**To:** Samuel, Lee (CDC/OID/NCEZID); Youngblood, Laura (CDC/OID/NCEZID)  
**Subject:** FW: Research Determination 29190: Mosquito Bite Prevention Kits (Puerto Rico) - CORRECTED  
**Attachments:** Service Delivery Fast Track Template\_MPK 2017.docx; MPK Feedback Postcard.pdf

Hi Lee and Laura,

The completed clearance form and a copy of the final instrument are attached. The instrument will be a postage-paid comment card.

Please see research determination information below. Let me know if you need additional information regarding the determination or the clearance request.

Thanks,  
Kristen

**Subject:** RE: Research Determination 29190: Mosquito Bite Prevention Kits (Puerto Rico) -CORRECTED

**NOTICE:** The email that I issued earlier today had an incorrect project title within in the body of the email. Please consider this email as the correct and complete determination—I apologize.

Dear Kristen, Sue, Melody:

The proposed project titled “**Mosquito Bite Prevention Kits (Puerto Rico)**” was reviewed by the NCBDDD Human Subjects Contact and determined to be:

### **Non-Research: Public Health Practice—Program Evaluation**

The scope of all activities should be limited to public health practice and must not involve research. Since the project is not considered to be research, no further action is required by CDC for human subjects protections in accordance with federal regulation for the protection of human subjects in research.

If the scope of the project or CDC's role changes beyond that described, you must have the project re-reviewed by the Human Subjects Contact in accordance with the federal regulations for the protection of human subjects in research.

If you feel this determination requires revision, please email me immediately and a revised determination will be considered.

This email is not an OMB-PRA determination.

Please save this email as documentation of the determination, and please email or call me with any questions.

Signed,

*Scott*
