay types from questions 2 and 7)

	Pay by the mile	Pay by the hour	Salary	Pay by percentage of load	Pay by revenue	Pay by delivery or stop	Other	TOTAL
Short-haul		:						
Long-haul								

QUESTION 9: If you indicated that you pay some or all of your drivers by the hour, do you pay overtime?

 \bigcirc Yes \bigcirc No

Line-haul

If "yes," do you pay overtime based on:

☐ More than 8 hours worked per day or shift? ☐ More than 40 hours worked per week?

Some other criterion (*please specify*):

QUESTION 10: If you indicated that you pay some or all of your drivers by the mile, by load, and/or by revenue, do you pay these drivers for time beyond regular pay?

 \bigcirc Yes \bigcirc No

If "yes," do you pay excess time based on:

On-duty hours not driving beyond the 14-hour driving limit?

□ Sleeper berth time? □ On-duty not driving time?

FORM MCSA-5887 Revised 07/01/2014

If "yes," which of the following do you pay for? (check all that apply) For excess mileage driven Detention time/staging Loading/unloading Repair time Training Paperwork Other (please specify): ION 12: What is the average number of drivers who worked for your company over the last 24 months?
