

Dear [[First Name]],

Ohmsett - The National Oil Spill Response Research & Renewable Energy Test Facility is partnering with leading salvage industry professionals to design a hands-on Marine Salvage Response Course. We are proposing a 3 1/2 to 4-day course that would include classroom instruction and hands-on exercises in the Ohmsett test basin.

We are conducting a survey to gain valuable input that will help us develop a training program that best suits the needs of the industry. Please take a few moments to complete the short survey via the following link:

<http://www.Swiftpage8.com/Ohmsett.MAR/SurveySalvageTraining/Survey.aspx>.

The survey should take about 5 minutes to complete.

The Ohmsett staff will be available to discuss this training program at the Clean Gulf Conference in Tampa, FL, November 2-3. Please stop by booth #311.

Thank you in advance for your participation in this survey.

Regards,
Jane-Ellen Delgado
Sr. Marketing Communications Specialist
