Core Development Work Parole Agency Head Discussion Guide

Thank you for taking time to review the survey materials and speak with me today. During our call, I would like to hear your thoughts about the content and focus of the survey – especially as they relate to the definitions and instructions used in the survey. The APS has been standardized because it is a national survey collection; so some of the content and terminology might not match your agency’s definitions and practices. It is really helpful to hear about how agencies define and track their own populations and the extent to which they match those used on the survey.

There are a few specific sections of the survey that I would like to discuss with you. We can go through the questionnaire page by page, and I’ll raise the issues that I have. If you would like to talk about any issues that I don’t raise, please let me know.

The first question that I have on my list is Question 2. Should we begin with that question or is there anything on the cover page or on the first question that you would like to talk about?

Q2. ...entered parole by –

- b. Mandatory release from prison
- d. Term of supervised release from prison

➤ Does your agency use these terms? How are the two groups different?

Q3. ...discharged from supervision for the following reasons –

a. Completions

- Would your agency be able to sub-divide the number of completions into the two categories of early terminations (early positive discharge) and expirations? How would your agency define early terminations and expirations?
 - *CAPSA definition of “Early terminations” or “early positive discharge”- A discharge prior to the scheduled expiration of a sentence granted in response to the satisfaction of conditions or earned time credits.*
 - *Definition of “Expirations”- A discharge according to the scheduled expiration of a sentence granted in response to the satisfaction of conditions of supervision (possibly with some financial conditions remaining).*

f. Other [*consider eliminating from survey*]

- What other types of discharges does your agency track? What would you include in each of the three categories: other completions, unsatisfactory, and other?

Next, let's look at **Question 4**.

Q4. On December 31st, what was your agency's adult parole population?

- What types of populations would be included in your agency's yearend count?
- Would you include juveniles sentenced in an adult court?
- Could your agency break-out the yearend count by the following categories?
 - Active vs. inactive (*Does "active" include absconders, low-risk, those in residential placements that are/are not still under their jurisdiction?*)
 - Custody vs. jurisdiction counts
 - Felon vs. misdemeanor populations

If your agency was able to provide data for the yearend count on the number of POPULATION TYPE, would you be able to provide the data for the rest of the survey for just these POPULATION TYPE parolees?

Before we move on to the next page, are there any other issues that you would like to talk about on Question 1 through 4?

Q5. ...count of individuals or cases?

- How does your agency define "cases"? Does it include instances where the person was under supervision for two or more distinct sentences? Under supervision for two or more offenses as part of the same sentence? Something else?
- Your agency provides data at the case level? Can you explain why you report cases and not individuals? Could your agency provide data at the individual level?
- Could your agency provide an estimate of the number of people with multiple cases? Could your agency provide an estimate of the average number of cases per individual?

Unless you have comments on Questions 6 and 7, I'll move on to Question 8.

Q8. ...maximum sentence of –

- How useful are the categories – a year or less and more than a year – in describing your parolee population? What other categories might be more informative? Why?

If you're ready, I'd like to look at Question 11 next.

Q11. ...most serious offense –

Does your agency use a hierarchy to define which offenses are more serious than others? Can we obtain a copy of the hierarchy?

Q12. ...parolees supervised by your agency had a status of –

a. Active

c. Inactive

- How does your agency define an “active” parolee? How does your agency define an “inactive” parolee? What types of parolees are included or excluded?
- Would your agency be able to provide data on the number of individuals in the yearend count who are on “active” supervision status? Would your agency be able to provide data on the number of individuals in the yearend count who are on “inactive” supervision status?

b. Only financial conditions remaining

- Would these parolees be included in the yearend total?
- Would these parolees be included in the number discharged by completion?

d. Absconders

- Would absconders be included in the numbers reported as discharged for being an absconder? If not, would they still be included in the yearend population?

g. Supervised out of jurisdiction

- What types of parolees would your agency include in this category?
- Would this category include interstate compact cases that are reported in Question 6?

Next, let’s look at Question 15.

Q15. ...parolees who had their location tracked through a Global Positioning System (GPS)

- Can you tell me more about how your agency uses GPS to track parolees?
- What other types of electronic monitoring does your agency use? What types of parolees are tracked in these ways?

For central reporters: Administrative records

- Would your agency be able provide administrative records describing your parolee population?
- What information does your agency maintain in your administrative records?
- What format is the information in?
- What restrictions are there on information-sharing (de-identified data only)?

