## **U.S. IMPORTERS' QUESTIONNAIRE**

## **CERTAIN COLD-ROLLED STEEL PRODUCTS**

This questionnaire must be received by the Commission by August 11, 2015

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning cold-rolled steel from Brazil, China, India, Japan, Korea, Netherlands, Russia, and the United Kingdom (inv. Nos. 701-TA-540-544 and 731-TA-1283-1290 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

#### PART I.—GENERAL INFORMATION

**Background.** This proceeding was instituted in response to a petition filed on July 28, 2015, by AK Steel Corporation (West Chester, OH), ArcelorMittal USA LLC (Chicago, IL), Nucor Corporation (Charlotte, NC), Steel Dynamics, Inc. (Fort Wayne, IN), and United States Steel Corporation (Pittsburgh, PA). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at

http://www.usitc.gov/investigations/701731/2015/cold\_rolled\_steel\_products\_brazil\_china\_india/preliminary.htm .

Certain cold-rolled steel products ("cold-rolled steel").-- The products covered by these investigations are certain cold-rolled (cold-reduced), flat-rolled steel products, neither clad, plated, nor coated with metal, but whether or not annealed, painted, varnished, or coated with plastics or other non-metallic substances. The products covered include coils that have a width of 12.7 mm wide or greater, regardless of form of coil (e.g., in successively superimposed layers, spirally oscillating, etc.). The products covered also include products not in coils (e.g., in straight lengths) of a thickness less than 4.75 mm and a width that is 12. 7 mm or greater and that measures at least 10 times the thickness. The products covered also include products not in coils (e.g., in straight lengths) of a thickness of 4.75 mm or more and a width exceeding 150 mm and measuring at least twice the thickness. The products described above may be rectangular, square, circular, or other shape and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, i.e., products which have been "worked after rolling" (e.g., products which have been beveled or rounded at the edges). For purposes of the width and thickness requirements referenced above:

- (1) where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above, and
- (2) where the width and thickness vary for a specific product (e.g., the thickness of certain products with non-rectangular cross-section, the width of certain products with nonrectangular shape, etc.), the measurement at its greatest width or thickness applies.

Steel products included in the scope of these investigations are products in which: (1) iron predominates, by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 2.50 percent of manganese, or
- 3.30 percent of silicon, or
- 1.50 percent of copper, or
- 1.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 2.00 percent of nickel, or
- 0.30 percent of tungsten (also called wolfram), or

- 0.80 percent of molybdenum, or
- 0.10 percent of niobium (also called columbium), or
- 0.30 percent of vanadium, or
- 0.30 percent of zirconium.

Unless specifically excluded, products are included in this scope regardless of levels of boron and titanium.

Specifically included in this scope are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium and/or niobium added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, titanium, vanadium, and molybdenum. Motor lamination steels contain micro-alloying levels of elements such as silicon and aluminum but do not meet the definition of grain-oriented electrical steel (GOES) or non-oriented electrical steel (NOES).

This scope also includes Advanced High Strength Steels (AHSS) and Ultra High Strength Steels (UHSS), both of which are considered high tensile strength and high elongation steels.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of these investigations unless specifically excluded. The following products are outside of and/or specifically excluded from the scope of these investigations:

- Ball bearing steels, as defined in the HTS;
- Tool steels, as defined in the HTS;
- Silicon-manganese steel, as defined in the HTS;
- Silicon-electrical steels, as defined in the HTS, that are GOES;
- Silicon-electrical steels, as defined in the HTS, that are not grain-oriented and that have a silicon level exceeding 1.00 percent and a surface oxide coating, to which an insulation coating may be applied (NOES); and
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTS.

