U.S. PURCHASERS' QUESTIONNAIRE

CERTAIN AMORPHOUS SILICA FABRIC FROM CHINA

This questionnaire must be received by the Commission by November 10, 2016

See the last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing and antidumping duty investigations concerning Amorphous Silica Fabric ("ASF") from China (Inv. Nos. 701-TA-555 and 731-TA-1310 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your possession (19 U.S.C. § 1333(a)). Further information on this questionnaire can be obtained from Andrew Knipe (202-205-2390, andrew.knipe@usitc.gov).

PART I.—GENERAL INFORMATION

<u>Background</u>.--This proceeding was instituted in response to a petition filed on January 20, 2016, by Auburn Manufacturing, Inc., Mechanic Falls, Maine. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at

https://www.usitc.gov/investigations/701731/2016/certain_amorphous_silica_fabric_china/final.htm.

<u>ASF</u> covered by these investigations is woven, industrial grade amorphous silica fabric ("ASF"), which contains a minimum of 90 percent silica (SiO₂) by nominal weight, and a nominal width in excess of 8 inches. The petition covers industrial grade ASF regardless of other materials contained in the fabric, regardless of whether in roll form or cut-to-length, regardless of weight, width (except for ASF tape, as discussed below), or length. The petition covers industrial grade ASF regardless of whether the product is approved by a standards testing body (such as being Factory Mutual ("FM") Approved), or regardless of whether it meets any governmental specification.

Industrial grade ASF may be produced in various colors. The petition covers industrial grade ASF regardless of whether the fabric is colored. Industrial grade ASF may be coated or treated with materials that include, but are not limited to, oils, vermiculite, acrylic latex compound, silicone, aluminized polyester (Mylar®) film, pressure-sensitive adhesive, or other coatings and treatments. The petition covers industrial grade ASF regardless of whether the fabric is coated or treated. Industrial grade ASF may be heat-cleaned. The petition covers industrial grade ASF regardless of whether the fabric is heat-cleaned.

Industrial grade ASF may be imported in rolls or may be cut-to-length and then further fabricated to make welding curtains, welding blankets, welding pads, fire blankets, fire pads, or fire screens. Regardless of the name, all industrial grade ASF that has been further cut-to-length or cut-to-width or further finished by finishing the edges and/or adding grommets, is included within the scope of these petitions.

Subject merchandise also includes (1) any industrial grade ASF that has been converted into industrial grade ASF in China from fiberglass cloth produced in a third country; and (2) ASF that has been further processed in a third country, including but not limited to treating, coating, slitting, cutting to length, cutting to width, finishing the edges, adding grommets, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the in-scope industrial grade ASF.

Excluded from the scope of the petitions is ASF that is subjected to controlled shrinkage, which is also called "pre-shrunk" or "aerospace grade" ASF. In order to be excluded as a pre-shrunk or aerospace grade ASF, the ASF must meet the following exclusion criteria: (1) the ASF must contain a minimum of 98 percent silica (SiO₂) by nominal weight; (2) the ASF must have an areal shrinkage of 4 percent or less; (3) the ASF must contain no coatings or treatments; and (4) the ASF must be white in color. For purposes of this scope, "areal shrinkage" refers to the extent to which a specimen of ASF shrinks while subjected to heating at 1800 degrees F for 30 minutes.

Also excluded from the scope are ASF rope and tubing (or sleeving). ASF rope is a knitted or braided product made from amorphous silica yarns. Silica tubing (or sleeving) is braided into a hollow sleeve from amorphous silica yarns.

The subject imports are normally imported under statistical reporting numbers 7019.59.4021, 7019.59.4096, 7019.59.9021, and 7019.59.9096 of the Harmonized Tariff Schedule of the United States ("HTSUS"), but may also enter under HTSUS items 7019.90.1000 or 7019.90.5050. HTSUS provisions are

provided for convenience and customs purposes only; the written description of the scope of these investigations is dispositive.

<u>Purchaser</u>.--Any firm engaged, either directly or through a parent company or subsidiary, in purchasing ASF from another firm that produces, imports, or otherwise distributes ASF.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e. a producer or importer questionnaire as well as a purchaser questionnaire), you need not respond to duplicate questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

II-1. Purchases.--Report your firm's total U.S. purchases of ASF by grade. (Do not include imports for which your firm was the importer of record; such imports should be reported in your U.S. importer's questionnaire.) For purposes of this question, the term "Fabrication Grade" refers to any product that is marketed for enhanced abrasion resistance and dimensional stability for fabrication purposes, and the term "mid-silica fabric" refers to .fabric with a silica content of between 70 and 90 percent.

PART V.—RFQs/BID DATA FOR SALES OF ASF

V-1. <u>Bid data.--</u>If your firm is a prime contractor for the U.S. Navy and purchased ASF through RFQs/bids, please contact Andrew Knipe (202-205-2390, <u>andrew.knipe@usitc.gov</u>) for an additional set of questions related to your purchases from RFQs/bids.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/701731/2016/certain_amorphous_silica_fabric_c hina/final.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box.</u>--Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: ASF2

• E-mail.--E-mail the MS Word questionnaire to andrew.knipe@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm <u>does not </u>**purchase this product**, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding.</u>--If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire your firm submits (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