Agency Head comments: That was the last issue that I wanted to raise.

- Is there anything else that you've noted in the questionnaire that might affect how your agency would categorize or report on any population that you supervise?

 - *Definition of “Expirations”- A discharge according to the scheduled expiration of a sentence granted in response to the satisfaction of conditions of supervision (possibly with some financial conditions remaining).*

b3. Incarcerated, to receive treatment [*consider eliminating from survey*]

- What types of cases are discharged by incarceration to receive treatment? Is this a permanent discharge from supervision or a type of diversion that occurs pre-adjudication?

b4. Other

- Take a look at Question 3, item b4. There is an instruction to the right that refers to “probationers incarcerated pending a revocation, trial, sentencing, or others.” Does your agency supervise any individuals that would fall into this category? What types of cases are these? [*Shouldn’t they only be discharged after actual revocation or sentencing?*]

- c. Absconder
- d. Warrant or detainer
 - Are discharges for being an absconder an absolute discharge? Do discharges for being an absconder have a warrant issued?
 - How does your agency define a detainer, and how is this different from a warrant?
 - How are discharges for being an absconder different from probationers discharged to a warrant or detainer?
- e. Transferred to another probation agency
 - Can you tell me more about the probationers in this category? *[How can a probationer be discharged by being transferred to another agency? Even with inter-state compact agreements, the case is still technically under the jurisdiction of the original court. It could be considered inactive by the originating jurisdiction but not discharged.]*
- g. Other *[consider eliminating from survey]*
 - What other types of discharges does your agency track? What would you include in each of the three categories: other completions, unsatisfactory, and other?

Next, let's look at **Question 4**.

Q4. On December 31st, what was your agency's adult probation population?

Q5. ...count of individuals or cases?

- How does your agency define “cases”? Does it include instances where the person was under supervision for two or more distinct sentences? Under supervision for two or more offenses as part of the same sentence? Something else?
- Your agency provides data at the case level. Can you explain why you report cases and not individuals? Could your agency provide data at the individual level?
- Could your agency provide an estimate of the number of people with multiple cases? Could your agency provide an estimate of the average number of cases per individual?

Unless you have comments on Questions 6 through 8, I’ll move on to Question 9.

Q9. ...most serious offense –

Does your agency use a hierarchy to define which offenses are more serious than others? Can we obtain a copy of the hierarchy?

g. Other traffic offense [*consider eliminating from survey*]

- What types of traffic offenses, other than DWI or DUI, are considered the most serious offense that could lead to someone getting sentenced to community supervision?

If you’re ready, I’d like to look at Question 14 next.

Q14. ...placed on probation through –

d. Suspended imposition of a sentence (persons not fully adjudicated, e.g., probation before verdict)

- What types of probationers would be included in this category? How would your agency define this group (e.g., persons on pretrial, probationers being supervised while on diversion)?
- Would your agency include these probationers in the yearend count?

Next, I’d like to talk about Question 15.

Q15. ...probationers supervised by your agency had a status of –

- b. Active
- d. Inactive

- How does your agency define an “active” probationer? How does your agency define an “inactive” probationer? What types of probationers are included or excluded?

- Would your agency be able to provide data on the number of individuals in the yearend count who are on “active” supervision status? Would your agency be able to provide data on the number of individuals in the yearend count who are on “inactive” supervision status?

- f. Warrant status
- How are absconders different from those that are discharged to a warrant or detainer?
 - Would these probationers be included in the numbers reported as discharged for being an absconder or on warrant status? If not, would they still be included in the yearend population?
- g. Supervised out of jurisdiction
- What types of probationers would your agency include in this category?
 - Would this category include interstate compact cases that are reported in Question 10?

Q16. ...probationers who had their location tracked through a Global Positioning System (GPS)

- Would this category include defendants who have a suspended imposition of a sentence (pretrial)?
- Can you tell me more about how your agency uses GPS to track probationers?
- What other types of electronic monitoring does your agency use? What types of probationers are tracked in these ways?

For central reporters: Administrative records

- Would your agency be able provide administrative records describing your probation population?

Who is covered by this survey?

