Section A. Introduction

Title XIX, Part B, Subpart III of the Public Health Service Act (42 U.S.C. 300x-52(a)) requires the Secretary of the Department of Health and Human Services, acting through the Administrator of the Substance Abuse and Mental Health Services Administration (SAMHSA), to determine the extent to which States and Jurisdictions have implemented the State plan for the prior fiscal year. The purpose of the Annual Report is to provide information to assist the Secretary in making this determination.

States and Jurisdictions are requested to prepare and submit their reports for the last completed State Fiscal Year (SFY) in the format provided in this guidance. The report will address the purposes for which the MHBG were expended, the recipients of grant funds, and the authorized activities conducted and services purchased with such funds. Particular attention should be given to the progress made toward accomplishing the goals and performance indicators identified in the States' and Jurisdictions' plans.

All States and Jurisdictions are required to prepare and submit their respective reports utilizing SAMHSA's Web Block Grant Application System (BGAS). This report must be received by SAMHSA not later than December 1 in order for the State or Jurisdiction to receive its next grant. If the due date falls on a weekend or Federal holiday, the report will be due on the next business day. The following schedule includes specific due dates for annual reports:

Due Dates for MH and Combined BG Components						
FY for which the state	Application	Plan	Planning Period	MHBG Report		
is applying for funds	Due	Due		Due		
2016	9/1/2015	Yes	7/1/15 - 6/30/17	12/1/2015		
				Report year is Last		
				Completed SFY		
2017	9/1/2016	No*	Updates only	12/1/2016		
				Report year is Last		
				Completed SFY		

States and Jurisdictions are required to complete the Reporting Document. The Reporting Document is comprised of the following sections:

Section B: Implementation Report - In this section, States and Jurisdictions are required to provide a brief review of the extent to which their respective plans were implemented, the progress towards the priorities and goals identified in the Block Grant plan covering the last completed fiscal year. The report should also include a brief review of areas that the State or Jurisdiction identified in that Block Grant Plan as needing improvement and changes that the State or Jurisdiction would propose to achieve the goals established for the priorities.

Section C: State Agency Expenditure Reports - In this section, States and Jurisdictions should provide information regarding expenditures for authorized activities and services for mental health.

Section D: Populations and Services Report - In this section, States and Jurisdictions must provide specific information regarding the number of individuals that were served with MHBG funds. In addition, States and Jurisdictions should provide specific information regarding the services these individuals received.

Section E: Performance Indicators and Accomplishments - In this section of the report, States and Jurisdictions are required to complete the Performance Indicator tables. Performance indicators should be reported using the table format provided in this document. The purpose of the performance indicator tables is to show progress made over time as measured by SAMHSA's National Outcome Measures (NOMS) for mental health services as well as any State- or Jurisdiction-selected performance indicators.

B. Implementation Report

The information States and Jurisdictions entered into the performance indicator tables (Plan Table 1) in the planning section of the 2016/2017 Behavioral Health Assessment and Plan will automatically populate cells 1 – 6 in the progress report tables below. States and Jurisdictions are required to indicate whether each first-year performance target/outcome measurement identified in the 2016/2017 Plan was "Achieved" or "Not Achieved" in Cell 7, Report of Progress toward goal attainment. If a target was not achieved, a detailed explanation must be provided as well as the remedial steps proposed to meet the target.

C. State Agency Expenditure Reports

States and Jurisdictions should provide information regarding MHBG and State funds expended for authorized activities to prevent and treat mental illness during the last completed State fiscal year (SFY). Please complete the tables described below. Please Note: Data for all tables contained in the Uniform Reporting System (URS) will continue to be submitted into the URS data base maintained by the URS Contractor. Please complete the tables described below.

MHBG Table 2 (URS Table 7) - *State Agency Expenditure Report.* MHBG Table 2 provides information on Mental Health Expenditures and Sources of Funding. This includes funding from Medicaid, the MHBG and other federal funding sources, state, local and other funds.

MHBG Table 3 - *MHBG Expenditures by Service MHBG*. Table 3 is to be used to report MHBG expenditures by unduplicated individual and specific services.

