CDC Colorectal Cancer Control Program (CRCCP)

Grantee Survey of Program Implementation

Public reporting burden of this collection of information is estimated to average 75 minutes per response including the time for reviewing the instructions and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road, NE, MS D-74, Atlanta, GA 30333, ATTN: PRA(0920-XXXX)

SURVEY PURPOSE

Thank you for taking the time to complete the 2014 CRCCP Grantee Survey of Program Implementation! This survey is very similar to the one you completed last fall; it will take time, thought, and in some cases investigation on your part to answer the questions thoroughly. The information you provide will help us understand how grantees are implementing the CRCCP, including the evidence-based interventions recommended by the Guide to Community Preventive Services (Community Guide). Results of the survey will be incorporated into a year five CRCCP grantee report for you and other stakeholders.

The purpose of this survey is to:

- 1. Understand how grantees are implementing CDC's Colorectal Cancer Control Program (CRCCP)
- 2. Assess how implementation changes each year
- 3. Collect information related to technical assistance and training needs

INSTRUCTIONS AND SURVEY INFORMATION Updated 9/21/14

Who should complete the survey?

The person responsible for day-to-day management of the program should complete this survey. He or she is encouraged to consult with others as needed to answer the questions as completely as possible.

For what time period am I reporting?

Please answer all questions for the program year 5 (PY5), time period: July 1, 2013 – June 30, 2014.

How is this survey different from last year's survey?

This year's survey is similar to the annual Grantee surveys you've been completing since 2011. The majority of the content is the same. The biggest changes to the 2014 survey are:

Re-inserted questions: Last year we deleted items throughout the survey that were unlikely to change since 2012. We have reinserted these questions. We have also added some questions to help us continue to understand how your CRCCP may be affected by Affordable Care Act (ACA) legislation.

What topics are covered in the survey?

The survey covers the same content as in the previous survey years. It is organized into the following sections:

- Background: Respondent Information
- Section 1: [Re-inserted] CRCCP Management and Integration with Other Programs
- Section 2: CRC Screening ProvisionSection 3: CRC Screening Promotion
- Section 4: CRC Screening Data from FQHCs and IHS Clinics
- Section 5: Training and Technical Assistance for Evidence-Based Interventions
- Section 6: Screening Policies and Strategies
- Section 7: General Program Management (i.e., Monitoring and Evaluation, Administrative Issues)

However, some questions may not pertain to your organization and in such cases you may skip those sections.

Given the length of the survey, you may wish to complete the survey in several sittings. The following groupings may be "natural" chunks:

- · Background + Sections 1 and 2
- Sections 3 and 4
- Sections 5, 6, and 7

If you leave the survey or close your Internet browser, the next time you visit the survey link, you will be directed to the same page from which

Are you including contractors and partner organizations when you refer to "my CRCCP"?

For purposes of simplicity, the survey will refer to all grantees' programs as the CRCCP, even though most grantees have given their programs a unique name. Questions will also refer to your CRCCP as "your organization." In all instances, "your organization" is meant to include the organization that is the main cooperative agreement recipient, as well as any of your contractors. We understand that you may also be working with unfunded partner organizations to implement your CRCCP. The survey includes questions that will ask about partners, whether funded or

2014 CRCCP Survey

Sections 2 and 3: My state's CRCCP program is funded by both state and federal funds. All of our contractors use state funds to fund their colorectal cancer screening, but only some use federal funds. When speaking of screening (promotion or provision), do you only want us to talk only about screenings funded through the CRCCP?

For the screening provision/promotion sections of the survey, please include only the contractors that are paid by CRCCP (federal) funds.

However, to help us get a more complete picture of your state's screening efforts, at the end of the appropriate provision or promotion section(s), you'll be asked to tell us "anything else" about your CRC provision/promotion efforts; please use these boxes to tell us about your state's CRCCP overall screening services that are funded by both state/fed funds together, e.g. funding source proportion, anything about your other contractors, their combined and/or separate reach, etc. If only some contractors receive federal CRCCP funds, please also provide information in the comments areas regarding why those contractors were chosen by your CRCCP, and based on what selection criteria they were chosen, (e.g. was having contractors deal with CDC data collection of CDEs an issue?)

