U.S. PRODUCERS' QUESTIONNAIRE

CERTAIN CORROSION-RESISTANT STEEL PRODUCTS

This questionnaire must be received by the Commission by June 17, 2015

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning certain corrosion-resistant steel products ("corrosion-resistant steel") from China, India, Italy, Korea, and Taiwan (Inv. Nos. 701-TA-534-538 and 731-TA-1274-1278 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background. This proceeding was instituted in response to a petition filed on June 3, 2015, by United States Steel Corporation (Pittsburgh, Pennsylvania), Nucor Corporation (Charlotte, North Carolina), Steel Dynamics Inc. (Fort Wayne, Indiana), California Steel Industries (Fontana, California), ArcelorMittal USA LLC (Chicago, Illinois), and AK Steel Corporation (West Chester, Oregon). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at http://usitc.gov/investigations/701731/2015/certain_corrosion_resistant_steel_products_china/preliminary.htm

Corrosion-resistant steel. —The products covered by these investigations include certain flat-rolled steel products, either clad, plated, or coated with corrosion-resistant metals such as zinc-, aluminum-, nickel-or iron-based alloys, whether or not corrugated or painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating, both in coils, 0.5 inch wide or wider (whether or not in successively superimposed layers and/or otherwise coiled, such as spirally oscillated coils), and also in straight lengths, which, if less than 4.75 mm in thickness, having a width that is 0.5 inch or greater and that measures at least 10 times the thickness; or, if of a thickness of 4.75 mm or more, having a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process (i.e., products which have been "worked after rolling"); for example, products which have been beveled or rounded at the edges.

Steel products included in the scope of these investigations are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium

Unless specifically excluded, products are included regardless of levels of boron and titanium.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels and high strength low alloy (HSLA) steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize

carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of these investigations unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of these investigations:

- Flat-rolled steel products either plated or coated with tin, lead, chromium, chromium oxides, both tin and lead ("terne plate"), or both chromium and chromium oxides ("tin free steel"), whether or not painted, varnished or coated with plastics or other non-metallic substances in addition to the metallic coating;
- Clad products in straight lengths of 0.1875 inch or more in composite thickness and of a width which exceeds 150 mm and measures at least twice the thickness; and
- Certain clad stainless flat-rolled products, which are three-layered corrosion-resistant carbon steel flat-rolled products less than 4.75 mm in composite thickness that consist of a carbon steel flat-rolled product clad on both sides with stainless steel in a 20%-60%-20% ratio.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.—The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of corrosion-resistant steel and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your

response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

I-1a. <u>OMB statistics</u>.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-1b.	TAA information releaseIn the event that the U.S. International Trade Commission (USITC)
	makes an affirmative final determination in this proceeding, do you consent to the USITC's
	release of your contact information (company name, address, contact person, telephone
	number, email address) appearing on the front page of this questionnaire to the Departments of
	Commerce, Labor, and Agriculture, as applicable, so that your firm and its workers can be made
	eligible for benefits under the Trade Adjustment Assistance program?

rres	l No

I-2. <u>Establishments covered</u>.--Provide the city, state, zip code, and brief description of each establishment covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol in the footnote to the table. Firms operating more than one establishment should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of corrosion-resistant steel, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

		relocations	

II-3a. **Production using same machinery.--** Please report your firm's production of products made on the same equipment and machinery used to produce corrosion-resistant steel, and the combined production capacity on this shared equipment and machinery in the periods indicated.

"Overall production capacity" or "capacity" – The level of production that your entire establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

² Generally, total production (line I) will not exceed capacity (line A) in any given time period. If it does, please explain.

<u>RECONCILIATION OF SUBJECT CORROSION-RESISTANT STEEL PRODUCTION</u>.--The data reported for the production of subject corrosion-resistant steel in question II-3a (i.e., line G of this question, which automatically sums lines B, C, D, E, and F) should be equal to the production reported in question II-7 (i.e., line C).