- **INCLUDE** all adults regardless of conviction status, who have been placed under the supervision of a probation agency as part of a court order. (Adults are persons subject to the jurisdiction of an adult court or correctional agency.)
- **INCLUDE** adult probationers legally your responsibility but supervised outside your jurisdiction, such as through an interstate compact agreement.
- **INCLUDE** adult probationers contracted out to private agencies.
- **INCLUDE** adult probationers on active supervision, including those who report electronically, or inactive supervision or in a residential/other treatment program but not in regular contact with a probation authority.
- **INCLUDE** absconders who have not been discharged from probation.
- **INCLUDE** adult probationers who may be under local jurisdiction but not reported separately by another agency.

Who is not covered by this survey?

- **EXCLUDE** juveniles (persons under the jurisdiction of a juvenile court or agency).
- **EXCLUDE** interstate compact cases supervised by your jurisdiction for another state.
- **EXCLUDE** adult probationers supervised by your jurisdiction but legally the responsibility of another jurisdiction.

Burden statement

Under the Paperwork Reduction Act, we cannot ask you to respond to a collection of information unless it displays a currently valid OMB control number. Public reporting burden for this collection is estimated to average 95 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any aspect of this collection of information, including suggestions for reducing this burden, to the Director, Bureau of Justice Statistics, 810 Seventh Street, NW, Washington, DC 20531; and to the Office of Management and Budget, OMB No. 1121-0064, Washington, DC 20503.

Core Development Work Parole Respondent Discussion Guide

Thank you for taking time to speak with me today. During our call, I would like to learn about your experience completing the 2014 APS. The survey has been standardized because it is a national collection; so some of the content and terminology might not match your agency's definitions and practices. It is really helpful to hear how respondents interpret and apply the study definitions and instructions to their real-life situations. That way, we can better understand the answers we receive and identify ways to improve the survey.

There are a few specific sections of the survey that I would like to discuss with you. We can go through the questionnaire page by page, and I'll raise the issues that I have. Basically, I would like you to think back to when you were answering the questions and let me know how you interpreted the questions, any issues that came up as you tried to "fit" your data into the survey categories, whether you were able to answer questions based on your own knowledge or if you used data from a tracking system, etc. If you would like to talk about any issues that I don't raise, please let me know.

The first question that I have on my list is Question 2. Should we begin with that question or is there anything on the cover page or on the first question that you would like to talk about?

Q2. ...entered parole by –

- c. Mandatory release from prison
 - d. Term of supervised release from prison
- Does your agency use these terms? How are the two groups different?

Q3. ...discharged from supervision for the following reasons –

- c. Completions
- Can you tell me what types of populations – using the labels that your agency uses – you included in this category?
- Would you be able to sub-divide the number of completions into the two categories of early terminations (early positive discharge) and expirations? How would you define early terminations and expirations?
- *CAPSA definition of "Early terminations" or "early positive discharge"- A discharge prior to the scheduled expiration of a sentence granted in response to the satisfaction of conditions or earned time credits.*
 - *Definition of "Expirations"- A discharge according to the scheduled expiration of a sentence granted in response to the satisfaction of conditions of supervision (possibly with some financial conditions remaining).*

f. Other [*consider eliminating from survey*]

- What other types of discharges did you report? How did you decide whether to put them into: other completions, unsatisfactory, and other?

Next, let's look at **Question 4**.

Q4. On December 31st, what was your agency's adult parole population?

- What types of populations did you include in your agency's yearend count?
- Did you (would you) include juveniles sentenced in an adult court?
- When you reported the number of active and the number of inactive, how did you define those two groups? (Does "active" include absconders, low-risk, those in residential placements that are/are not still under their jurisdiction?) Did you wonder about if, or how, you should report on any individuals?
- Did you report the number that are in your custody or the number that are supervised by your jurisdiction?
- Did you base your answers on information that you already had in your head or did you talk with others or refer to a tracking system?
- How confident are you that your answers included everyone that they were supposed to include? Exclude everyone who should not be counted? Tell me more about why you're that confident.
- What other populations are supervised by your agency? Did you include them in any survey category? Why not – what is different about them?
- If asked, could you break-out the yearend count by the following categories?
 - Active vs. inactive
 - Custody vs. jurisdiction
 - Felon vs. misdemeanor populations

If you were able to provide data for the yearend count on the number of POPULATION TYPE, would you be able to provide the data for the rest of the survey for just these POPULATION TYPE probationers?

Before we move on to the next page, are there any other issues that you would like to talk about on Question 1 through 4?

Q5. ...count of individuals or cases?

