PART I.—GENERAL INFORMATION

Background. This proceeding was instituted in response to a petition filed on February 26, 2015, by Madison Paper Industries, Madison, ME and Verso Corporation, Memphis, TN. Countervailing duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization. Questionnaires and other information pertinent to this proceeding are available at:

http://usitc.gov/investigations/701731/2015/supercalendered_paper_canada/preliminary.htm

Supercalendered Paper (“SC Paper”) or the “subject product” covered by these investigations is defined as: SC Paper is uncoated paper that has undergone a calendering process in which the base sheet, made of pulp and filler, (typically clay, talc, or other mineral additive), is processed through a set of supercalenders, a supercalender, or a soft nip calender operation. Supercalendering and soft nip calendering processing, in conjunction with the mineral filler contained in the base paper, are performed to enhance the surface characteristics of the paper by imparting a smooth and glossy printing surface. Supercalendering and soft nip calendering also increase the density of the base paper.

The scope of this petition covers all SC Paper regardless of basis weight, brightness, opacity, smoothness, or grade, and whether in rolls or in sheets. The scope covers all uncoated paper that meets the scope definition regardless of the type of pulp fiber or filler material used to produce the paper.

SC Paper is typically (but not exclusively) used for retail catalogs and flyers, magazines, Sunday newspaper inserts, and other advertising circulars, magazines and catalogues, directories, direct mail advertising, coupons, and corporate brochures.

Specifically excluded from the scope are imports of paper printed *with final content of printed text or graphics.*

Until July 1, 2014, the products covered by these investigations were classified in the Harmonized Tariff Schedule of the United States (“HTS”) under statistical reporting numbers 4802.61.3010 and 4802.61.3090. Recently a tariff breakout covering SC Paper over 40 grams per square meter was established. This statistical subheading, which became effective on July 1, 2014, is 4802.61.3035. SC Paper of less than 40 grams per square meter continues to be covered in 4802.61.3010. Thus, subject imports are currently entered under either HTS 4802.61.3010 or 4802.61.3035. Although the HTS subheadings are provided for convenience and customs purposes, the written description of the scope of the investigation is dispositive.

To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.