MHBG Table 4 - *Set-aside for Children's Mental Health Service*. This table provides a report of state-wide expenditures for children's mental health services during the last completed State fiscal year (SFY).

MHBG Table 5 (URS Table 8) - *Profile of Mental Health Block Grant Expenditures for Non-Direct Service Activities.* MHBG Table 5 is used to report expenditures of MHBG funds for non-direct service activities that are funded or conducted by the State Mental Health Authority during the last completed State fiscal year (SFY).

MHBG Table 6 (URS Table 10) - *Statewide Entity Inventory*. This table reports payments to recipients of MHBG funds including intermediaries, e.g., administrative service organizations, and other organizations which provided mental health services during the last completed State fiscal year.

MHBG Table 7 - Maintenance of Effort for Statewide Expenditures for Mental Health Service. This table reports expenditures of all statewide non-Federal expenditures for authorized activities to prevent and treat mental illness during the last completed State fiscal year (SFY).

MHBG Table 2 (URS Table 7) - MHBG State Agency Expenditure Report

This table describes expenditures for public mental health services provided or funded by the State mental health agency by source of funding. **Include ONLY funds expended by the executive branch agency administering the MH Block Grant.**

D. Populations and Services Report

States and Jurisdictions are requested to provide information regarding individuals that are served by the state mental health authority using MHBG Tables 8 through 14.

MHBG Table 8A and 8b *Profile of Clients by Type of Funding Support* MHBG Tables 8A and 8B provide the number of female and male clients by race and by ethnicity that have: Medicaid Only, Non-Medicaid Sources, Both Medicaid and Non-Medicaid, and Status Not Available.

MHBG Table 9 (URS Table 1) *Profile of the State Population by Diagnosis* MHBG Table 9 provides the number of Adults with SMI and Children with SED in the reporting year and in three years forward.

MHBG Table 10 (URS Table 12) *State Mental Health Agency Profile* MHBG Table 10 provides the Populations covered in State hospitals and Community program in age categories; 0-3, 4-17 and 18 and above.

MHBG Tables 11A and 11B (URS Tables 2A and 2B) *Profile of Persons Served, All Programs by Age, Gender and Race/Ethnicity* MHBG Tables 11A and 11B provide an aggregate profile of unduplicated persons in the reporting year. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the state mental health agency. The client profile takes into account all institutional and community services for all such programs. States and Jurisdictions are to provide this information on all programs by age, gender, race/ethnicity.

MHBG Table 12 (URS Table 3) *Profile of Persons Served In the Community Mental Health Settings, State Psychiatric Hospitals and Other Settings* MHBG Table 12 provides an aggregate profile of unduplicated persons in the reporting year for services funded through the MHBG. The reporting year should be the latest state fiscal year for which data are available. This profile is based on a client receiving services in programs provided or funded by the MHBG. The client profile takes into account all institutional and community services for all such programs. States and Jurisdictions are to provide this information on all programs by age, gender, race, and ethnicity.

MHBG Tables 13A,13 B and 13C (URS Tables 14A and 14B) *Profile of Persons with SMI/SED Served By Age, Gender and Race/Ethnicity* MHBG Tables 13A, 13B and 13C request counts for persons with SMI or SED using the definitions provided by the CMHS. MHBG Tables 13A, 13B and 13C included individuals receiving services in programs provided or funded by the state mental health agency. These tables count only clients who meet the CMHS definition of SMI or SED. States and Jurisdictions should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using the state's definitions of SMI and SED and provide information in these tables describing your state's definition.

MHBG Table 14 (URS Table 6) *Profile of Client Turnover* MHBG Table 14 requests information regarding the profile of client turnover in various out-of-home settings (e.g. state hospitals, inpatient

psychiatric hospitals, residential treatment centers). Information collected by this table requests admissions, discharges, and length of stay.

MHBG Table 8A. Profile of Clients by Type of Funding Support (URS Table 5A)

This table provides a summary of clients by Medicaid coverage. Since the focus of the reporting is on clients of the public mental health service delivery system, this table focuses on the clientele serviced by public programs that are funded or operated by the State Mental Health Authority. Persons are to be counted in the Medicaid row if they received a service reimbursable through Medicaid.

