BURDEN HOURS

Category of Respondents	No. of Respondents	Participation Time	Burden
Individuals	1500	5 minutes	125 hours
Totals			

FEDERAL COST: The estimated annual cost to the Federal government is \$7,763.

We reached this estimate by calculating at a GS-14/1, using the 2015 General Schedule (Base) at \$41.40 per hour. The hourly salary is multiplied by 1.5 to cover benefits, which totals to \$62.10 per hour. The benefits multiplier is inferred from the Bureau of Labor Statistics, Employer Costs for Employee Compensation – March 2015, US-15-1332.

If you are conducting a focus group, survey, or plan to employ statistical methods, please provide answers to the following questions:

The selection of your targeted respondents

1. Do you have a customer list or something similar that defines the universe of potential respondents and do you have a sampling plan for selecting from this universe? Yes No

If the answer is yes, please provide a description of both below (or attach the sampling plan). If the answer is no, please provide a description of how you plan to identify your potential group of respondents and how you will select them.

The survey will be available to all individuals who download a BIA dataset. Any individual has the opportunity to voluntarily complete the survey and submit to BIA. We estimate that survey will be offered to approximately 6,000 individuals, and of those individuals, 1,500 will provide responses to the survey (a response rate of 25%). We estimate the response rate to be high initially, as BIA continues to make datasets available to the public.

Administration of the Instrument

1. How will you collect the information? (Check all that apply)
 Web-based or other forms of Social Media

Telephone

In-person

Mail

Other, Explain – Internet Web Survey

2. Will interviewers or facilitators be used? Yes No

Please make sure that all instruments, instructions, and scripts are submitted with the request.