- When you answered this question on the survey, how did you define “cases”? Did you include instances where the person was under supervision for two or more distinct sentences? Under supervision for two or more offenses as part of the same sentence? Something else?
- You provide data at the case level? Can you explain why you report cases and not individuals? Could your agency provide data at the individual level?
- Can you provide an estimate of the number of people with multiple cases? Can you provide an estimate of the average number of cases per individual?

Unless you have comments on Questions 6 and 7, I'll move on to Question 11.

Q11. ...most serious offense –

In answering Question 11, how did you determine which offenses are more serious than others? Can we obtain a copy of the hierarchy?

Q12. ...parolees supervised by your agency had a status of –

- c. Active
- c. Inactive

- How did you define an “active” parolee? How did you define an “inactive” parolee? What types of parolees are included or excluded?
- Would you be able to provide data on the number of individuals in the yearend count who are on “active” supervision status? Would you be able to provide data on the number of individuals in the yearend count who are on “inactive” supervision status?

- b. Only financial conditions remaining

- Did these parolees get included in the yearend total? Why not?
- Did these parolees get included in the number discharged by completion?

- d. Absconders

- Where these parolees included in the numbers reported as discharged for being an absconder? If not, would they still be included in the yearend population?

- g. Supervised out of jurisdiction

- What types of parolees did you include in this category?
- Did this category include interstate compact cases that are reported in Question 6?

Next, let's look at Question 15.

Q15. ...parolees who had their location tracked through a Global Positioning System (GPS)

- Tell me more about the parolees you thought about or counted for this question.
- What other types of electronic monitoring does your agency use? Did you include any of those parolees in this question? Why/Why not?

***Respondent comments:* That was the last issue that I wanted to raise.**

- Is there anything else that you've noted in the questionnaire that might affect how your agency would categorize or report on any population that you supervise?

b3. Incarcerated, to receive treatment [*consider eliminating from survey*]

- What types of cases did you include in the category: discharged by incarceration to receive treatment?

b4. Other

- Take a look at Question 3, item b4. There is an instruction to the right that refers to “probationers incarcerated pending a revocation, trial, sentencing, or others.” What types of cases are in this category? [*Shouldn't they only be discharged after actual revocation or sentencing?*]

c. Absconder

d. Warrant or detainer

- How did you come up with your answers to these items? What types of cases did you include in each category?
- How are discharges for being an absconder different from probationers discharged to a warrant or detainer?

e. Transferred to another probation agency

- Can you tell me more about the probationers in this category? [*How can a probationer be discharged by being transferred to another agency? Even with inter-state compact agreements, the case is still technically under the jurisdiction of the original court. It could be considered inactive by the originating jurisdiction but not discharged.*]

g. Other [*consider eliminating from survey*]

- What other types of discharges did you report? How did you decide whether to put them into: other completions, unsatisfactory, and other?

How confident are you that your answers included everyone that they were supposed to include? Exclude everyone who should not be counted? Tell me more about why you're that confident. - Can you agency provide an estimate of the number of people with multiple cases? Can you provide an estimate of the average number of cases per individual?

Unless you have comments on Questions 6 through 8, I'll move on to Question 9.

Q9. ...most serious offense –

In answering Question 9, how did you determine which offenses are more serious than others?
Can we obtain a copy of the hierarchy?

- g. Other traffic offense [*consider eliminating from survey*]
 - What types of traffic offenses, other than DWI or DUI, are considered the most serious offense that could lead to someone getting sentenced to community supervision?

If you're ready, I'd like to look at Question 14 next.

Q14. ...placed on probation through –

- d. Suspended imposition of a sentence (persons not fully adjudicated, e.g., probation before verdict)
 - What types of probationers did you include in this category? How did you define this group (e.g., persons on pretrial, probationers being supervised while on diversion)?
 - Did you include these probationers in the yearend count?

Next, I'd like to talk about Question 15.

Q15. ...probationers supervised by your agency had a status of –

- d. Active
- d. Inactive
 - How did you define an "active" probationer? How did you define an "inactive" probationer? What types of probationers are included or excluded?
 - Would you be able to provide data on the number of individuals in the yearend count who are on "active" supervision status? Would you be able to provide data on the number of individuals in the yearend count who are on "inactive" supervision status?

- c. Only financial conditions remaining
 - Did these probationers get included in the yearend total? Why not?
 - Did these probationers get included in the number discharged by completion?
- e. Absconders
- f. Warrant status
 - How did you decide whether to report probationers as absconders or as discharged to a warrant or detainer? What is the difference from your agency's perspective?
 - Were these probationers included in the numbers reported as discharged for being an absconder or on warrant status? If not, would they still be included in the yearend population?
- g. Supervised out of jurisdiction
 - What types of probationers did you include in this category?
 - Did this category include interstate compact cases that were reported in Question 10?