Please note that the same person may be served in both Medicaid and Non-Medicaid programs during the same reporting period.

MHBG Table 9 (URS Table 1). Profile of the State Population by Diagnosis

This table summarizes the estimates of adults residing within the State with serious mental illness (SMI) and children residing within the state with serious emotional disturbances (SED). The table calls for estimates for two time periods, one for the report year and one for three years into the future. CMHS will provide this data to States based on the standardized methodology developed and published in the Federal Register and the State level estimates for both adults with SMI and children with SED.

MHBG Table 9		
Report Year:		
State Identifier:		
	Current Report Year	Three Years Forward
Adults with Serious Mental Illness (SMI)		
Children with Serious Emotional Disturbances (SED)		

Note: This Table will be completed for the States by CMHS.

Note: Clients can be duplicated between Rows: e.g., The same client may be served in both state psychiatric hospitals and community mental health centers during the same year and thus would be reported in counts for both rows.

Instructions:

Comments on Data (Overall):

- States that have county psychiatric hospitals that serves as surrogate state hospitals should report persons served in such settings as receiving services in state hospitals.
- If forensic hospitals are part of the state mental health agency system include them.
- Persons who receive non-inpatient care in state psychiatric hospitals should be included in the Community MH Program Row
- Persons who receive inpatient psychiatric care through a private provider or medical provider licensed and/or contracted through the SMHA should be counted in the "Other Psychiatric Inpatient" row. Persons who receive Medicaid funded inpatient services through a provider that is not licensed or contracted by the SMHA should not be counted here.
- A person who is served in both community settings and inpatient settings should be included in both rows

 RTC: CMHS has a standardized definition of RTC for Children: "An organization, not licensed as a psychiatric hospital, whose primary purpose is the provision of individually planned programs of mental health treatment services in conjunction with residential care for children and youth primarily 17 years old and younger. It has a clinical program that is directed by a
- psychiatrist, psychologist, social worker, or psychiatric nurse who has a master's degree or doctorate. The primary reason for the admission of the clients is mental illness that can be classified by DSM-IV codes-other than the codes for mental retardation, developmental disorders, and substance-related disorders such as drug abuse and alcoholism (unless these are co-occurring with a mental illness)."

Table 13A Profile of Persons with SMI/SED Served by Age, Gender and Race/Ethnicity

MHBG Table 13B (URS Table 14A). Profile of Persons with SMI/SED served by Age, Gender and Race/Ethnicity

This is a developmental table similar to MHBG Tables 11a and 11b (URS Table 2A. and 2B). This table requests counts for persons with SMI or SED using the definitions provided by the CMHS. MHBG Table 11A and 11B (URS Table 2A. and 2B). included all clients served by publicly operated or funded programs. This table counts only clients who meet the CMHS definition of SMI or SED. For many states, this table may be the same as MHBG Tables 11 A and 11B (URS Table 2A. and 2B). For 2013, states should report using the Federal Definitions of SMI and SED if they can report them, if not, please report using your state's definition.

Please report the data under the categories listed - "Total" are calculated automatically.

E. Performance Data and Outcomes

MHBG Table 15 (URS Table 17) *Profile of Adults with Serious Mental Illnesses Receiving Specific Services during the Year* MHBG Table 15 provides the number of unduplicated Adults with SMI receiving family psycho education, integrated treatment for co-occurring disorders, illness self-management and medication management.

MHBG Table 16A (URS Table 4) *Profile of Adult Clients by Employment Status* MHBG Table 16A describes the status of adults clients served in the report year by the public mental health system in terms of employment status. The focus is on employment for the working age population, recognizing, however, that there are clients who are disabled, retired or who homemakers, caregivers, are etc and not a part of the workforce. These persons should be reported in the "Not in Labor Force" category. This category has two subcategories: retired and other. (The totals of these two categories should equal the number in the row for "Not in Labor Force"). Unemployed refers to persons who are looking for work but have not found employment. Data should be reported for clients in non-institutional settings at time of discharge or last evaluation.