Cold-rolled steel may be imported into the United States under the following statistical reporting numbers of the Harmonized Tariff Schedule of the United States (HTS): 7209.15.0000, 7209.16.0030, 7209.16.0060, 7209.16.0070, 7209.16.0091, 7209.17.0030, 7209.17.0060, 7209.17.0070, 7209.17.0091, 7209.18.1530, 7209.18.1560, 7209.18.2510, 7209.18.2520, 7209.18.2580, 7209.18.6020, 7209.18.6090, 7209.25.0000, 7209.26.0000, 7209.27.0000, 7209.28.0000, 7209.90.0000, 7210.70.3000, 7211.23.1500, 7211.23.2000, 7211.23.3000, 7211.23.4500, 7211.23.6030, 7211.23.6060, 7211.23.6075, 7211.23.6085, 7211.29.2030, 7211.29.2090, 7211.29.4500, 7211.29.6030, 7211.29.6080, 7211.90.0000, 7212.40.1000, 7212.40.5000, 7225.50.6000, 7225.50.8015, 7225.50.8085, 7225.99.0090, 7226.92.5000, 7226.92.7050, and 7226.92.8050.1.

<sup>&</sup>lt;sup>1</sup> Subject merchandise may also enter under 7210.90.9000, 7212.50.0000, 7225.19.0000, 7226.19.1000, 7226.19.9000, and 7226.99.0180

<u>Certain alloy cold-rolled steel products ("Alloy cold-rolled steel")</u>.--Alloy cold-rolled steel, a subset of cold-rolled steel, in which: (1) iron predominates by weight, over each of the other contained elements; (2) the carbon content is 2 percent or less, by weight; and (3) one or more of the elements listed below is present in the quantity, by weight, respectively indicated:

- 0.30 1.50 percent of aluminum
- 0.0008 unlimited percent of boron
- 0.40 1.50 percent of copper
- 0.30 1.25 percent of chromium
- 1.65 2.50 percent of manganese
- 0.08 0.80 percent of molybdenum
- 0.30 2.00 percent of nickel
- 0.06 0.10 percent of niobium (also called columbium)
- 0.60 3.30 percent of silicon
- 0.05 unlimited percent of titanium
- 0.10 0.30 percent of vanadium
- 0.05 0.30 percent of zirconium

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing cold-rolled steel (as defined above) into the United States from a foreign manufacturer or through its selling agent.

**Reporting of information**.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information**.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

I-8. **FTZ, TIB, or bonded warehouses**.--Please indicate whether your firm enters cold-rolled steel into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports cold-rolled steel under the TIB (temporary importation under bond) program.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S. Code § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States(HTS).

### **Definitions**

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

**"U.S. commercial shipments"**— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

**"Export shipments"**— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>IMPORTS FROM BRAZIL</u>.—Report your firm's imports and your firm's shipments and inventories of cold-rolled steel imported from Brazil by your firm during the specified periods.

To end users (quantity) (L)						

<sup>&</sup>lt;sup>2</sup> Sales to related firms (including internal consumption) must be valued at fair market value. In the event that your firm uses a different basis for valuing these sales within your company, please specify that basis (e.g., cost, cost plus, etc.) and provide value data using that basis for each of the periods noted above: \_\_\_\_\_.

<sup>&</sup>lt;sup>3</sup> Identify your firm's principal export markets: \_\_\_\_\_\_.

#### II-14a. IMPORTS FROM ALL OTHER SOURCES.—Continued

<u>RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES</u>.--Generally, the data reported for the end-of-period inventories (i.e., line J) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, and H). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	Calendar years			January-June		
Reconciliation	2012	2013	2014	2014	2015

