ATTACHMENT 2 – CUSTOMER SERVICE FEEDBACK PROCESS OVERVIEW

This is a brief description of the proposed process in which USGS will ask customers who email USGS with science questions to rate their service and provide ideas for improvements. Note that this process is low-cost, completely anonymous for the customer, and easy to implement. USGS will benefit by having an aggregate "score" to measure how well we are doing with email customer service. USGS will also have open-ended suggestions for improvements from real customers.

1. An individual with a question about USGS science comes to the USGS website and clicks on [Contact USGS](#) in the upper right of the page, which provides several options for contacting the USGS, including an email form they can fill out.

2. The individual emails their inquiry to the USGS. (The USGS currently receives about 15,000 such emails each year.)
3. The inquiry is routed to the Science Information Services (SIS), and a customer service representative emails a response to the individual.
4. The individual receives the email response, which includes a link at the end saying, "HOW DID WE DO? Please answer our **[two questions]**."
The words **[two questions]** are a button or hyperlink that takes people into a webpage operated by Survey Monkey.

Dear _____,

Thank you for your inquiry.

To answer to your question about _____ [answer provided here]

HOW DID WE DO? Please answer these **two questions**.

5. The individual reading the response clicks on the link to provide feedback. (We expect that only a small percentage of people will click on the link; a 10% response rate is probably a good guess. This will provide about 1500 responses per year, more than 100 each month.)
6. The individual goes to the webpage, and answers the two questions.

USGS Email Customer Feedback

* 1. How well did our USGS customer service representative answer your question or resolve your problem?

Select the one best answer. Very poorly Poorly Average Moderately well Very well

2. What would you suggest to help USGS improve our email customer service?

The individual clicks on Done and gets a thank you page, indicating that they are done.