Can I receive a summary of my survey results for our files?

Yes! Instructions for receiving a copy of your responses will appear at the end of the survey.

Who can I contact with questions about the survey? Please contact Thuy Vu at thuytvu@uw.edu or 206-669-0897

Who can I contact about technical difficulties with the web survey? Please contact Thuy Vu at thuytvu@uw.edu or 206-669-0897

Can I download and print out a hard copy of the survey?
Yes! You may find it helpful to download the survey and skim through it first. This will add some time up-front, but it will give you an idea not just of the questions being asked, but of where you might need to consult with your colleagues to answer the questions as accurately as possible.

If you identify questions where you'll need to consult with your colleagues, copy and paste the question(s) from the print document (PDF) into a new document or email, or print the document and flag the item(s) or page(s) to show your colleague; unfortunately you cannot email specific questions directly from the web survey.

The printed version of the survey will look long, but keep in mind that it includes every question, even the ones that you will not need to answer. (In the web survey, as you answer each question, you will be shown only the next question that you need to answer. As a result, question numbering in the online survey may not seem sequential, as some questions will be skipped.)

To download and print the survey:

Right click on the link above and choose "Save link as" to save the PDF to a specific location on your computer.

Open the PDF by double clicking it and click the print button. (If you do not have Adobe Reader, you will have to install Adobe Reader. Click here

What are examples of types of questions where I'll need to consult with colleagues or partners to answer them?

Examples of questions that may require consultation with your colleagues or partners are included in the FAQ. You can download the FAQ here, or by clicking on the FAQ link at any time at the top of the survey screen.

Can I save my survey progress and continue it at a later time?

Yes! If you leave the survey or close your Internet browser, the next time you visit the survey link, you will be directed to the same page from which you left.

Can I go back and review or change my answers?

Yes. Use the "Previous" button at the bottom of each screen to go back and review or update your response.

Please note that at the end of the survey you will be able to review a summary of all the answers you provided.

2014 CRCCP Survey

E. Provider Assessment and Feedback for CRC Screening Promotion
Provider assessment and feedback interventions both evaluate provider performance in delivering or offering screening to clients (assessment) and present providers with information about their performance in providing screening services (feedback).
Feedback may describe the performance of a group of providers (e.g., average performance for a practice) or an individual provider, and may or may not be compared with a goal or standard.
The following questions ask about provider assessment and feedback systems for CRC screening promotion that have been implemented as a part of the CRCCP during program year 5 (PY5).
1. Did your organization offer provider assessment and feedback to promote colorectal cancer screening in PY5?
Your organization" refers to you, your contractors and/or partners.
O Yes, we used provider assessment and feedback for CRC screening promotion in PY5.
O No, we did not use provider assessment and feedback for CRC screening in PY5, but we have in the past (i.e. during any previous CRCCP contract year).
O No, we have never used provider assessment and feedback for CRC screening promotion.
1a. What are the main reasons your organization has <u>not</u> used provider assessment and feedback to promote CRC screening, to date?
^
Y
1b. Please describe your organization's previous attempts at using provider assessment and feedback to promote CRC screening, including:
- For how long you implemented it
- Partner involvement (if any) - What type of provider assessment feedback were used
· ·
▶ 2. For how long has your organization been using provider assessment and feedback for colorectal cancer screening promotion?
O Less than 6 months
O 6-11 months
O 1-2 years
O 3-4 years
O 5 years or more
▶ 5. Did you use any of the following types of <i>provider assessment and feedback</i> as a part of your CRCCP screening promotion efforts in PY5?
(Check all that apply.)
Evaluating provider performance in delivering or offering screening to clients (assessment).
Presenting providers with information about their performance in providing screening services (feedback).
▶ 5.a.i. Please describe your provider assessment efforts, including what's being assessed, how you've been conducting the assessment, and how those efforts have been going, to date.
^
~
▶ 5.a.ii. Where is the provider assessment being used?