#### PRICE DATA

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2012 of the following products your firm imported from Brazil, China, India, Japan, Korea, Netherlands, Russia, United Kingdom, and/or Canada:
  - <u>Product 1.--</u> Cold-rolled carbon steel sheet, in coils, commercial quality (ASTM A-1008), not interstitial free, not painted, box annealed and temper rolled, 24" to 48" in width, 0.0120" to 0.0219" in thickness. <u>Non-contract sales</u> (i.e. sales not pursuant to annual or longer-term contracts).
  - <u>Product 2</u>.-- Cold-rolled carbon steel sheet, in coils, commercial quality (ASTM A-1008), not interstitial free, not painted, box annealed and temper rolled, 34" to 72" in width, 0.0220" to 0.0849" in thickness. <u>Non-contract sales</u> (i.e. sales not pursuant to annual or longer-term contracts).
  - <u>Product 3.--</u> Cold-rolled carbon steel sheet, in coils, commercial quality (ASTM A-1008), not interstitial free, not painted, box annealed and temper rolled, 34" to 72" in width, 0.0220" to 0.0849" in thickness. <u>Contract sales</u> (i.e. sales pursuant to annual or longer-term contracts).
  - <u>Product 4.</u>-- Cold-rolled carbon steel sheet, in coils, commercial quality (ASTM A-1008), not interstitial free, not painted, box annealed and temper rolled, 34" to 72" in width, 0.0850" to 0.1350" in thickness. <u>Non-contract sales</u> (i.e. sales not pursuant to annual or longer-term contracts).

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2012-June 2015, did your firm import from Brazil, China, India, Japan, Korea, Netherlands, Russia, United Kingdom, and/or Canada and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

## III-5. **Pricing terms.--**

(a) What are your firm's typical sales terms for cold-rolled steel imported from subject countries?

Net 30 days	Net 60 days	2/10 net 30 days	Other	Other (specify)

(b) On what basis are your firm's prices of imported cold-rolled steel from subject countries usually quoted *(check one)*?

Delivered	F.o.b.	If f.o.b., specify point

III-6. <u>Contract versus spot.</u>--Approximately what share of your firm's sales of cold-rolled steel imported from subject countries in 2014 was on a (1) long-term contract basis, (2) annual contract basis, (3) short-term contract basis, and (4) spot sales basis?

		Type of	fsale			
Share of 2014 sales	Long-term contracts (multiple deliveries for more than 12 months)	Annual contracts (multiple deliveries for 12 months)	Short-term contracts (multiple deliveries for less than 12 months)	Spot sales (for a single delivery)	Tota (shou sum t	ld :o
Automotive end users	%	%	%	%	0.0	%
Other end users	%	%	%	%	0.0	%
Steel service centers and distributors	%	%	%	%	0.0	%

III-7. <u>Contract provisions.</u>— Please fill out the table regarding your firm's typical sales contracts for cold-rolled steel from subject countries (or check "not applicable" if your firm does not sell on a long-term, short-term and/or annual contract basis).

Typical sales contract provisions	Item	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)
Average contract duration	# of days		365	
Price renegotiation	Yes			
(during contract period)	No			
	Quantity			
Fixed quantity and/or price	Price			
511.57 E11.50	Both			
Meet or release	Yes			
provision	No			
Not applicable				

III-8. <u>Lead times.--</u>What is your firm's share of sales of cold-rolled steel imported from subject countries from inventory and produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of cold-rolled steel?

Source	Share of 2014 sales	Lead time (days)
From your firm's U.S. inventory	%	
From foreign manufacturers' inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

II-9.	<b>Shipping</b>	information.	_
-------	-----------------	--------------	---

(a)	What is the approximate percentage of the total delivered cost of cold-rolled steel imported from subject countries that is accounted for by U.S. inland transportation costs? percent.
(b)	Who generally arranges the transportation to your firm's customers' locations?  Your firm Purchaser (check one)
(c)	When your firm sells cold-rolled steel imported from subject countries, from where is it shipped?  Point of importation Storage facility (check one)
(d)	Indicate the approximate percentage of your firm's sales of cold-rolled steel imported from subject countries that are delivered the following distances from your firm's U.S. point of shipment.

Distance from your firm's U.S. point of shipment	Share
Within 100 miles	%
101 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

III-10.	Geographical shipmentsIn which U.S. geographic market area(s) has your firm sold cold-rolled
	steel imported from subject countries since January 1, 2012 (check all that apply)?

Geographic area	Brazil	China	India	Japan	Korea	Nether- lands	Russia	United Kingdom
NortheastCT, ME, MA, NH, NJ, NY, PA, RI, and VT.								
Midwest.–IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.								
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.								
Central Southwest.—AR, LA, OK, and TX.								
Mountains.—AZ, CO, ID, MT, NV, NM, UT, and WY.								
Pacific Coast.–CA, OR, and WA.								
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.								

