

Online Collaborator Solicitation - BrIDGs

From Altum PCDEMO site, 10-9-2014

Proposal To: NIH - BrIDGs NIH - BrIDGs Program

Title (Applicant): Test application to BrIDGs program (AMP) (Pilon, Andre)

Deadline: 2/1/2013 5:00:00 PM (U.S. Eastern Time)

The submission deadline for this program has passed and you cannot submit the application.

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The current OMB number is 0925-0658. The expiration date is: 06/30/2015. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0658). Do not return the completed form to this address.

This is an opportunity to collaborate with the BrIDGs Program. No funds will be awarded to successful applicants.

Instructions

Enter a title for your application, then press Save. Press Next to save any changes and go to the next proposal section.

* Project Title Test application to BrIDGs program (AMP)

* Affiliation Government Agency

* Is this a resubmission No

* Please select:

Application Type

* How did you hear about BrIDGs? Other

If you selected Conference or Other, please describe Colleague is a current BrIDGs collaborator

* Mechanism of Action N/A

* Therapeutic Area Other

If you selected Other, please describe Hematology

* Indication N/A Enter a description

If this is a resubmission, please select the appropriate application from the list of your prior submissions through proposalCENTRAL.

Many of the grantmakers in proposalCENTRAL request or require that applicants submit their attachments as portable document format (.pdf). Using PDFs allows you to preserve the formatting of your document. In order to save your documents as PDFs, you will need to use PDF generator software. The National Endowment for Humanities website (neh.gov) provides a sampling of PDF generators, available for both PCs and Macs, along with websites that will do the conversion for you. Many are free or very low-cost. [Click here for a list of PDF generators.](#)

Hints & Tips for Access Permissions: Click to Show/Hide

This screen allows you to give other users access to your grant application. When you give a person access to your grant application, you can give them one of three levels of permissions. These include:

- View (View only. Cannot change any details.)
- Edit (Can view and change information in the grant application. Cannot Submit or view this Access Permission screen)
- Administrator (Can view, edit and submit the application. Can give access rights to others.)

Steps to Give Another Person Access to Your Grant Application:

1. Make sure each person is registered. To grant access to another person, that person must be registered as a "user" in the proposalCENTRAL system. If they are not registered, direct them to register the same way that you did. They do not need to completely fill out their Professional Profile - only the required fields of first and last name.
2. Enter the "userid" of the person you wish to give access to in the "User ID/E-Mail" field of the "Proposal Access User Selector" section at the bottom of the screen then click the "Find User" button. The person will now be added to the list at the top of the page of users who have access to your application. The default access permission is "View."
3. Finally, select the permissions level for the person you have just added - View, Edit, or Administrator - then click the "Accept Changes" button.

Note: This process only gives access to your application, access to your Professional Profile must be done separately from within the Professional Profile.

Note: The check boxes for "Approval Section" and "References" in the **Proposal Access Rights** section below have **no effect** on the permissions granted to other users at this time.

Auto Notify: To enable your co-investigators, department or grants administrators to receive system notifications, add them with at least "View" access below and check the box "Auto Notify".

Proposal Access Rights

Del	Auto Notify	Role	Name	E-Mail	Permissions
			Pilon, Andre	pilona@mail.nih.gov	Administrator
Accept Changes					

Proposal Access User Selector

User Selector User ID/E-Mail Enter the E-Mail address or User ID of the User and press the button to select.

Proposal Identifiers

Proposal ID: 66752

Project Information Category[Save](#)[Print](#)[<<Previous](#)[Next>>](#)[Cancel](#)[Exit](#)**Biology/Efficacy:***** Select the button that describes the stage of your project:**

- Identified target(s), likely pharmacological endpoints & functional assays; defined mechanism of action (MOA) of lead compounds; projected the human efficacy dosage and dosing regimen; developed PK/PD relationship
- Demonstrated in-vivo pharmacology in a key animal model (not necessarily by the route of administration)
- Not yet demonstrated in-vivo pharmacology OR in vivo model not yet available or validated
- Not Sure

Medicinal Chemistry:*** Select the button that describes your project stage:**

- SAR trends exemplified; no significant physiochemical property concerns
- SAR trends have been identified. Modest challenges still exist, including pharmacologic potency-SAR trends are developing
- SAR trends are unclear OR chemistry complexity interferes with the team's ability to advance the SAR OR multiple active platforms remain to be prioritized
- Not Sure

Drug Metabolism and Pharmacokinetics (DMPK) Characterization:**In vivo pharmacokinetic studies and/or in vitro ADME assays (e.g., solubility, permeability, metabolic stability) of lead compounds in this proposal show they have the following DMPK characteristics (select one):***** Select the button that describes your project:**

- High quality DMPK characteristics, thus leads need minimal structure modification

Project Information (cont'd)

Unassigned

$CL_{int} < 0.5$ HBF, $1 \text{ h} < PK \ t_{1/2} < 8 \text{ h}$, or $50\% < \%F < 80\%$)

- Poor DMPK characteristics, thus leads need major structure modification (e.g., solubility $< 10 \text{ }\mu\text{g/mL}$, $CL_{int} > 0.5$ hepatic blood flow (HBF), $PK \ t_{1/2} < 1 \text{ h}$, or $\%F < 20\%$)
- Unknown DMPK characteristics, because few studies have been performed

Toxicology

*** Select the button that describes your project:**

- Chronic toxicology in two species completed successfully; finished safety pharmacology, mutagenicity, and sub-chronic tox studies
- Conducted acute toxicological studies in rodents; no data generated to date to cause concern
- Literature or experience with this platform indicate that toxicology may be an issue (for peptides, immunogenicity issues have been identified with the lead molecule) OR for pre-lead efforts - in silico & appropriate Tox due diligence not yet complete
- Not Sure

Chemistry, Manufacturing and Controls (CMC)

Select the button that describes the stage of your project most accurately:

- API scale up – no purification issues, all reactions are scalable; Formulation – identified formulation of lead compounds for animal testing and FIH testing; Bioanalytical methods – developed and validated bioanalytical methods
- Have preliminary characterization of API, purity, stability, solvents, for NBE's: chemical composition, glycosylation patterns, payload/protein scaffold ratio, etc.
- Have preliminary formulation and bioanalytical methods for animal studies
- Have not initiated any work on CMC for the lead compounds