MHBG Table 16B (URS Table 4A) *Profile of Adult Clients by Employment Status, by Primary Diagnosis Reported* MHBG Table 16B request information on the status of adult clients served in the report year by the public mental health system in terms of employment status by primary diagnosis reported.

MHBG Table 17 (URS Table 15) *Living Situation Profile* MHBG Table 17 requests information regarding the number of Individuals in Each Living Situation as collected by the most recent assessment in the reporting period. Specifically, information is collected on the individual's last known living situation. Living situations include, but are not limited to: private residence, foster care, residential care, jail/correctional facility, homeless shelter and other.

MHBG Table 18 (URS Table 19B) *Profile of Change in School Attendance* MHBG Table 18 measures the change in days attended over time. Information requested includes information on suspensions, expelled, and changes in the school attendance.

MHBG Table 19 (URS Table 9) *Social Connectedness and Improved Functioning* MHBG Table 19 requests states and jurisdictions to provide information for youth and adults regarding Social Connectedness. In addition, States are requested to provide information on functional domains that provide a general sense of an individual's ability to develop and maintain relationships, cope with challenges and a sense of community belonging.

MHBG Table 20A (URS Table 11) Summary Profile of Client Evaluation of Care MHBG Table 20A requests information that evaluates the "experience" of care for individuals that participate in the public mental health system. Specifically, the evaluation focuses on several areas including: access, quality and the appropriateness of services, participation in treatment planning and general satisfaction with services. Please provide unduplicated counts, if possible. This table provides an aggregate profile of persons served in the reporting year. The reporting year should be the latest state

fiscal year for which data are available. This profile is based on a client's last known Living Situation.

MHBG Table 20B (URS Table 11A) Consumer Evaluation of Care by Consumer Characteristics: Race/Ethnicity

MHBG Table 21 (URS Table 19A) *Profile of Criminal Justice or Juvenile Justice Involvement* MHBG Table 21 requests information to measure the change in Arrests over time.

MHBG Table 22 (URS Table 16) *Profile of Adults with Serious Mental Illnesses and Children with Serious Emotional Disturbances Receiving Specific Services* MHBG Table 22 requests information regarding the number and demographics of individuals that are receiving specific evidenced-based services. In addition, the table requests information on if and how States and Jurisdictions monitor the fidelity for the evidenced based services.

MHBG Table 23A (URS Table 20A) *Profile of Non-Forensic (Voluntary and Civil-Involuntary) Patients Readmission to Any State Psychiatric Inpatient Hospital Within 30/180 Days of Discharge* MHBG Table 23A provides the total number of discharges within the year, the number of readmissions within 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 23B (URS Table 20B) *Profile of Forensic Patients Readmission to Any State Psychiatric Inpatient Hospital within 30/180 Days of Discharge* MHBG Table 23B provides the total number of discharges within the year, the number of readmissions within 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 24 (URS Table 21) Profile of Non-Forensic (Voluntary and Civil-Involuntary Patients) Readmission to Any Psychiatric Inpatient Care Unit (State Operated or Other Psychiatric Inpatient Unit) within 30/180 Days of Discharge MHBG Table 24 provides the total number of discharges from inpatient care units w/I the year, the number of readmissions w/I 30-days and 180-days and the percent readmitted by age, gender, race, and ethnicity.

MHBG Table 16B (URS Table 4A) Optional Profile of Adult Clients by Employment Status: by Primary Diagnosis Reported

The workgroup exploring employment found that the primary diagnosis of consumers results in major differences in employment status. The workgroup has recommended that we explore the ability of states to report employment by primary diagnosis and the impact of diagnosis on employment. The workgroup recommended 5 diagnostic clusters for reporting.

Comments on Data:

How Often Does your State Measure Living

Situation?

