

SUBJECT: Weekly active monitoring reports due this Wednesday 03/25/15 (Early submissions welcomed)

Dear Colleagues -

Thank you all for submitting your report last week. These reports help us demonstrate that public health can effectively ensure the early detection and treatment of Ebola Virus Disease among persons in the U.S., allowing continued support of the Ebola outbreak response efforts worldwide.

*****NEW ***** NEW ***** NEW

- **The weekly monitoring report form has been revised to capture aggregate data on ALL persons (low, some, and high) under monitoring for Ebola Virus Disease.** A Weekly Monitoring Report Template is attached to assist in preparing your jurisdiction's weekly report.
- **To submit your report for all persons under monitoring for the week of March 9 - March 15, please click on this new link:**
http://phprsurveys.cdc.gov/mrIWeb/mrIWeb.dll?I.Project=WEEKLYREPORT_V2_LOWEBOLARISKEEXPOSURE
- **All jurisdictions should submit a report every Wednesday (early submissions welcome), even if the total number of individuals under monitoring was zero.**
- **Attached is the Active Monitoring Report for February 23 - March 1 (Week 18).** Congratulations on 99.9% contact of travelers for monitoring!

A few reminders:

1. The weekly report should include all persons under monitoring according to [CDC's Interim U.S. Guidance for Monitoring and Movement of Persons with Potential Ebola Virus Exposure](#).
2. Jurisdictions should use Epi-X to securely transfer monitoring responsibilities to another jurisdiction when a person under monitoring travels across jurisdictions.
3. Reports should be submitted by **COB on each Wednesday** (early submissions are welcome).
4. Questions and comments can be sent to eocstate@cdc.gov.

Kind regards,