III-11. <u>End uses.--</u>List the end uses of the cold-rolled steel that your firm imports from subject countries. For each end-use product, what percentage of the <u>total cost</u> is accounted for by cold-rolled steel and other inputs?

	Share of total cost account	Total	
End use product			(should sum to 100.0% across)
End use product	%	%	0.0 %
	%	%	0.0 %
	%	%	0.0 %

(b) If yes, have there been any changes in the business cycles or conditions of competition for cold-rolled steel since January 1, 2012?

conditions of competition

U.S.	Importers'	Questionnaire -	Cold-Rolled Steel
------	------------	-----------------	-------------------

No	Yes	If yes, describe.

III-16. Supply constraints.--Has your firm refused, declined, or been unable to supply cold-rolled steel since January 1, 2012 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, been unable to meet timely shipment commitments, etc.)?

No	Yes	If yes, please describe.

III-17. Raw materials.-- How have cold-rolled steel raw materials prices changed since January 1, 2012?

Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for cold-rolled steel.

III-18. <u>Interchangeability</u>.--Is cold-rolled steel produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = no familiarity with products from a specified country-pair

Country-pair	Brazil	China	India	Japan	Korea	Netherlands	Russia	UK	Other countries
U.S.									
Brazil	$\times$								
China	$\times$	X							
India	X	X	X						
Japan	X	X	X	$\times$					
Korea	$\times$	X	X	$\times$	$\times$				
Netherlands	$\times$	$\times$	$\times$	$\times$	$\times$				
Russia		X	X	$\times$	$\times$		$\times$		
UK		X	$\times$		$\times$		$\times$	X	

For any country-pair producing cold-rolled steel that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

III-19. <u>Factors other than price</u>.--Are differences other than price (*e.g.*, quality, availability, transportation network, product range, technical support, *etc.*) between cold-rolled steel produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = no familiarity with products from a specified country-pair

Country-pair	Brazil	China	India	Japan	Korea	Netherlands	Russia	UK	Other countries
U.S.									
Brazil	$\times$								
China	$\times$	$\times$							
India	$\times$	$\times$	$\times$						
Japan	$\times$	$\times$	$\times$	$\times$					
Korea	$\times$	$\times$	$\times$	$\times$	$\times$				
Netherlands	$\times$	$\times$	$\times$	$\times$	$\times$				
Russia	$\times$	$\times$	$\times$	$\times$	$\times$		$\times$		
UK		$\times$	$\times$		$\searrow$		$\searrow$	$\times$	

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of cold-rolled steel, identify the country-pair and report the advantages or disadvantages imparted by such factors:

III-20. <u>Customer identification</u>.--List the names and contact information for your firm's 10 largest U.S. customers for cold-rolled steel since January 1, 2012. Indicate the share of the quantity of your firm's total shipments of cold-rolled steel that each of these customers accounted for in 2014.

	Customer's name	Contact person	Email	Telephone	City	State	Share of 2014 sales (%)

III-21.	Other explanationsIf your firm would like to further explain a response to a question in Part III that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

# **HOW TO FILE YOUR QUESTIONNAIRE RESPONSE**

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

http://www.usitc.gov/investigations/701731/2015/cold rolled steel products brazil china india/preliminary.htm

**Please do not attempt to modify the format or permissions of the questionnaire document**. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: <a href="https://dropbox.usitc.gov/oinv/">https://dropbox.usitc.gov/oinv/</a> Pin: STEEL

• E-mail.—E-mail the MS Word questionnaire to nathanael.comly@usitc.gov; include a scanned copy of the signed certification page (page 1). Please note that submitting your questionnaire by e-mail may subject your firm's business proprietary information to transmission over an unsecure environment and to possible disclosure. If you choose this option, the Commission warns you that any risk involving possible disclosure of such information is assumed by the submitter and not by the Commission.

**If your firm** did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