	Calendar years			Januar	y-March
Reconciliation	2012	2013	2014	2014	2015
II-3a line G –II-7 line C= should equal zero ("0"), if not revise data prior to					
submission.	0	0	0	0	0

II-3b.	Operating parametersThe production capacity reported in II-3a is based on operating hours per week, weeks per year.
II-3c.	Capacity calculationPlease describe the methodology used to calculate overall production capacity reported in II-3a, and explain how overall capacity in question II-3a was allocated to the subject merchandise's average production capacity in question II-7.
II-3d.	Production constraintsPlease describe the constraint(s) that set the limit(s) on your firm's production capacity.
II-3e.	<u>Product shifting</u> .—Is your firm able to switch production (capacity) between corrosion-resistant steel and other products using the same equipment and/or labor?
	No Yes (i.e., have produced other products or are able to produce other products). Please identify other actual or potential products:
	Please describe the factors that affect your firm's ability to shift production capacity between products (e.g., time, cost, relative price change, etc.), and the degree to which these factors enhance or constrain such shifts.
II-4.	<u>Tolling</u> Since January 1, 2012, has your firm been involved in a toll agreement regarding the production of corrosion-resistant steel?
	"Toll agreement"Agreement between two firms whereby the first firm furnishes the raw materials and the second firm uses the raw materials to produce a product that it then returns to the first firm with a charge for processing costs, overhead, etc.
	No YesPlease describe the toll arrangement(s) and name the firm(s) involved

II-5. Foreign trade zones.--

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

	II-5a. <u>Firm's FTZ operations</u> Does your firm produce corrosion-resistant steel in and/or admit corrosion-resistant steel into a foreign trade zone (FTZ)?
	No YesDescribe the nature of your firms operations in FTZs and identify the specific FTZ site(s).
	II-5b. Other firms' FTZ operationsTo your knowledge, do any firms in the United States import corrosion-resistant steel into a foreign trade zone (FTZ) for use in distribution of corrosion-resistant steel and/or the production of downstream articles?
	No/Don't know YesIdentify the firms and the FTZs.
II-6.	<u>Importer</u> Since January 1, 2012, has your firm imported corrosion-resistant steel?
-	er" – The person or firm primarily liable for the payment of any duties on the merchandise, or orized agent acting on his behalf. The importer may be the consignee, or the importer of record.
	No YesCOMPLETE AND RETURN A U.S. IMPORTERS' QUESTIONNAIRE

II-7. Production, shipment and inventory data.--Definitions

"Average production capacity" or "capacity" – The level of production that your entire establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"U.S. commercial shipments" –Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-7. <u>Production, shipment and inventory data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of corrosion-resistant steel in its U.S. establishment(s) during the specified periods.

II-11.	Pre-painted/paint line quality product.—Report the share of your firm's commercial U.S. shipmen
	quantity of corrosion-resistant steel in 2014 that was pre-painted or paint line quality.

Explanation of trends:

II-12. <u>Employment data</u>.--Report your firm's employment-related data related to the production of corrosion-resistant steel and provide any explanation for any trends in these data.

"Production Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to March periods, calculate similarly and divide by 3.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

	Calendar years			January-March

Average number of PRWs (number)					
Hours worked by PRWs (1,000 hours)					
Wages paid to PRWs (\$1,000)					

3.	Related firmsIf your firm reported transfers to related firms in question II-7, please indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.
----	---

II-14.	<u>Purchases</u> Other than direct imports, has your firm otherwise purchased corrosion-resistant steel since January 1, 2012?							
	"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has directly imported the product.							
	"Direct import" –A transfer of record or consignee		ι from a foreigr	າ producer wl	here your firm	is the importer

PART III.--FINANCIAL INFORMATION

Address questions on this part of the questionnaire to Jennifer Brinckhaus (2	.02-205-3188,
jennifer.brinckhaus@usitc.gov).	

