Request for Approval under the "Generic Clearance for the Collection of Routine Customer Feedback" (OMB Control Number: 2127-0682)

TITLE OF INFORMATION COLLECTION:

PURPOSE:

The National Highway Traffic Safety Administration (NHTSA) has taken significant steps to streamline the grant application process that States use to apply for highway safety grants under Federal law. The steps include deployment of the Grants Management Solutions Suite (GMSS) that allows States to submit application information electronically to the agency. States used an initial version of GMSS to submit applications for fiscal year 2018 grants. Since that time, NHTSA has made additional improvements to the system continuing an overall theme of streamlining and improving the application process. Before final implementation, NHTSA seeks feedback from State users on system usability and function. The process would have State users work through an application process in GMSS and provide feedback on the experience, providing suggestions for improvement. Any information entered into the system would only be used for usability testing and would not be part of an actual grant application. State users will be provided test scripts to help guide their feedback as they use the system.

DESCRIPTION OF RESPONDENTS:

The respondents would be employees of State highway safety offices (SHSOs). SHSOs are the main users of the system and responsible for submitting application information to NHTSA to qualify for Federal grant funds. NHTSA has received significant interest from SHSOs to be part of system usability testing and SHSO employees have volunteered to use the system and provide feedback.

TYPE OF COLLECTION: (Check one)		
[] Customer Comment Card/Complaint Form [X] Usability Testing (e.g., Website or Software) [] Focus Group	[] Customer Satisfaction Survey [] Small Discussion Group [] Other:	

CERTIFICATION:

I certify the following to be true:

- 1. The collection is voluntary.
- 2. The collection is low-burden for respondents and low-cost for the Federal Government.
- 3. The collection is non-controversial and does <u>not</u> raise issues of concern to other federal agencies.
- 4. The results are <u>not</u> intended to be disseminated to the public.
- 5. Information gathered will not be used for the purpose of <u>substantially</u> informing <u>influential</u> policy decisions.
- 6. The collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the future.
