

Note #2—The O&M rate varies yearly based upon the budget submitted by the LeClair District.

Note #3—The O&M rate for the Yuma Project, Indian Unit has two components. The first component is the O&M rate established by the Bureau of Reclamation (BOR), the owner and operator of the Project. The BOR rate for 2015 is proposed to be \$107/acre. The second component is for the O&M rate established by BIA to cover administrative costs including billing and collections for the Project. The 2015 BIA rate is proposed to be \$1.50/acre.

Note #4—The construction water rate schedule proposes the fees assessed for use of irrigation water for non-irrigation purposes.

The final 2015 rate for the SCIP–JW was established by **Federal Register** Notice on March 6, 2015 (80 FR 12197). This notice proposes the 2016 rate for the SCIP–JW. The Project recommended a rate of \$30/acre for FY 2016. However, BIA recently completed a technical report indicating that the deferred maintenance costs for Coolidge Dam will be much higher than originally estimated. Therefore, this notice proposes to retain the \$35/acre O&M rate for the Project in order to collect an additional \$500,000 for Coolidge Dam deferred maintenance. The Project provided the technical report to the water users for review and comment.

Note #5—The 2015 O&M rate for the San Carlos Irrigation Project—Indian Works has three components. The first component is the O&M rate established by the San Carlos Irrigation Project—Indian Works, the owner and operator of the Project; this rate is proposed to be \$45 per acre. The second component is for the O&M rate established by the San Carlos Irrigation Project—Joint Works and is determined to be \$35.00 per acre. The third component is the O&M rate established by the San Carlos Irrigation Project Joint Control Board and is proposed to be \$6 per acre.

Consultation and Coordination With Tribal Governments (Executive Order 13175)

To fulfill its consultation responsibility to tribes and tribal organizations, BIA communicates, coordinates, and consults on a continuing basis with these entities on issues of water delivery, water availability, and costs of administration, operation, maintenance, and rehabilitation of projects that concern them. This is accomplished at the individual irrigation project by Project, Agency, and Regional representatives, as appropriate, in accordance with local protocol and procedures. This notice is one component of our overall coordination and consultation process to provide notice to, and request comments from, these entities when we adjust irrigation assessment rates.

Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use (Executive Order 13211)

The rate adjustments will have no adverse effects on energy supply, distribution, or use (including a shortfall in supply, price increases, and increase use of foreign supplies) should the proposed rate adjustments be implemented. This is a notice for rate adjustments at BIA-owned and operated irrigation projects, except for the Fort Yuma Irrigation Project. The Fort Yuma Irrigation Project is owned and operated by the Bureau of Reclamation with a portion serving the Fort Yuma Reservation.

Regulatory Planning and Review (Executive Order 12866)

These rate adjustments are not a significant regulatory action and do not need to be reviewed by the Office of Management and Budget under Executive Order 12866.

Regulatory Flexibility Act

These rate adjustments are not a rule for the purposes of the Regulatory Flexibility Act because they establish “a rule of particular applicability relating to rates.” 5 U.S.C. 601(2).

Unfunded Mandates Reform Act of 1995

These rate adjustments do not impose an unfunded mandate on State, local, or tribal governments in the aggregate, or on the private sector, of more than \$130 million per year. The rule does not have a significant or unique effect on State, local, or tribal governments or the private sector. Therefore, the Department is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*).

Takings (Executive Order 12630)

The Department has determined that these rate adjustments do not have significant “takings” implications. The rate adjustments do not deprive the public, state, or local governments of rights or property.

Federalism (Executive Order 13132)

The Department has determined that these rate adjustments do not have significant Federalism effects because they will not affect the States, the relationship between the national government and the States, or the distribution of power and responsibilities among various levels of government.

Civil Justice Reform (Executive Order 12988)

In issuing this rule, the Department has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by section 3 of Executive Order 12988.

Paperwork Reduction Act of 1995

These rate adjustments do not affect the collections of information which have been approved by the Office of Information and Regulatory Affairs, Office of Management and Budget, under the Paperwork Reduction Act of 1995. The OMB Control Number is 1076–0141 and expires March 31, 2016.

National Environmental Policy Act

The Department has determined that these rate adjustments do not constitute a major Federal action significantly affecting the quality of the human environment and that no detailed statement is required under the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370(d)).