Name	
Title	
Email	
Telephone	
Fax	
Accounting sy	vstemBriefly describe your firm's financial accounting system.
A.	When does your firm's fiscal year end (month and day)?
Λ.	If your firm's fiscal year changed during the data-collection period, explain below:
B.1.	Describe the lowest level of operations (e.g., plant, division, company-widwhich financial statements are prepared that include corrosion-resistant s
2.	Does your firm prepare profit/loss statements for corrosion-resistant stee
3.	How often did your firm (or parent company) prepare financial statements (including annual reports, 10Ks)? Please check relevant items below. Audited, unaudited, annual reports, 10Ks, 10 Qs, Monthly, quarterly, semi-annually, annually
4.	Accounting basis: GAAP, cash, tax, or other comprehe basis of accounting (specify)
used ir regard submit profit-	As requested in Part I of this questionnaire, please keep all supporting documents/renthe preparation of the financial data, as Commission staff may contact your firm ling questions on the financial data. The Commission may also request that your combit copies of the supporting documents/records (financial statements, including international data includes corrosion-resistant as well as specific statements and worksheets) used to compile these data.

III-8.	Inputs purchased from related suppliersPlease confirm that the inputs purchased from related suppliers, as identified in III-7, were reported in III-9a (financial results on Corrosion-resistant steel) in a manner consistent with your firm's accounting books and records.
	Yes
	NoIn the space below, please report the valuation basis of inputs purchased from related suppliers as reported in table III-9a.

III-9a. Operations on corrosion-resistant steel.--Report the revenue and related cost information requested below on the corrosion-resistant steel operations of your firm's U.S. establishment(s). Do not report resales of products. Note that internal consumption and transfers to related firms must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for your firm's three most recently completed fiscal years, and for the specified interim periods. If your firm was involved in tolling operations (either as the toller or as the tollee), please contact Jennifer Brinckhaus at (202) 205-3188 before completing this section of the questionnaire.

Note -- The table above contains calculations that will appear when you have entered data in the MS Word form fields.

¹ Include only sales (whether <u>domestic or export</u>) and costs related to your <u>U.S. manufacturing operations</u>.

² Less discounts, returns, allowances, and prepaid freight. The quantities and values should approximate the corresponding shipment quantities and values reported in Part II of this questionnaire.

³ COGS (whether for domestic or export sales) should include costs associated with CS, IC, and Transfers.

III-9b.	quantitie have bee return th	data reconciliationThe calculable line items from question III-9a (i.e., total net sales s and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) in calculated from the data submitted in the other line items. Do the calculated fields e correct data according to your firm's financial records ignoring non-material es that may arise due to rounding?
	Yes	NoIf the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise.
		Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (<i>i.e.</i> , expenses are positive and incomes or reversals are negativeinstances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (<i>i.e.</i> , income is positive, expenses or reversals are negative).
		If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-10. Nonrecurring items (charges and gains) included in the subject product financial results.--For each annual and interim period for which financial results are reported in question III-9a, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific table III-9a line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (in \$1,000), as reflected in table III-9a; i.e., if an aggregate nonrecurring item has been allocated to table III-9a, only the allocated value amount included in table III-9a should be reported in the schedule below. Note: The Commission's objective here is to gather information only on material (significant) nonrecurring items which impacted the reported financial results of the subject product in table III-9a.

Fax	

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2012 of the following products produced by your firm.
 - Product 1: Hot-dipped 55 percent aluminum-zinc alloy-coated steel sheet (e.g., Galvalume), bare, structural steel quality, AZ50 to AZ55 coating, 24 inches to 60 inches in width, 0.014 inches to 0.018 inches in thickness
 - Product 2: Hot-dipped 55 percent aluminum-zinc alloy-coated steel sheet (e.g., Galvalume), pre-painted, structural steel quality, AZ50 to AZ55 coating, 24 inches to 60 inches in width, 0.014 inches to 0.018 inches in thickness
 - Product 3: Hot-dipped galvanized steel sheet, commercial steel type B, G-30 to G-60 coating weight, 24 inches to 60 inches in width, 0.012 inches to 0.018 inches in thickness
 - Product 4: Hot-dipped galvanized steel sheet, structural steel quality, G-60 to G-90 coating weight, 24 inches to 60 inches in width, 0.024 inches to 0.06 inches in thickness

Please note that values should be <u>f.o.b.</u>, <u>U.S. point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates). Report data only for your firm's non-contract sales (i.e., sales not pursuant to annual or longer-term contracts).

