## PART I.-GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on March 10, 2015, by DAK Americas LLC (Charlotte, NC), M\&G Chemicals (Houston, TX), and Nan Ya Plastics Corporation, America (Lake City, SC). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization/dumping. Questionnaires and other information pertinent to this proceeding are available at
http://www.usitc.gov/investigations/701731/2015/certain polyethylene terephthalate resin canada/f inal.htm.

Certain PET resin covered by these investigations is polyethylene terephthalate (PET) resin having an intrinsic viscosity of at least 0.70, but not more than 0.88 , deciliters per gram. The scope includes blends of virgin PET resin and recycled PET resin containing predominantly virgin PET resin content, provided such blends meet the intrinsic viscosity requirements above. The scope includes all PET resin meeting the above specifications regardless of additives introduced in the manufacturing process. The merchandise subject to these investigations is properly classified under statistical reporting number 3907.60.00.30 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing PET resin (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and
other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

## PRICE DATA

III-2. This question requests quarterly quantity and value of sales data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2012 (for importers that are not end users) OR quantity and value of purchase costs (for importer that are end users) of the following products your firm imported from Canada, China India, Oman, Mexico, Korea, and/or Taiwan:

Product 1.-PET resin, being either a clear homo- or co-polymer, and having an intrinsic viscosity of 0.72 IV to $\mathbf{0 . 8 4} \mathrm{IV}$, in the solid stated form. This PET resin product is typically used in water bottle applications.

Product 2.-PET resin, being either a clear homo- or co-polymer, and having an intrinsic viscosity of 0.72 IV to 0.84 IV , in the solid stated form. This PET resin product is typically used in sheet and strapping.

Product 3.-- PET resin, being either a clear homo- or co-polymer, and having an intrinsic viscosity of 0.78 IV to 0.86 IV , in the solid stated form. This PET resin product is typically used in carbonated soft drink applications.

Product 4.-PET resin, being mainly a co-polymer, and having an intrinsic viscosity of 0.75 IV to 0.86 IV , in the solid stated form. This PET resin product is typically used in heat set or hot fill applications; food, household, and other products.

Please note that values should be f.o.b., U.S. point of shipment (commercial sales) and landed duty paid (for internal consumption—see Part II Definitions (page 8) for definition of "import values") and should not include U.S.-inland transportation costs. Values should reflect the final net amount paid to or by your firm (i.e., should be net of all deductions for discounts or rebates).

III-2. Commercial sales.--During January 2012-September 2015, did your firm import from Canada, China, India, Oman, Korea, Mexico, and/or Taiwan and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?
