**TITLE OF INFORMATION COLLECTION:**

Fast Track Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

**PURPOSE:**

The National Highway Traffic Safety Administration (NHTSA) was authorized by the Highway Safety Act of 1966 to carry out a Congressional mandate to reduce the mounting number of deaths, injuries and economic losses resulting from motor vehicle crashes on our Nation’s highways. In support of this mission, NHTSA is developing a new phase of a public service campaign designed to increase the proper use of passenger restraints among Hispanic children under the age of 13.

NHTSA would like to conduct a limited number of focus group sessions to help assess creative concepts designed for this national public service advertising campaign. NHTSA proposes to conduct 6 focus group sessions, each lasting 90 minutes. NHTSA proposes to recruit 8 people for each of the 6 groups to seat 6 participants per focus group session. Recruiting will be done via telephone screening calls estimated to take no more than 10 minutes each. The total estimated burden for this information collection is 62 hours.

**DESCRIPTION OF RESPONDENTS:**

The respondents for this survey will be the target audience for the public service campaign: U.S. adults who self-identify as Hispanic, age 25 or older who are parents or caregivers of children ages 0-12. Screening criteria will require that all respondents drive with the children at least three days per week. Screening criteria will also require that respondents speak Spanish at home, either all the time, most of the time, or at least half of the time. The campaign will be distributed nationwide, so all respondents participating in the survey have the potential to be exposed to the public service advertising.