During January 2012-March 2015, did your firm produce and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table(s) as appropriate.
NoSkip to question IV-3.

IV-2. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² produced and sold by your firm. Report data only for your firm's non-contract sales (i.e., sales not pursuant to annual or longer-term contracts).

Report data in actual short tons and actual dollars (not 1,000s).

(Quantity in short tons, value in dollars)

Pricing data methodology.—Please describe the method and the kinds of documents/records				
that were used to compile your price data.				

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

IV-3. **Price setting.--** How does your firm determine the prices that it charges for sales of corrosion-resistant steel (*check all that apply*)? If your firm issues price lists, please submit sample pages of a recent list.

Customer type	Transaction by transaction	Contracts	Set price lists	Other	If other, describe
Automotive end user					
Construction end user					
Consumer appliance end user					
Other end user ¹					
Steel service centers and distributors					
¹ Specify other end use	r .			1	

IV-4. <u>Discount policy</u>.-- Please indicate and describe your firm's discount policies (*check all that apply*).

Customer type	Quantity discounts	Annual total volume discounts	No discount policy	Other	Describe
Automotive end user					
Construction end user					
Consumer appliance end user					
Other end user ¹					
Steel service centers and distributors					
¹ Specify other end use	er .	•			

IV-5. **Pricing terms.--**

(a) What are your firm's typical sales terms for its U.S.-produced corrosion-resistant steel?

Customer type	Net 30 days	Net 60 days	2/10 net 30 days	Other	Other (specify)
Automotive end user					
Construction end user					
Consumer appliance end user					
Other end user ¹					
Steel service centers and distributors					
¹ Specify other end user	•	1	1		,

(b) On what basis are your firm's prices of domestic corrosion-resistant steel usually quoted *(check one)*?

Customer type	Delivered	F.o.b.	If f.o.b., specify point
Automotive end user			
Construction end user			
Consumer appliance end user			
Other end user ¹			
Steel service centers and distributors			
¹ Specify other end user .			

IV-6. <u>Contract versus spot.</u>--Approximately what share of your firm's sales of its U.S.-produced corrosion-resistant steel in 2014 was on a (1) long-term contract basis, (2) annual contract basis, (3) short-term contract basis, and (4) spot sales basis?

		Туре о	f sale			
	Long-term contracts (multiple deliveries for more than 12 months)	Annual contracts (multiple deliveries for 12 months)	Short-term contracts (multiple deliveries for less than 12 months)	Spot sales (for a single delivery)	Total (shoul sum t 100.0%	ld o
Share of 2014 sales	%	%	%	%	0.0	%

IV-7. <u>Contract provisions.</u>--Please fill out the table regarding your firm's typical sales contracts for U.S.-produced corrosion-resistant steel (or check "not applicable" if your firm does not sell on a long-term, short-term and/or annual contract basis).

Typical sales contract provisions	Item	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)
Average contract duration	# of days		365	
Price	Yes			
renegotiation (during contract period)	No			
	Quantity			
Fixed quantity and/or price	Price			
aa, e pee	Both			
Meet or release	Yes			
provision	No			
Not applicable				

IV-8. <u>Lead times.</u>--What is your firm's share of sales from inventory vs. produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of its U.S.-produced corrosion-resistant steel?

Source	Share of 2014 sales	Lead time (average number of days)
From inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

IV-9.	Shipping	information

(a)	What is the approximate percentage of the total delivered cost of U.Sproduced corrosion-resistant steel that is accounted for by U.S. inland transportation costs? percent
(b)	Who generally arranges the transportation to your firm's customers' locations? Your firm Purchaser (check one)
(c)	Indicate the approximate percentage of your firm's sales of corrosion-resistant steel that are delivered the following distances from its production facility.

