

Recreation Area, 4564 Leatherwood Road, Oneida, TN, 423-569-9778.

**SUPPLEMENTARY INFORMATION:** The Big South Fork National River and Recreation Area is within the Cumberland Plateau area and straddles the Kentucky and Tennessee state line. This region has been extensively mined for coal since the early 1900s and mining waste materials were typically dumped near the mines. Surface and ground water that comes in contact with mine spoils or that is discharged from the mines is often acidic and has elevated (toxic) concentrations of heavy metals. Contaminated mine drainage pollutes aquatic systems and is considered to be partly responsible for a reduction in biological diversity of lakes and streams in the Big South Fork area.

The NPS developed mitigation and treatment systems for nine specific sites to a conceptual level during a prior environmental assessment effort. During that effort it was recommended that an EIS be prepared due to the scope and complexity of the project. As a result, the NPS is now preparing a Contaminated Mine Drainage Mitigation and Treatment System EIS. The purpose of this project is to address contaminated mine drainage (CMD) at nine sites within the McCreary County, Kentucky portion of BISO and to create a programmatic approach to considering future treatment options at former mining sites throughout Big South Fork National River and Recreation Area. These actions will address the need to improve water quality in tributaries of the Big South Fork River. As part of this effort, the NPS will consider adjusting or refining the preliminary engineering plans to install mine drainage mitigation and treatment systems at the nine sites that were studied in the earlier environmental assessment. A draft EIS will be prepared and presented to the public for review and comment, followed by preparation and availability of the Final Contaminated Mine Drainage Mitigation and Treatment System EIS.

A scoping brochure will be available summarizing the purpose, need and objectives of the EIS. Copies of that information may be obtained by visiting the NPS public comment and planning Web site at <http://parkplanning.nps.gov/biso>, or from the Office of the Superintendent, Niki Stephanie Nicholas, Big South Fork National River and Recreation Area, 4564 Leatherwood Road, Oneida, TN, 423-569-9778.

If you wish to comment during the scoping process, you may use any one

of several methods. The preferred method for submitting comments is on the NPS PEPC Web site at <http://parkplanning.nps.gov/biso>. You may also mail or hand-deliver your comments to: Big South Fork National River and Recreation Area, Attention: Coal Mine Drainage Treatment and Mitigation EIS, 4564 Leatherwood Road, Oneida, TN 37841

Comments will also be accepted during public meetings; however, comments in any format (hard copy or electronic) submitted on behalf of others will not be accepted. Before including your address, phone number, email address, or other personal identifying information in any comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The responsible official for this Coal Mine Drainage Mitigation and Treatment System EIS is the Regional Director, NPS Southeast Region, 100 Alabama Street SW., 1924 Building, Atlanta, Georgia 30303.

Dated: April 30, 2014.

## DEPARTMENT OF THE INTERIOR

### National Park Service

[NPS-NER-NERI-15235; PPENERISO/PPMPSPD1Z.YM00000[REMOVED PRIVATE FIELD]]

#### Establishment of a New Fee Area at New River Gorge National River

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** This notice is to comply with section 804 of the Federal Lands Recreation Enhancement Act of 2004 (Pub. L. 108-447). The act requires agencies to give the public advance notice (6 months) of the establishment of a new recreation fee area. New River Gorge National River in West Virginia plans to collect the following expanded amenity recreation fees at the newly constructed Meadow Creek Campground beginning in late summer of 2014: \$28 per night for an RV site with Electric and Water Hook-ups; \$24 per night for an RV site with Electric Hook-ups but no site-specific water; \$18

per night for a Tent Only site with Electric Hook-ups, but no site-specific water; \$10 per night for a Tent Only site with No Hook-ups. Communal water spigots will be available to all campers, regardless of site type. Revenue will be used to cover the cost of collections at the campground and for deferred maintenance in the park.

**DATES:** Collection of fees will be effective 6 months after publication in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:**

Jamie Fields, Planner, New River Gorge National River, P.O. Box 246, Glen Jean, WV 25846-0246; telephone (304) 465-6527.

**SUPPLEMENTARY INFORMATION:** These fees were determined through a comparability study of similar sites in the area at Federal, state, and private recreation areas and will only be charged at Meadow Creek Campground. In accordance with NPS public involvement guidelines, the park engaged numerous individuals, organizations, and local, state, and Federal government representatives while planning for the implementation of this fee.

Dated: April 30, 2014.

**Lena McDowall,**

*Associate Director, Business Services.*

## INTERNATIONAL TRADE COMMISSION

### Submission for OMB Review; Comment Request Agency proposal for the collection of information submitted to the Office of Management and Budget (OMB) for review; comment request.

