U.S. IMPORTERS' QUESTIONNAIRE

CIRCULAR WELDED CARBON-QUALITY STEEL PIPE FROM OMAN, PAKISTAN, THE PHILIPPINES, THE UNITED ARAB EMIRATES, AND VIETNAM

This questionnaire must be received by the Commission by November 12, 2015

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning circular welded carbon-quality steel pipe ("circular welded pipe") from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam (Inv. Nos. 701-TA-549 and 731-TA-1299-1303 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

	CERTIFICATION

I certify that the information herein supplied in response to this questionnaire is complete and correct to the best of my knowledge and belief and understand that the information submitted is subject to audit and verification by the Commission.

By means of this certification I also grant consent for the Commission, and its employees and contract personnel, to use the information provided in this questionnaire and throughout this proceeding in any other import-injury proceedings conducted by the Commission on the same or similar merchandise.

I acknowledge that information submitted in this questionnaire response and throughout this proceeding may be used by the Commission, its employees, and contract personnel who are acting in the capacity of Commission employees, for developing or maintaining the records of this proceeding or related proceedings for which this information is submitted, or in internal audits and proceedings relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3. I understand that all contract personnel will sign non-disclosure agreements.

PART I.—GENERAL INFORMATION

Background. This proceeding was instituted in response to a petition filed on October 28, 2015, by Bull Moose Tube Company, Chesterfield, MO; EXLTUBE, Kansas City, MO; Wheatland Tube, Chicago, IL; and Western Tube & Conduit, Long Beach, CA. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available

at http://www.usitc.gov/investigations/701731/2015/circular_welded_carbon_quality_steel_pipe_oma_n/preliminary.htm

<u>Circular Welded Pipe</u> covered by these investigations is . . . welded carbon-quality steel pipes and tube, of circular cross-section, with an outside diameter ("O.D.") not more than 16 inches (406.4mm), regardless of wall thickness, surface finish (e.g., black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (e.g. American Society for Testing and Materials International ("ASTM"), proprietary, or other) generally known as standard pipe, fence pipe and tube, sprinkler pipe, and structural pipe (although subject product may also be referred to as mechanical tubing). Specifically, the term, "carbon quality" includes products in which: (a) iron predominates, by weight, over each of the other contained elements; (b) the carbon content is 2 percent or less, by weight; and (c) none of the elements listed below exceeds the quantity, by weight, as indicated:

- (i) 1.80 percent of manganese;
- (ii) 2.25 percent of silicon;
- (iii) 1.00 percent of copper;
- (iv) 0.50 percent of aluminum;
- (v) 1.25 percent of chromium;
- (vi) 0.30 percent of cobalt;
- (vii) 0.40 percent of lead;
- (viii) 1.25 percent of nickel;
- (ix) 0.30 percent of tungsten;
- (x) 0.15 percent of molybdenum;
- (xi) 0.10 percent of niobium;
- (xii) 0.41 percent of titanium;
- (xiii) 0.15 percent of vanadium;
- (xiv) 0.15 percent of zirconium.

Subject pipe is ordinarily made to ASTM specifications A53, A135, and A795, but can also be made to other specifications. Structural pipe is made primarily to ASTM specifications A252 and A500. Standard and structural pipe may also be produced to proprietary specifications rather than to industry specifications. Fence tubing is included in the scope regardless of certification to a specification listed in the exclusions below, and can also be made to the ASTM A513 specification. Sprinkler pipe is designed for sprinkler fire suppression systems and may be made to industry specifications such as ASTM A53 or to proprietary specifications. These products are generally made to standard O.D. and wall thickness combinations. Pipe multi-stenciled to a standard and/or structural specification and to other specifications, such as American Petroleum Institute ("API") API-5L specification, is also covered by the scope of these investigations when it meets the physical description set forth above, and also has one or

more of the following characteristics: is 32 feet in length or less; is less than 2.0 inches (50mm) in outside diameter; has a galvanized and/or painted (e.g. polyester coated) surface finish; or has a threaded and/or coupled end finish.

The scope of these investigations does not include: (a) pipe suitable for use in boilers, superheaters, heat exchangers, refining furnaces and feedwater heaters, whether or not cold drawn; (b) finished electrical conduit; (c) finished scaffolding; (d) tube and pipe hollows for redrawing; (e) oil country tubular goods produced to API specifications; (f) line pipe produced to only API specifications; and (g) mechanical tubing, whether or not cold-drawn. However, products certified to ASTM mechanical tubing specifications are not excluded as mechanical tubing if they otherwise meet the standard sizes (e.g., outside diameter and wall thickness) of standard, structural, fence and sprinkler pipe. Also, products made to the following outside diameter and wall thickness combinations, which are recognized by the industry as typical for fence tubing, would not be excluded from the scope based solely on their being certified to ASTM mechanical tubing specifications:

```
1.315 inch O.D. and 0.035 inch wall thickness (gauge 20);

```

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing circular welded pipe (as defined above) into the United States from a foreign manufacturer or through its selling agent.

