## Appointing Process Steps & Scripts (CSR I)

| Purpose  | Script   |
|--|--|
| CSR receives assigned tasks list from<br>Supervisor (Assignment process may  | N/A  |
| vary)<br>CSR uses Authorization number to find<br>Vet info in CareRadius   | N/A  |
| CSR reviews 'Documentation' tab in<br>CareRadius to determine appointing<br>information. Review to understand<br>appointing requirements.  | N/A  |
| CSR searches the list of potential<br>network providers suggested to the<br>Vet in CareRadius.   | N/A  |
| CSR calls provider to schedule an<br>appointment   | "Hi, this is [name] from TriWest and we have a Veteran who would like to make an appointment with Dr. [name]."   |
| Decision Point: Determine if the<br>provider is able to schedule an<br>appointment within 30 days. [Attempt<br>to schedule an appointment with the<br>provider based on the Veteran's<br>preferred date and time saved in VPA] | "When is the earliest time and date you are able to schedule the appointment?"<br>[Ensure that the appointing is within 30 days]<br>[If it's non-service connected, advise the provider of this determination and the<br>requirement to bill the Veterans OHI before billing VA] |
| Decision Point: [Provider is unavailable<br>to schedule within 30 days] CSR<br>identifies the next network provider<br>within the searched list.   | N/A  |
| If CSR cannot find any available<br>network providers, task it to CSR II<br>'Searchers' team in CareRadius.  |  |
| Decision Point: [Provider is available to<br>schedule within 30 days] Does the<br>provider require additional<br>information prior to the appointing?  | N/A  |
| If provider doesn't require additional<br>information, CSR updates<br>authorization and completes the<br>appointment assessment.   | N/A  |
| CSR notifies the Vet of the appointment information via the Vet's communication preference.  | N/A  |

| CareRadius sends out an automated<br>appointing reminder to the Vet via 72<br>and 24 hours prior to the appointing.   | N/A   |
|---|---|
| Updated authorization is automatically notified to VA via portal.   | N/A   |
| CSR notifies the updated authorization to the provider via Fax Browser.   | N/A   |
| If the provider requires additional<br>information, determine if the provider<br>wishes to speak with the Vet prior to<br>the appointing.   | N/A   |
| CSR reaches out to the Vet to inform<br>that the provider will be contacting the<br>Vet for additional information.   | "I have talked with Dr.[name] to schedule your appointment. You can expect a phone call from the provider to ask you for additional information." |
| CSR waits for the provider to call back<br>within 5 business days. If provider<br>doesn't follow-up, CSR actively reaches<br>out to the provider after five days.   | "I am calling to follow-up on the appointing schedule confirmation for [Vet's name] requested on [date]?"   |
| Decision Point: Is the provider willing<br>to accept and appoint the Vet for a<br>visit? If yes, then update the<br>authorization in CareRadius. If no, start<br>with the next network provider search<br>[APPT-007]. | N/A   |
| If the provider requests to review the<br>Vet's medical documentation,<br>determine if pertinent information can<br>be pulled in CareRadius and/or Fax<br>Browser.  | N/A   |
| Decision Point: Determine if the requested documentation is available.  | N/A   |
| If CSR can track requested<br>documentation, task it to the Med Doc<br>team in CareRadius to fax the relevant<br>documents to the provider's office.  | N/A   |
| Determine if the provider requests for additional medical documentation.  | N/A   |
| If additional medical documentation is<br>not available, CSR requests them to VA<br>through portal. Upon receipt, VA will<br>directly send the documentations to<br>the provider's office.                            | N/A   |
