PART I.—GENERAL INFORMATION

Background. The Department of Commerce issued antidumping duty orders on imports of “heavy” and “light” iron construction castings from Canada on March 5, 1986 and from Brazil and China on May 9, 1986. On May 15, 1986, Commerce issued a countervailing duty order on imports of “heavy” iron construction castings from Brazil. On September 23, 1998, Commerce issued the final results of a changed circumstance review concerning iron construction castings from Canada, in which the antidumping duty order with respect to “light” castings was revoked. On October 1, 2015, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make affirmative determinations, the orders will remain in place. If either the Commission or Commerce makes negative determinations, the Department of Commerce will revoke the orders. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2015/iron_construction_castings_brazil_canada_and_china/fourth_review_full.htm

Iron construction castings covered by these reviews consist of heavy castings and light castings.

Heavy castings -- manhole covers, rings, and frames, catch basin grates and frames, cleanout covers and frames used for drainage or access purposes for public utility, water and sanitary systems, collectively imported under Harmonized Tariff Schedule (HTS) statistical reporting number 7325.10.0010 until 1999. Starting in 2000, heavy castings were imported under the following statistical reporting numbers: 7325.10.0010, 7325.10.0020, and 7325.10.0025. Heavy castings may also be imported under HTS statistical reporting number 7325.10.0080 as “other.” Heavy castings from Brazil are subject to both antidumping and countervailing duty orders. Heavy castings from Canada and China are subject to antidumping duty orders.

Light castings -- valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water and gas meters. These types of light castings were imported under HTS statistical reporting number 7325.10.0050 until 1999. Starting in 2000, these light castings were imported under the following two reporting numbers: 7325.10.0030 and 7325.10.0035. Light castings may also be imported under HTS statistical reporting number 7325.10.0080 as “other.” Light castings from Brazil and China are subject to antidumping duty orders.

II-7. **Employment data.**--Report your firm's employment-related data related to the production of iron construction castings and provide an explanation for any trends in these data.

"Production Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to June periods, calculate similarly and divide by 6.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" --Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

III-9c. **Financial data reconciliation.**--The calculable line items from question III-9a and III-9b (*i.e.*, total net sales quantities and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) have been calculated from the data submitted in the other line items. Do the calculated fields return the correct data according to your firm's financial records ignoring non-material differences that may arise due to rounding?

- Yes No--If the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise.

Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (*i.e.*, expenses are positive and incomes or reversals are negative--instances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (*i.e.*, income is positive, expenses or reversals are negative).

If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.