<u>Reporting of information</u>.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

I-8.	FTZ, TIB, or bonded warehousesPlease indicate whether your firm enters circular welded pipe
	into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also
	indicate whether your firm imports circular welded pipe under the TIB (temporary importation
	under bond) program.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States(HTS).

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"U.S. commercial shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5. <u>IMPORTS FROM OMAN</u>.—Report your firm's imports and your firm's shipments and inventories of circular welded pipe imported from Oman by your firm during the specified periods.

provide value data using that basis for each of the periods noted above: ______.

³ Identify your firm's principal export markets: _____.

II-33. IMPORTS FROM ALL OTHER SOURCES.—Continued

<u>RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.</u>--Generally, the data reported for the end-of-period inventories (i.e., line J) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, and H). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	Calendar years		January-March		
Reconciliation	2012	2013	2014	2014	2015
A + B - D - F - H - J = should equal zero					
("0") or provide an explanation. ¹	0	0	0	0	0

¹ Explanation if the calculated fields above are returning values other than zero (i.e., "0") but are nonetheless accurate:

<u>RECONCILIATION OF CHANNELS</u>.--Please ensure that the quantities reported for channels of distribution (i.e., lines K and L) in each time period equal the quantity reported for commercial U.S. commercial shipments (i.e., line D) in each time period. If the calculated fields below return values other than zero (i.e., "0"), the data reported must be revised prior to submission to the Commission.

Reconciliation item	2012	2013	2014	2014	2015	
K + L - D = zero ("0"), if not revise.	0	0	0	0	0	

II-34. Share of imports from All Other Sources by standard.--Please report the share of your firm's U.S. imports of circular welded pipe from all other sources in 2014 that were produced to the following specified certifications/standards.

	2014
Item	Share of Imports (percent)
Share of U.S. imports from <i>All other sources</i>	
produced to	
ASTM A53	
ASTM A135 or A795	
Other standards, proprietary or otherwise ¹	
No standards	
Total (should sum to 100.0 percent)	0.0
¹ Indicate the standard(s):	

No

II-35. Subject multi-stenciled and mechanical tubing from All other sources. -- Circular welded pipe may be multiple-stenciled to both ASTM and API specifications, such as API 5L or X-42 (for purposes of these investigations, such pipe is considered to be "circular welded pipe" if it is 32 feet in length or less; is less than 2.0 inches (50 mm) in outside diameter; has a galvanized and/or painted surface finish; or has a threaded and/or coupled end finish; see definitions in the instruction booklet.). Circular welded pipe may also be certified to ASTM mechanical tubing specifications (for purposes of these investigations, such pipe is considered to be "circular welded pipe" if it meets the standard sizes, O.D., and wall thickness of standard, structural, fence, or sprinkler pipe). Please report these imports in the following table only if they were reported to U.S. Customs under HTSUS statistical reporting numbers other than 7306.30.1000, 7306.30.5025, 7306.30.5032, 7306.30.5040, 7306.30.5055, 7306.30.5085, and 7306.30.5090.

PRICE DATA

- III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2012 of the following products your firm imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and/or Vietnam:
 - <u>Product 1</u>.—ASTM A-53 schedule 40 black plain-end, with nominal outside diameter of 2-4 inches inclusive;
 - <u>Product 2</u>.—ASTM A-53 schedule 40 galvanized plain-end, with nominal outside diameter of 2-4 inches inclusive;
 - <u>Product 3.--</u> ASTM A-53 schedule 40 black plain-end, with nominal outside diameter of 6-8 inches inclusive; and
 - **Product 4.--** Galvanized fence tube, with nominal outside diameter of 1-3/8 2-3/8 inches inclusive, and wall thickness of 0.055-0.075 inch.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2012-September 2015, did your firm import from Oman, Pakistan, the Philippines, the United Arab Emirates, and/or Vietnam and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table(s) as appropriate.
NoSkip to question III-3.

III-5. Pricing terms.--

(a) What are your firm's typical sales terms for circular welded pipe imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam?

Net 30 days	Net 60 days	2/10 net 30 days	Other	Other (specify)

(b) On what basis are your firm's prices of imported circular welded pipe from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam usually quoted (check one)?

Delivered	F.o.b.	If f.o.b., specify point

III-6. Contract versus spot.--Approximately what share of your firm's sales of circular welded pipe imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam in 2014 was on a (1) long-term contract basis, (2) annual contract basis, (3) short-term contract basis, and (4) spot sales basis?

	Type of sale					
	Long-term contracts (multiple deliveries for more than 12 months)	Annual contracts (multiple deliveries for 12 months)	Short-term contracts (multiple deliveries for less than 12 months)	Spot sales (for a single delivery)	Total (shoul sum to 100.0%	d o
Share of 2014 sales	%	%	%	%	0.0	%

III-7. <u>Contract provisions.</u>— Please fill out the table regarding your firm's typical sales contracts for circular welded pipe from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam (or check "not applicable" if your firm does not sell on a long-term, short-term and/or annual contract basis).