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** In accordance with the provisions of the Paperwork Reduction Act of 1995 (P.L. 104-13), the Commission has submitted a proposal for the collection of information to OMB for approval. The proposed information collection is a 3-year extension of the current "generic clearance" (approved by the Office of Management and Budget under control No. 3117-0016) under which the Commission can issue information collections (specifically, producer, importer, purchaser, and foreign producer questionnaires and certain institution notices) for the following types of import injury investigations: Antidumping,

countervailing duty, escape clause, market disruption, NAFTA safeguard, and “interference with programs of the USDA.” Any comments submitted to OMB on the proposed information collection should be specific, indicating which part of the questionnaires or study plan are objectionable, describing the issue in detail, and including specific revisions or language changes.

**DATES:** To be assured of consideration, comments should be submitted to OMB within 30 days of the date this notice appears in the **Federal Register**.

**ADDRESSES:** Comments about the proposal should be directed to the Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Washington, DC 20503, Attention: Wendy Liberante, Desk Officer for U.S. International Trade Commission. Copies of any comments should be provided to Jeremy Wise (U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436).

**FOR FURTHER INFORMATION CONTACT:** Copies of the proposed collection of information and supporting documentation may be obtained from Jennifer Brinckhaus (U.S. International Trade Commission, tel. no. 202–205–3188). Hearing-impaired persons can obtain information on this matter by contacting the Commission’s TDD

terminal on 202–205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202–205–2000. General information concerning the Commission may also be obtained by accessing its internet server (<http://www.usitc.gov>).

**SUPPLEMENTARY INFORMATION:**

(1) The proposed information collection consists of five forms, namely the *Sample Producers’*, *Sample Importers’*, *Sample Purchasers’*, and *Sample Foreign Producers’ questionnaires* (separate forms are provided for questionnaires issued for the five-year reviews) and *Sample Notice of Institution for Five-Year Reviews*.

(2) The types of items contained within the sample questionnaires and institution notice are largely determined by statute. Actual questions formulated for use in a specific investigation depend upon such factors as the nature of the industry, the relevant issues, the ability of respondents to supply the data, and the availability of data from secondary sources.

(3) The information collected through questionnaires issued under the generic clearance for import injury investigations is consolidated by Commission staff and forms much of the statistical base for the Commission’s

determinations. Affirmative Commission determinations in antidumping and countervailing duty investigations result in the imposition of duties on imports entering the United States, determined by the Department of Commerce, which are in addition to any normal customs duties. If the Commission makes an affirmative determination in a five-year review, the existing antidumping or countervailing duty order remains in place. The data developed in escape-clause, market disruption, and interference-with-USDA-program investigations (if the Commission finds affirmatively) are used by the President/U.S. Trade Representative to determine the type of relief, if any, to be provided to domestic industries.

The submissions made to the Commission in response to the notices of institution of five-year reviews form the basis for the Commission’s determination as to whether a full or expedited review should be conducted.

(4) Likely respondents consist of businesses (including foreign businesses) or farms that produce, import, or purchase products under investigation. Estimated total annual reporting burden for the period July 2014–June 2017 that will result from the collection of information is presented below.

TABLE 1—PROJECTED ANNUAL BURDEN DATA, BY TYPE OF INFORMATION COLLECTION, JULY 2014–JUNE 2017

Item	Producer questionnaires	Importer questionnaires	Purchaser questionnaires	Foreign producer questionnaires	Institution notices for 5-year reviews	Total
Number of respondents ...	930	1,395	1,260	1,116	228	4,929
Frequency of response ....	1	1	1	1	1	1
Total annual responses ...	930	1,395	1,260	1,116	228	4,929
Hours per response .....	49	36	25	39	10	35.1
Total hours .....	45,570	50,220	31,500	43,524	2,280	173,094

No record keeping burden is known to result from the proposed collection of information.

By order of the Commission.

Issued: May 6, 2014.

**Lisa R. Barton,**

Secretary to the Commission.

**BILLING CODE 7020–02–P**

**INTERNATIONAL TRADE COMMISSION**

**Notice of Receipt of Complaint; Solicitation of Comments Relating to the Public Interest**

**AGENCY:** U.S. International Trade Commission.

**ACTION:** Notice.

**SUMMARY:** Notice is hereby given that the U.S. International Trade Commission has received a complaint entitled *Certain Silicon Tuners and Products Containing Same, Including Television Tuners DN 3011*; the Commission is soliciting comments on

any public interest issues raised by the complaint or complainant’s filing under section 210.8(b) of the Commission’s Rules of Practice and Procedure (19 CFR 210.8(b)).

**FOR FURTHER INFORMATION CONTACT:** Lisa R. Barton, Secretary to the Commission, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436, telephone (202) 205–2000. The public version of the complaint can be accessed on the Commission’s Electronic Document Information System (EDIS) at EDIS<sup>1</sup>, and will be available for inspection during official

<sup>1</sup> Electronic Document Information System (EDIS): <http://edis.usitc.gov>.