Next, let's look at **Question 16**.

Q16. ...probationers who had their location tracked through a Global Positioning System (GPS)

- Did this category include defendants who had a suspended imposition of a sentence (pretrial)?
- Tell me more about the probationers you thought about or counted for this question.
- What other types of electronic monitoring does your agency use? Did you include any of those probationers in this question? Why/Why not?

Respondent comments: That was the last issue that I wanted to raise.

- Is there anything else that you've noted in the questionnaire that might affect how you categorized or reported on any population that you supervise?

Dear «Name1»,

Recently, you were asked to assist with a special request from the U.S. Department of Justice, Bureau of Justice Statistics (BJS) related to the Annual <<Probation/Parole>> Survey (APS). The main goal of the standard APS collection is to measure and describe the size, composition, and changes in the <<probation/parole>> populations over time, at the national, federal, and state levels. Westat is helping BJS evaluate the content and focus of the APS to ensure that the survey continues to meet this goal. We hope to complete this phase of our evaluation by <<DATE>>, 2015.

As part of this effort, we are contacting the heads of a small number of <<probation/parole>> agencies to discuss the 2014 APS survey content and terminology. The call should take about one hour. I have enclosed a copy of the survey and a list of specific topics that you can review prior to the discussion. In addition, we will email a copy to you provided we have your email address. If you do not receive a copy via email and would like us to send one, please call Westat's Agency Support Team at 1-888-371-3718.

A member of the Westat APS project staff will contact you in the next few days to schedule a time for the telephone discussion. If you have any questions about the APS or about this special request, please contact me at 301-517-4030 or at PaulaThompson@westat.com.

Sincerely,

Paula Thompson, PMP

DISCUSSION TOPIC LIST ANNUAL PROBATION SURVEY

We would like to discuss the following topics about the Annual Probation Survey. During the call, please mention any other issues associated with the survey that you would like to discuss as well.

- Categories/definitions of population types (Question 3 and Question 15) and whether they are included in yearend counts.
 - Incarcerated (e.g., to receive treatment; pending a revocation, trial, sentencing)
 - Absconder versus warrant/detainer
 - Transfer to another probation agency
 - “Active” and “inactive”
 - Individuals with only financial conditions remaining
 - Other

- Issues affecting the yearend counts (Question 4).
 - Types of populations included in the yearend counts
 - Ability to report counts and other data in the following categories
 - Felon versus misdemeanor populations
 - Custody versus jurisdiction
 - Persons not fully adjudicated (pretrial)
 - Unsupervised

INSERT QUESTION 5 IF AGENCY HAS REPORTED CASE LEVEL DATA IN PAST 3 YEARS.

- Issues associated with providing counts of cases versus individuals (Question 5).
 - Agency definition of “cases”
 - Number of individuals with more than one case, and average number of cases per individual supervised
 - Issues affecting ability to report individuals (rather than cases)

COVER LETTER TO SURVEY RESPONDENTS

Dear «Name1»,

Recently, you were asked to assist with a special request from the U.S. Department of Justice, Bureau of Justice Statistics (BJS) related to the Annual <<Probation/Parole>> Survey (APS). The main goal of the standard APS collection is to measure and describe the size, composition, and changes in the <<probation/parole>> populations over time, at the national, federal, and state levels. Westat is helping BJS evaluate the content and focus of the APS to ensure that the survey continues to meet this goal. We hope to complete this phase of our evaluation by <<DATE>>, 2015.

As part of this effort, we are contacting those who responded to the 2014 APS from a small number of <<probation/parole>> agencies to speak with us about the survey content and terminology, and the process they used to compile and report the information on the survey. The call should take about one hour. I have enclosed a copy of your 2014 APS that you can review prior to the discussion. In addition, we will email a copy to you provided we have your email address. If you do not receive a copy via email and would like us to send one, please call Westat's Agency Support Team at 1-888-371-3718.

A member of the Westat APS project staff will contact you in the next few days to schedule a time for the telephone discussion. If you have any questions about the APS or about this special request, please contact me at 301-517-4030 or at PaulaThompson@westat.com.

Sincerely,

Paula Thompson, PMP
Senior Study Director
Westat