F. Patient Navigation for CRC Screening Promotion

A patient navigator guides the patient through the process of completing colorectal cancer screening by helping to reduce patient-specific barriers. Some programs may refer to this as case management. Some roles of the patient navigator (PN) include:

- Assisting with scheduling appointments, transportation, or dependent care
 Providing patient education about CRC screening and testing modalities for screening (e.g., rationale, importance, bowel prep)
 Reminding patients about their colonoscopy appointment or returning their FOBT/FIT kits
 Providing peer support to help with cultural or emotional concerns (e.g., allay fears)

The following questions ask about your organization's support for patient navigators (PN)/case managers (CM) for CRC screening promotion. We are interested in your support for PN/CMs in settings where you are paying for CRC screening directly

(screening provision), and in settings where ye	ou are not.
These first questions ask about the use of patient na are paying for CRC screening directly (screening pro	avigators or case managers in organizations $\emph{other than}$ those providers/clinics where you ovision).
	navigator program(s) in any organizations (e.g., FQHCs, IHS clinics) other than those
providers/clinics where you are paying for CRC sc	agement in PY5 for CRC screening provision) in PY5?
o providers/clinics where we were paying for CF	
	e management in PY5 to promote CRC screening in organizations other than those RC screening directly, <u>but we have in the past</u> (i.e. during any previous CRCCP contract
1 1	r case management for CRC screening promotion in organizations other than those
providers/clinics where we were paying for CF	RC screening directly.
	npts at using patient navigation or case management in these settings to promote ow long you used it, partner involvement (if any), and types of activities or services the
	^
	>
▶ 1aii. Why did your CRCCP stop using patient nav	vigators or case managers to promote CRC screening in these settings?
	^
C Less than 6 months C 6-11 months 1-2 years 3-4 years 5 years or more	
▶ 1c. How are these patient navigators/case mana (Check all that apply.)	agers for CRC screening promotion supported?
☐ Reimbursement to providers for FTE support	t
Per- patient navigation/case management re	
☐ Grantee staff serving as patient navigators/o	
☐ In- kind from a community partner/program	<u>i</u> ¬
Other (specify)	
▶ 1d. Please specify any core navigation activities component. (Check all that apply.)	that are routinely offered as part of those organizations' CRC screening promotion
☐ Patient assessment of barriers to screening	
☐ Patient education (about anatomy, CRC, CRC	C screening, bowel prep)
Assistance with transportation, language tra	inslation, child/eldercare
Assistance with appointment setting	
☐ Assistance with identifying payment for scre	-
 □ Reminder calls/emails for bowel prep and/or □ Reminder calls/emails for return of FOBT/FIT 	
Peer support/motivation for screening	1 (6)(6)
-	RC screening and ensure understanding of results provided by medical team
	d CRC screening (e.g. Linkages with health fairs and clients in community)
	and colorectal screening, (e.g., flagging charts for medical providers for those eligible for
	patient navigators/case managers that are supported in organizations other than those reening directly. In the table below, please provide the numbers to complete the following

If your organization supports only per-patient navigation reimbursement or per-case management reimbursement, write-in "Don't Know" (case sensitive) in each applicable field.

__ FTEs (regardless of the number of people) are supported at

patient navigators/case managers, or ____

sites or clinics.

ightharpoons	Patient Navigators/Case Managers
	Full Time Equivalents, i.e., FTEs (regardless of the number of people)
At	Sites/Clinics
N 16 I	Do come or all of the national navigators (case managers for cereaning promotion in these examplations also provide national
	Do some or all of the patient navigators/case managers for screening promotion in these organizations also provide patient igation/case management support for your screening provision activities?
0	No
	Yes. Please describe.
0	Don't Know
▶1g.	About how many CRC screening patients (total) do these organizations' patient navigators/case managers support in a year?
0	1-100 patients
_	101-500 patients
	501-1000 patients
	1001-5000 patients More than 5000 patients
	Don't know
	next questions ask about your organization's use of patient navigators or case management to promote colorectal cancer at
provide	r/clinic sites where you are paying for CRC screening directly.
	d your organization use patient navigation (PN) or case management (CM) to promote colorectal cancer screening at provider/clinic where you are paying for CRC screening directly in PY5?
	(es, we used patient navigation or case management in PY5 for CRC screening promotion at provider/clinic sites where we were paying
o f	or CRC screening directly.
0	No, we have never used patient navigation or case management for CRC screening promotion.
_	I/A - We do not pay for CRC screening directly
_	
	Please describe your organization's previous attempts at using patient navigation or case management to promote populationed CRC screening, including:
- Fo	r how long you used it
	ortner involvement (if any) spes of activities or services the PN/CM was responsible for