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

- 1. This is a developmental measure. To assist in the development process, we are asking states to report information on the school attendance outcomes of mental health consumers with their December 2007 MHBG submission.
- 2. The SAMHSA National Outcome Measure for School Attendance measures the change in days attended over time. The DIG Outcomes Workgroup pilot tested 3 consumer self-report items that can be used to provide this information. If your state has used the 3 Consumer Self-Report items on School Attendance, you may report them here.
- 3. If your SMHA has data on School Attendance from alternatives sources, you may also report that here. If you only have data for School attendance for consumers in this year, please report that in the T2 columns. If you can calculate the change in Attendance from T1 to T2, please use all these columns.
- 4. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.
- 5. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).

Recommended Scoring Rules

Please use the same rules for reporting Social connectedness and Functioning Domain scores as for calculating other Consumer Survey Domain scores for Table MHBG Table 20a: E.g.:

- 1. Recode ratings of "not applicable" as missing values.
- 2. Exclude respondents with more than 1/3rd of the items in that domain missing.
- 3. Calculate the mean of the items for each respondent.
- 4. FOR ADULTS: calculate the percent of scores less than 2.5. (percent agree and strongly agree).
- 5. FOR YSS-F: calculate the percent of scores greater than 3.5. (percent agree and strongly agree).

Items to Score in the Functioning Domain:

Adult MHSIP Functioning Domain:

- 1 I do things that are more meaningful to me.
- 2 I am better able to take care of my needs.
- 3 I am better able to handle things when they go wrong.
- 4 I am better able to do things that I want to do.
- 5 My Symptoms are not bothering me as much (this question already is part of the MHSIP Adult Survey)

YSS-F Functioning Domain Items:

- 1 My child is better able to do things he or she wants to do.
- 2 My child is better at handling daily life. (existing YSS-F Survey item)
- 3 My child gets along better with family members. (existing YSS-F Survey item)
- 4 My child gets along better with friends and other people. (existing YSS-F Survey item)
- 5 My child is doing better in school and/or work. (existing YSS-F Survey item)
- 6 My child is better able to cope when things go wrong. (existing YSS-F Survey item)

Items to Score in the Social Connectedness Domain:

Adult MHSIP Social Connectedness Domain:

- 1 I am happy with the friendships I have.
- 2 I have people with whom I can do enjoyable things.
- 3 I feel I belong in my community.
- 4 In a crisis, I would have the support I need from family or friends.

YSS-F Social Connectedness Domain Items:

- 1 I know people who will listen and understand me when I need to talk
- 2 I have people that I am comfortable talking with about my child's problems.
- 3 In a crisis, I would have the support I need from family or friends.
- 4 I have people with whom I can do enjoyable things

- 1. Was the Official 28 Item MHSIP Adult Outpatient Consumer Survey Used?
- 1.a. If no, which version:
- 1. Original 40 Item Version
- 2. 21-Item Version
- 3. State Variation of MHSIP
- 4. Other Consumer Survey
- 1.b. If other, please attach instrument used.
- 1.c. Did you use any translations of the MHSIP into another language?

Adult Survey Approach:

2. Populations covered in survey? (Note all surveys should cover all regions of state)

2.a. If a sample was t	used, what sample methodology was use	ed?	
	4. Other Sample:		
	· ·		
Adult Consumer Su	rveys (Continued)		
2.b Do you survey	only people currently in services, or	do you also Surve	y Persons no longer in service?
3. Please Describe th	e populations included in your sample: (e.g., all adults, only a	adults with SMI, etc.)
3.4 Other: desc	ribe: (for example, if you survey anyone serve	ad in the last 3 months	describe that here).
5.4 Other. desc	inde. (for example, if you survey anyone serve	a in the last 5 months,	describe that here).
4 Methodology of co	ollecting data? (Check all that apply)		
4. Moundadingy of oc	Self-Administered	Interview	7
Phone			
Mail			
Face-to-face Web-Based			-
4.b. who auministere	d the Survey? (Check all that apply)		
	6. Other: describe:		
5. Are Responses An	onymous, Confidential and/or Linked to	other Patient Databa	ses?
6.b How many survey C 6.c How many surveys v 6.d. What was your resp	were Attempted (sent out or calls initiated)? ontacts were made? (surveys to valid phone r vere completed? (survey forms returned or casonse rate? (number of Completed surveys div surveys back from consumers (surveys with	lls completed) vided by number of Con	ntacts)), did you count these survey's as "completed"
7.b. Local Mental Health	e Survey or contracted for the Survey (survey done at standard Providers/County mental health providers content to the local or regional level)		or the survey
7.c. Other: Describe:	e at the local of regional level)		
	Lervals at the 95% confidence level		

Note: The confidence interval is the plus-or-minus figure usually reported in newspaper or television opinion poll results. For example, if you use a confidence interval of 4 and 47% percent of your sample picks an answer you can be "sure" that if you had asked the question of the entire relevant population between 43% (47-4) and 51% (47+4) would have picked that answer.

