PART I.—GENERAL INFORMATION

Background. This proceeding was instituted in response to a petition filed on February 19, 2015, by Felman Production LLC, Letart, West Virginia. Antidumping duties may be assessed on the subject imports as a result of this proceeding if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at http://www.usitc.gov/investigations/701731/2015/silicomanganese_australia/final.htm.

Silicomanganese. The scope of this investigation covers all forms, sizes and compositions of silicomanganese, except low-carbon silicomanganese, including silicomanganese briquettes, fines, and slag. Silicomanganese is a ferroalloy composed principally of manganese, silicon, and iron, and normally contains much smaller proportions of minor elements, such as carbon, phosphorus, and sulfur. Silicomanganese is sometimes referred to as ferrosilicon manganese. Silicomanganese generally contains by weight not less than 4 percent iron, more than 30 percent manganese, more than 8 percent silicon and not more than 0.2 percent phosphorus. Silicomanganese is properly classifiable under subheading 7202.30.0000 of the Harmonized Tariff Schedule of the United States (“HTSUS”).

Low-carbon silicomanganese is excluded from the scope of this investigation. It is sometimes referred to as ferromanganese-silicon. The low-carbon silicomanganese excluded from this investigation is a ferroalloy with the following chemical specifications by weight: minimum 55 percent manganese, minimum 27 percent silicon, minimum 4 percent iron, maximum 0.10 percent phosphorus, maximum 0.10 percent carbon, and maximum 0.05 percent sulfur. Low-carbon silicomanganese is classifiable under HTSUS subheading 7202.30.0000. The HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope is dispositive.

Importer.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing product (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. §1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR §207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S. Code § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

III-2. This question requests quarterly quantity and value data for your firm's **commercial shipments to unrelated U.S. customers** or **direct imports for your own use or transfers to related U.S. customers** since January 1, 2012 of the following products your firm imported from Australia, Georgia, and/or South Africa:

Product 1.-- Standard grade (65-68% Mn) bulk silicomanganese sold to distributors under contracts

Product 2.-- Standard grade (65-68% Mn) bulk silicomanganese sold to steel producers under contracts

Product 3.-- Standard grade (65-68% Mn) bulk silicomanganese sold to distributors as spot sales

Product 4.-- Standard grade (65-68% Mn) bulk silicomanganese sold to steel producers as spot sales

Contracts are transactions over a quarterly or longer period, with prices either fixed or indexed to a published price.

Spot sales are transactions to be supplied within approximately two weeks forward in the spot market. (See *Ryan's Notes Price Assessment Methodology*).

Please note that values should be **f.o.b, U.S. point of shipment** and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts, allowances, rebates, prepaid freight, and the value of returned goods).

During January 2012-September 2015, did your firm import from Australia, Georgia, and/or South Africa, and sell to **unrelated U.S. customers** any of the above listed products (or any products that were competitive with these products)?

<input type="checkbox"/>	Yes. --Please complete the pricing data tables III-2(a-c) as appropriate.
<input type="checkbox"/>	No. --Skip to question II-2(d).
