**PART I.—GENERAL INFORMATION**

**Background.**--This proceeding was instituted in response to a petitions filed on March 28, 2017, by Charter Steel, Saukville, Wisconsin; Gerdau Ameristeel US Inc., Tampa, Florida; Keystone Consolidated Industries, Inc., Peoria, Illinois; and Nucor Corporation, Charlotte, North Carolina. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at [https://www.usitc.gov/investigations/title\\_7/2017/carbon\\_and\\_certain\\_alloy\\_steel\\_wire\\_rod\\_belarus/preliminary.htm](https://www.usitc.gov/investigations/title_7/2017/carbon_and_certain_alloy_steel_wire_rod_belarus/preliminary.htm).

**Wire rod.**-- The merchandise covered by these investigations are certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, less than 19.00 mm in actual solid cross-sectional diameter. Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the Harmonized Tariff Schedule of the United States (HTSUS) definitions for (a) stainless steel; (b) tool steel; (c) high-nickel steel; (d) ball bearing steel; or (e) concrete reinforcing bars and rods. Also excluded are free cutting steel (also known as free machining steel) products (i.e., products that contain by weight one or more of the following elements: 0.1 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorous, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium). All products meeting the physical description of subject merchandise that are not specifically excluded are included in this scope.

Wire rod is currently imported under statistical reporting numbers 7213.91.3011, 7213.91.3015, 7213.91.3020, 7213.91.3093; 7213.91.4500, 7213.91.6000, 7213.99.0030, 7227.20.0030, 7227.20.0080, 7227.90.6010, 7227.90.6020, 7227.90.6030, and 7227.90.6035 of the Harmonized Tariff Schedule of the United States (HTSUS). Products entered under subheadings 7213.99.0090 and 7227.90.6090 of the HTSUS also may be included in this scope if they meet the physical description of subject merchandise above. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Carbon and certain alloy steel wire rod includes (but is not limited to) the products listed below.

**(1) Low and medium-low carbon industrial and standard quality rods.**--Rods manufactured from low or medium-low carbon steel and primarily intended for drawing into industrial or standard quality wire. This category also includes special quality rods. For the purpose of these questionnaires, data for chain quality rods, cold finishing rods, fine wire quality rods, and nondeformed concrete reinforcement rods should be reported in this category.

**(2) High and medium-high carbon industrial and standard quality rods.**--Rods manufactured from high or medium-high carbon steel and primarily intended for drawing into wire for such products as strand, hose, upholstery spring, mechanical spring, oil tempering, cold rolling, bearing, rope, screens, aluminum conductor steel reinforcement ("ACSR") core, pipe wrap, prestressed concrete wire, utility strand, and music wire.

**(3) Tire cord and tire bead quality rods.**--High-carbon wire rods that downstream purchasers, either specialized wire drawers or producers of steel-reinforced pneumatic tires, draw into bead or cord wire. Tire bead reinforces the bead (inner edge) of a tire and seals the tire against the wheel whereas tire cord is adhered to the inside of the tread for steel-reinforced pneumatic tires.

**(4) Welding quality rods.**--Rods intended for producing wire for gas welding, electric arc welding, submerged arc welding, and metal insert gas welding.

**(5) Cold heading quality ("CHQ") rods.**--Rods used in the manufacture of heading, forging, or cold extrusion quality wire.

**(6) Other specialty carbon and alloy quality rods.**--For the purpose of these questionnaires, data for scrapless nut, aircraft, cold heading bearing, and valve spring quality rods should be reported in this category.

**Reporting of information.**-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

**Confidentiality.**--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

**Verification.**--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information.**--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of wire rod and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

III-10. **Financial data reconciliation.**--The calculable line items from tables III-9a and III-9b (i.e., total net sales quantities and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) have been calculated from the data submitted in the other line items. Do the calculated fields return the correct data according to your firm's financial records ignoring non-material differences that may arise due to rounding?

Yes     No--If the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise.

Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (i.e., expenses are positive and incomes or reversals are negative--instances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (i.e., income is positive, expenses or reversals are negative).

If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-11. **Nonrecurring items (charges and gains) included in the wire rod financial results.**--For each annual period for which financial results are reported in tables III-9a or III-9b, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific tables III-9a or III-9b line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (*in \$1,000*). If an aggregate nonrecurring item has been allocated to table III-9a or III-9b, only the allocated value amount included in table III-9a or III-9b should be reported in the schedule below.
