**PART I.—GENERAL INFORMATION**

***Background.*** These proceedings were instituted in response to a petition filed on May 25, 2016 by Pasadena Commodities International, Nitrogen LLC (Pasadena, Texas). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes affirmative determinations of injury, threat, or material retardation, and if the U.S. Department of Commerce makes affirmative determinations of subsidization and dumping. Questionnaires and other information pertinent to these proceedings are available at [https://www.usitc.gov/investigations/701731/2016/ammonium\\_sulfate\\_china/preliminary.htm](https://www.usitc.gov/investigations/701731/2016/ammonium_sulfate_china/preliminary.htm).

***Ammonium sulfate*** covered by this petition is ammonium sulfate in all physical forms, with or without additives such as anti-caking agents. Ammonium sulfate, which may also be spelled as ammonium sulphate, has the chemical formula  $(\text{NH}_4)_2\text{SO}_4$ .

The scope includes ammonium sulfate that is combined with other products, including by, for example, blending (e.g., mixing granules of ammonium sulfate with granules of one or more other products), compounding (e.g., when ammonium sulfate is compacted with one or more other products under high pressure), or granulating (e.g., incorporating multiple products into granules through a slurry process). For such combined products, only the ammonium sulfate component is covered by the scope of these investigations.

Ammonium sulfate that has been combined with other products is included within the scope, regardless of whether the combining occurs in third countries.

Ammonium sulfate that is otherwise subject to these investigations is not excluded when commingled with ammonium sulfate from sources not subject to these investigations. Only the subject component of such commingled products is covered by the scope of these investigations.

The Chemical Abstracts Service ("CAS") registry number for ammonium sulfate is 7783-20-2.

The merchandise covered by these investigations is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheading 3102.21.00. Although this HTSUS subheading and CAS registry number are provided for convenience and customs purposes, the written description of the scope of the investigations is dispositive.

***Reporting of information.***-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

***Confidentiality.***--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

***Verification.***--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information.**--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of ammonium sulfate and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (*i.e.*, expenses are positive and incomes or reversals are negative--instances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (*i.e.*, income is positive, expenses or reversals are negative).