	*
	id you offer technical assistance (TA) on how to use any of the five Community Guide-recommended EBIs to increase colorectal cancer
O '	ening to your partners, subcontractors, community health workers, patient navigators, or provider network in PY5?
0 1	
-	Don't know
2- 5	Non-describe the technical excitator (TA) and found as beauty of the first Country (Colds assessed of FDT) to improve
	Please describe the technical assistance (TA) you offered on how to use any of the five Community Guide-recommended EBIs to increase screening. Please describe training content, target audience, etc.
	^
	× ·
	which activities do you/your staff most need technical assistance, training, or other support to enhance program implementation in the year?
	Program Management – (Check up to 3.)
	Developing program infrastructure
	Staffing
_	Recruiting providers for screening provision
	Contract management
	Comprehensive program planning
	Grant writing
	Identifying funding
=	Managing budget funding
=	Communication Integrating programs
	Working with or managing contractors
	Other, please specify
_	None. We do not desire any training in this area.
	Partnership Development – (Check up to 3.)
	This area (partnership development) has not been addressed yet by our program.
	Maintain a relationship with CDC-funded programs (e.g. CCC, NBCCEDP, WISEWOMAN) Maintain a relationship with the Central Cancer Registry
	Develop and maintain a partnership with your state/tribal organization's CCC coalition
	Develop and maintain partnerships with private and nonprofit health care systems
	Develop and maintain partnerships with private health insurers
	Develop and maintain a partnership with your state State Medicare and Medicaid office
	Develop and maintain a partnership with FQHCs
	Develop and maintain partnerships with professional organizations (e.g., state GI or primary care provider association)
	Develop and maintain partnerships with other organizations. Please specify
_	Developing partnership agreements (e.g. MOU/MOA)
	Evaluating partnerships
_	Severing ineffective partnerships
_	Other, please specify
ш '	None. We do not desire any training in this area.
	Screening Provision – (Check up to 3.)
	Establish program infrastructure
	Convene and maintain a Medical Advisory Board Convene and maintain a Community Advisory Board
	Recruit underinsured and uninsured individuals for CRC screening with CDC funds
	Implement patient navigation and other support services
	Provide or support the provision of screening and diagnostic services
	Ensure appropriate treatment for complications and cancers
	Support insurance enrollment
_	Develop and promote quality control standards and mechanisms among program-funded providers
_	Develop and promote clinical policies and procedures among program-funded providers
	Develop, promote, or enhance training to educate health care professionals among program-funded providers
	Address or resolve billing issues, e.g., determining Medicare rates/overbilling, dissatisfaction with rates
	Other, (please specify) None. We do not desire any training in this area.
ш '	Notice, we do not desire any training in this area.
3d. (CRC Data Collection and Evaluation – (Check up to 3.)
	Establish a patient data tracking system screening provision component
	Collect and report patient data and monitor data quality through
_	Collect and report program activity cost data through the CAT
	Develop an evaluation plan for your (e.g., formative, process, outcome, impact) Conduct evaluation activities for your
Ц,	consider evaluation acceptage for your

☐ Collaborate with central cancer re☐ Use data for program monitoring	er sources (e.g., CRC screening rates from large health systems)
Use data for program monitoring	egistry for data linkages and other purposes
☐ Implement strategies to documer	nt and communicate program value to stakeholders (e.g. legislators, funders, administrators)
☐ Other (please specify)	
☐ None. We do not desire training in	n this area.
	naterials not previously covered in this section, that would be helpful to you as you implement any of
_	commended by the Community Guide?
O Yes	
O No	
O Not applicable: My organization is	s not currently using any Community Guide recommended strategies for CRC screening promotion
	es or materials not previously covered in this section, that would be helpful to you as you implement gies recommended by the Community Guide.