The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the

The confidence level tells you how sure you can be. It is expressed as a percentage and represents how often the true percentage of the population who would pick an answer lies within the confidence interval. The 95% confidence level means you can be 95% certain; the 99% confidence level means you can be 99% certain. Most researchers use the 95% confidence level.

confidence level means you can be 99% certain. Most researchers use the 95% confidence level.

When you put the confidence level and the confidence interval together, you can say that you are 95% sure that the true percentage of the population is between 43% and 51%. (From www.surveysystem.com)

Child/Family Consumer Surveys	
Was the MHSIP Children/Family Survey (YSS-F) Used?	
If No, what survey did you use?	
If no, please attach instrument used.	
1.c. Did you use any translations of the Child MHSIP into another language? 2. Other Language:	
Child Survey Approach:	
2. Populations covered in survey? (Note all surveys should cover all regions of state)	
2.a. If a sample was used, what sample methodology was used?	
4. Other Sample:	
2.b Do you survey only people currently in services, or do you also Survey Persons no longer in service?	
2a. If yes to 2, please describe how your survey persons no longer receiving services.	
3. Please Describe the populations included in your sample: (e.g., all children, only children with SED, etc.)	
3.4 Other: describe: (for example, if you survey anyone served in the last 3 months, describe that here):	
4. Methodology of collecting data? (Check all that apply) Self-Administered Interview	
Phone	
Mail	
Face-to-face	
Web-based	
4.b. Who administered the Survey? (Check all that apply)	
6. Other: describe:	

6. Sample Size and Response Rate	
6a. How many Surveys were Attempted (sent out or calls initiated)?	
6.b How many survey Contacts were made? (surveys to valid phone numbers or addresses)	
6.c How many surveys were completed? (survey forms returned or calls completed)	
6.d. What was your response rate? (number of Completed surveys divided by number of Contacts)	
6.e. If you receive "blank" surveys back from consumers (surveys with no responses on them), did you count	•
these survey's as "completed" for the calculation of response rates?	
7. Who Conducted the Survey	
7.a. SMHA Conducted or contracted for the Survey (survey done at state level)	
 Local Mental Health Providers/County mental health providers conducted or contracted for the survey (survey was done at the local or regional level) 	
7.c. Other: Describe:	

5. Are Responses Anonymous, Confidential and/or Linked to other Patient Databases?

PLEASE DO NOT ADD, DELETE OR MOVE ROWS, COLUMNS AND/OR CELLS!

Please enter the number of persons responding positively to the questions and the number of total responses within each group. Percent positive will be calculated from these data.

- 1. This is a developmental measure. To assist in the development process, we are asking states to report information on the arrest histories of mental health consumers with their December 2007 MHBG submission.
- 2. The SAMHSA National Outcome Measure for Criminal Justice measures the change in Arrests over time. The DIG Outcomes Workgroup pilot tested 3 consumer self-report items that can be used to provide this information. If your state has used the 3 Consumer self-report items on criminal justice, you may report them here.
- 3. If your SMHA has data on Arrest records from alternatives sources, you may also report that here. If you only have data for arrests for consumers in this year, please report that in the T2 columns. If you can calculate the change in Arrests from T1 to T2, please use all those columns.
- 4. Please complete the check boxes at the bottom of the table to help explain the data sources that you used to complete this table.
- 5. Please tell us anything else that would help us to understand your indicator (e.g., list survey or MIS questions; describe linking methodology and data sources; specify time period for criminal justice involvement; explain whether treatment data are collected).
