FOREIGN PRODUCERS'/EXPORTERS' QUESTIONNAIRE

CERTAIN IRON MECHANICAL TRANSFER DRIVE COMPONENTS FROM CANADA AND CHINA

This questionnaire must be received by the Commission by November 10, 2015

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping and countervailing duty investigations concerning certain iron mechanical transfer drive components ("IMTDCs") from Canada and China (Inv. Nos. 701-TA-550 and 731-TA-1304-1305 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII.

PART I.—GENERAL INFORMATION

Background. This proceeding was instituted in response to petitions filed on October 28, 2015, by TB Wood's Incorporated, Chambersburg, Pennsylvania. Antidumping and countervailing duties may be assessed on the subject imports as a result of this proceeding if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes affirmative determinations of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at

http://wwwadmin.usitc.gov/investigations/701731/2015/certain_iron_mechanical_transfer_drive_components/preliminary.htm

<u>IMTDCs</u> covered by these investigations are iron mechanical transfer drive components including sheaves (pulleys), bushings, and flywheels, regardless of diameter, width, design, or iron type (e.g., gray, white, or ductile iron), whether or not machined and regardless of the country in which any machining takes place; with or without other non-cast iron attachments or parts; and whether or not entered as a belted drive assembly. When entered as a belted drive assembly, only the iron sheaves (pulleys), bushings, and flywheels are covered merchandise, not the other components in the belted drive assembly (e.g., belt, coupling, shaft).

The products covered by these investigations are iron wheels or cylinders with a center bore hole that may have one or more grooves or teeth in their outer circumference that guide or mesh with a flat or ribbed belt or like device. The products covered by these investigations also include iron cylinders designed to fit into the bore holes of other mechanical transfer drive components to lock them into drive shafts by means of design elements such as teeth, bolts, or screws (*i.e.*, bushings).

Covered mechanical transfer drive components may be blanks or may be machined to final specification after initial casting, forging or like operations that produce blanks. These machining processes may include cutting, punching, notching, boring, threading mitering, or chamfering. Covered mechanical transfer drive components remain subject merchandise regardless of where the blanks are machined or subjected to further processing.

Covered mechanical transfer drive components may be imported with non-iron attachments or parts, and remain subject whether or not entered with other mechanical transfer drive components or as part of a mechanical transfer drive assembly.

Iron mechanical transfer drive components are covered regardless of metallurgy, inclusive of white, grey, and ductile iron. For purposes of this investigation, a covered product is of "iron" where the article has a carbon content of 1.5 percent by weight or above, regardless of the presence and amount of additional alloying elements. Non-ferrous mechanical transfer drive components are excluded from the scope.

The merchandise covered by these investigations is currently classifiable under Harmonized Tariff Schedule of the United States ("HTSUS") subheadings 8483.50.6000, 8483.50.9040, 8483.50.9080, and 8483.90.8080. Covered merchandise may also enter under the following HTSUS subheadings: 8431.39.0010 and 8483.50.4000. These HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of the investigations is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (*i.e.*, a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

□ N .	
∐ No	Yes—Supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of
	business plans or other supporting documentation that address this
	issue. Include in the response a specific projection of your firm's
	capacity to produce IMTDCs (in pounds and pieces) for 2015 and
	2016.

II-4a. **Production (casting or forging) using same machinery.--** Please report your firm's production of products made on the same equipment and machinery used to produce IMTDCs from items cast or forged in your facility, and the combined casting/forging capacity on this shared equipment and machinery in the periods indicated.

"Overall casting or forging capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

"Production" – All production in your establishment(s) in Canada and/or China using casting or forging machinery, including production consumed internally within your firm and production for another firm under a toll agreement.

Inventory									

<u>Trade data</u>.—On the following pages, report your firm's production capacity, production, shipments, and inventories related to the production of IMTDCs in your establishment(s) in Canada and/or China during the specified periods.

<u>Do not submit data by manufacturing facility if they are in the same country.</u> If your firm has multiple manufacturing establishments within one country, you are required to combine data for those establishments within one foreign producer questionnaire response.

<u>Do not submit data on multiple countries combined</u>. The establishments reported here should all be located in the country of the firm's address reported on the certification page. Multinational companies with production in multiple subject countries should submit separate foreign producer questionnaire responses for each subject country.

"Average capacity" or "capacity" –The level of production (casting/forging and/or finishing/machining) that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" -- All production (casting/forging and/or finishing/machining) in your establishment(s) in Canada and/or China, including production consumed internally within your firm.

"Shipments"--Shipments of products produced in your establishment(s) in Canada and/or China. Quantities reported should be net of returns.

"Home market commercial shipments"--Shipments, other than internal consumption and transfers to related firms, within Canada and/or China.

"Home market internal consumption/transfers to related firms"--Shipments made to related firms in Canada and/or China, including product consumed internally by your firm.

"Export shipments"--Shipments to destinations outside Canada and/or China, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-10. <u>Trade data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of finished IMTDCs in your establishment(s) in Canada and/or China during the specified periods.

II-13.	Other explanationsIf your firm would like to further explain a response to a question in Part II that did not provide a narrative box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

http://www.usitc.gov/investigations/701731/2015/certain_iron_mechanical_transfer_d rive_components/preliminary.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box.</u>—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: IMTDC

• E-mail.—E-mail your questionnaire to mary.messer@usitc.gov; include a scanned copy of the signed certification page (page 1). Please note that submitting your questionnaire by e-mail may subject your firm's business proprietary information to transmission over an unsecure environment and to possible disclosure. If you choose this option, the Commission warns you that any risk involving possible disclosure of such information is assumed by the submitter and not by the Commission.

If your firm <u>did not </u>**produce or export this product**, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, you are required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
