

New England Water Science Center - Vermont Network Prioritization

The U.S. Geological Survey (USGS) New England Water Science Center is undertaking a Data Network Prioritization Project in Vermont, and we would like to invite you to participate. This survey includes four questions that will ask you to (1) rank gages by level of importance, (2) identify data uses of the gages, and (3-4) identify areas of interest and needs. None of the questions are a mandatory field; however, we will appreciate any feedback you are willing to share. We appreciate your effort and sincerely thank you for your time during this journey.

Vermont Network Gages - Ranking

In this section, you will rank each gage in the Vermont Network, with one selection per gage. Ideally, about 25 percent of the gages will be designated as Most Important, 50 percent as Equally Important and 25 percent as Least Important.

2. Vermont Network Gages - Streamflow*Check all that apply.*

Vermont Network Gages - Data Uses

Please select the primary use for each of the gages in the Vermont network. If a gage has more than one use, select all that apply. Responses are not mandatory, so please skip any gages you are unable to identify a use for. NOTE: There are nine potential uses listed for each station. You can click in the answer field and use the right arrow button to see them all, or use the scroll bar at the bottom of the question.

Cooperator Needs Assessment

The following questions will ask you to identify areas of need related to surface water data collection, as well as emerging issues in your area.

8. Please specify which watershed(s), area(s), specific location(s), and/or hydrologic parameter(s) (such as discharge, water level, velocity, tide, precipitation, and/or soil moisture) in your state you feel surface water data collection are underrepresented that will better enable you to accomplish your mission

9. Please indicate any new and emerging issues that you feel need to be addressed in your region, state, or municipality

Send me a copy of my responses.