Distance from production facility	Share
Within 100 miles	%
101 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

IV-10. <u>Geographical shipments.--</u> In which U.S. geographic market area(s) has your firm sold its U.S.-produced corrosion-resistant steel since January 1, 2012 (check all that apply)?

Geographic area	√ if applicable
NortheastCT, ME, MA, NH, NJ, NY, PA, RI, and VT.	
MidwestIL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.	
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.	
Central Southwest.—AR, LA, OK, and TX.	
Mountains.–AZ, CO, ID, MT, NV, NM, UT, and WY.	
Pacific Coast.—CA, OR, and WA.	
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.	

IV-11. <u>End uses</u>.--List the end uses of the corrosion-resistant steel that your firm manufactures. For each end-use product, what percentage of the <u>total cost</u> is accounted for by corrosion-resistant steel and other inputs?

	Share of total cost		
End use product	Corrosion-resistant steel	Other inputs	Total (should sum to 100.0% across)
	%	%	0.0 %
	%	%	0.0 %
	%	%	0.0 %

			9	O			%	0.0 %	
			9	6			%	0.0 %	
IV-12. <u>Subs</u>	V-12. Substitutes Can other products be substituted for corrosion-resistant steel? No YesPlease fill out the table.

Canada			\times				
For any country- identify the coun		-					_

IV-19. **Factors other than price.**--Are differences other than price (*e.g.*, quality, availability, transportation network, product range, technical support, *etc.*) between corrosion-resistant steel produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = no familiarity with products from a specified country-pair

Country-pair	China	India	Italy	Korea	Taiwan	Canada	Other countries
United States							
China							
India							
Italy			\times				
Korea			\times				
Taiwan							
Canada							

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of corrosion-resistant steel, identify the country-pair and report the advantages or disadvantages imparted by such factors:

IV-20. <u>Customer identification</u>--List the names and contact information for your firm's 10 largest U.S. customers for corrosion-resistant steel since January 1, 2012. Indicate the share of the quantity of your firm's total shipments of corrosion-resistant steel that each of these customers accounted for in 2014.

	IV-21.	Competition	from	imports
--	--------	-------------	------	---------

(a)	<u>Lost revenue</u> Since January 1, 2012: To avoid losing sales to competitors selling
	corrosion-resistant steel from China, India, Italy, Korea, or Taiwan, did your firm:

	No	Yes
Reduce prices		
Roll back announced price increases		

(b) <u>Lost sales.</u>--Since January 1, 2012: Did your firm lose sales of corrosion-resistant steel to imports of corrosion-resistant steel from China, India, Italy, Korea, or Taiwan?

No	Yes

(c) The submission of lost sales/lost revenue allegations is to be completed only by NON-PETITIONERS. (Note: petitioners may provide allegations involving quotes made AFTER the filing of the petition.) Please do not resubmit allegations provided previously.

If your firm indicated "yes" to any of the above, your firm can provide the Commission with additional information by downloading and completing the lost sales/lost revenues worksheet at http://usitc.gov/trade_remedy/question.htm. Note that the Commission may contact the firms named to verify the allegations reported.

Is your firm submitting the lost sales/lost revenues worksheet?

	No—Please explain.
	Yes—Please complete the worksheet and submit via the Commission dropbox.
	https://dropbox.usitc.gov/oinv/. (PIN: CORE)

IV-22. Other explanations—If your firm would like to further explain a response to a question in Part IV that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

http://usitc.gov/investigations/701731/2015/certain corrosion resistant steel product s china/preliminary.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: CORE

• E-mail.—E-mail the MS Word questionnaire to mary.messer@usitc.gov; include a scanned copy of the signed certification page (page 1). Please note that submitting your questionnaire by e-mail may subject your firm's business proprietary information to transmission over an unsecure environment and to possible disclosure. If you choose this option, the Commission warns you that any risk involving possible disclosure of such information is assumed by the submitter and not by the Commission.

If your firm does not produce this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
