Each day of the 6-month period must be accounted for (i.e., total of all living situations should be 180 days) and each time period noted should be associated with only one living situation.]*

I'd like to ask you about where (*child's name*) has lived or stayed in the past 6 months and who have been his/her caregivers in those places. Let's talk about where he/she lives or stays now and then about other places he/she may have lived or stayed.

*Instructions to respondent:* This questionnaire contains 36 statements. For each statement, please focus on (*child's name*) and tell me whether you *strongly agree* with the statement, *agree* with the statement, are *not sure*, *disagree* with the statement, or *strongly disagree* with the statement. **Instructions**

This questionnaire contains 36 statements. Read each statement carefully. For each statement, please focus on the child you are most concerned about, and circle the response that best represents your opinion.

Circle the SA if you strongly agree with the statement.

Circle the A if you agree with the statement.

Circle the NS if you are not sure.

Circle the D if you disagree with the statement.

Circle the SD if you strongly disagree with the statement.

For example, if you sometimes enjoy going to the movies, you would circle A in response to the following statement:

I enjoy going to the movies. SA **(A)** NS D SD

While you may not find a response that exactly states your feelings, please circle the response that comes closest to describing how you feel. **YOUR FIRST REACTION TO EACH QUESTION SHOULD BE YOUR ANSWER.**

Circle only one response for each statement, and respond to all statements. **DO NOT ERASE!** If you need to change an answer, make an "X" through the incorrect answer and circle the correct response. For example:

I enjoy going to the movies. SA A NS ~~(A)~~ **(SD)**

Before responding to the statements, write your name, gender, date of birth, ethnic group, marital status, child's name, child's gender, child's date of birth, and today's date in the spaces at the top of the questionnaire.

## Section 6. Response Form

Directions: The *Preschool Behavioral and Emotional Rating Scale* (PreBERS) contains a series of statements that are used to rate a preschool child's behaviors and emotions in a positive way. Read each statement and circle the number that corresponds to the rating that best describes the child's status over the past 2 months. If the statement is very much like the child, circle the 3; if the statement is like the child, circle the 2; if the statement is not much like the child, circle the 1; if the statement is not at all like the child, circle the 0. In making your rating, it is important that you consider this child's behavior in relation to other preschool children of similar age and gender. Rate each statement to the best of your knowledge of the child.

Now I'm going to ask you some questions about the specific services that (*child's name*) or your family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (*child's name*) or your family received the service. If you received the service, I will ask you how

often the service was received. Please try to estimate, to the best of your ability, the number of **days** you received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let’s review the 6-month timeline that we’ll be using. It is similar to the one we have used with the other questionnaires.

**[TIMELINE]**

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child’s name*) had a problem with substance abuse, including alcohol and drugs?

- 1 = No [For Questions #10–35, do **not** ask questions in column “c”]
- 2 = Yes [For Questions #10–35, ask questions in **all** columns]

*[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle **No** and continue with the next service description. Only ask “c” if caregiver answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]*

Now I'm going to ask you some questions about the specific services that (*child's name*) or your family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (*child's name*) or your family received the service. If you received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of **days** you

received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let’s review the 6-month timeline that we’ll be using. It is similar to the one we have used with the other questionnaires.

**[TIMELINE]**

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child’s name*) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column “c”]  
2 = Yes [For Questions #10–35, ask questions in **all** columns]

*[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask “c” if caregiver answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]*

Now I'm going to ask you some questions about the specific services that (*child's name*) or his/her family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (*child's name*) or his/her family received the service. If they received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of **days** they received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

**[TIMELINE]**

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child's name*) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column “c”]  
2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle **No** and continue with the next service description. Only ask “c” if respondent answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]