Typical sales contract provisions	Item	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)
Average contract duration	# of days		365	
Price renegotiation	Yes			
(during contract period)	No			
	Quantity			
Fixed quantity and/or price	Price			
, , , , , , , , , , , , , , , , , , ,	Both			
Meet or release	Yes			
provision	No			
Not applicab	le			

III-8. <u>Lead times.--</u>What is your firm's share of sales of circular welded pipe imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam from inventory and produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of circular welded pipe?

Source	Share of 2014 sales	Lead time (days)
From your firm's U.S. inventory	%	
From foreign manufacturers' inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

III-9. Shipping information. —

(a)	What is the approximate percentage of the total delivered cost of circular welded pipe imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam that is accounted for by U.S. inland transportation costs? percent.
(b)	Who generally arranges the transportation to your firm's customers' locations? Your firm Purchaser (check one)
(c)	When your firm sells circular welded pipe imported from Oman, Pakistan, Philippines, United Arab Emirates, and Vietnam, from where is it shipped? Point of importation Storage facility (check one)

(d)	Indicate the approximate percentage of your firm's sales of circular welded pipe
	imported from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam
	that are delivered the following distances from your firm's U.S. point of shipment.

Distance from your firm's U.S. point of shipment	Share
Within 100 miles	%
101 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

III-10.	Geographical shipmentsIn which U.S. geographic market area(s) has your firm sold circular
	welded pipe imported from subject countries since January 1, 2012 (check all that apply)?

Geographic area	Oman	Pakistan	Philippines	UAE	Vietnam
Northeast .–CT, ME, MA, NH, NJ, NY, PA, RI, and VT.					
Midwest.—IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.					
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.					
Central Southwest.—AR, LA, OK, and TX.					
Mountains. –AZ, CO, ID, MT, NV, NM, UT, and WY.					
Pacific Coast.–CA, OR, and WA.					
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.					

III-11. <u>End uses.</u>--List the end uses of the circular welded pipe that your firm imports from Oman, Pakistan, the Philippines, the United Arab Emirates, and Vietnam. For each end-use product, what percentage of the <u>total cost</u> is accounted for by circular welded pipe and other inputs?

	Share of total cost account	Total	
			(should sum to
End use product	Circular Welded Pipe	Other inputs	100.0% across)
	%	%	0.0 %
	%	%	0.0 %
	%	%	0.0 %

III-12.	-12. <u>Substitutes</u> Can other products be substituted for circular welded pipe?			
	No	YesPlease fill out the table.		

	End use in which this		Have changes in the price of this substit affected the price for circular welded pi		
	Substitute	substitute is used	No	Yes	Explanation
1.					
2.					
3.					

III-13.	<u>Demand trends</u> Indicate how demand within the United States and outside of the United
	States (if known) for circular welded pipe has changed since January 1, 2012. Explain any trends
	and describe the principal factors that have affected these changes in demand.

Market	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation and factors
Within the United States					
Outside the United States					

III-14.	Product changes. Have there been any significant changes in the product range, product mi	ix or
	marketing of circular welded pipe since January 1, 2012?	

No	Yes	If yes, please describe.

III-15. Conditions of competition.—

(a) Is the circular welded pipe market subject to business cycles (other than general economywide conditions) and/or other conditions of competition distinctive to circular welded pipe?

Check al	l that apply.	Please describe.
	No	Skip to question III-16.
	Yes-Business cycles (e.g. seasonal business)	
	Yes-Other distinctive conditions of competition	

U.S.	Importers'	Questionnaire -	Circular	Welded	Pipe
------	------------	-----------------	----------	--------	------

III-15. C	Conditions o	f competition	.—Continued
------------------	--------------	---------------	-------------

(b)	If yes, have there been any changes in the business cycles or conditions of competition for
	circular welded pipe since January 1, 2012?

No	Yes	If yes, describe.

III-16. <u>Supply constraints.</u>--Has your firm refused, declined, or been unable to supply circular welded pipe since January 1, 2012 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, been unable to meet timely shipment commitments, etc.)?

No	Yes	If yes, please describe.

III-17. Raw materials.-- How have circular welded pipe raw materials prices changed since January 1, 2012?

Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for circular welded pipe.

III-18. <u>Interchangeability</u>.--Is circular welded pipe produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	Oman	Pakistan	Philippines	UAE	Vietnam	Other countries
United States						
Oman						
Pakistan						
Philippines						
UAE				\times		
Vietnam					><	

For any country-pair producing circular welded pipe that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

III-19. Factors other than price.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, etc.) between circular welded pipe produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	Oman	Pakistan	Philippines	UAE	Vietnam	Other countries
United States						
Oman						
Pakistan						
Philippines						
UAE						
Vietnam					><	

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of circular welded pipe, identify the country-pair and report the advantages or disadvantages imparted by such factors:

III-20. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for circular welded pipe since January 1, 2012. Indicate the share of the quantity of your firm's total shipments of circular welded pipe that each of these customers accounted for in 2014.

III-21.	Other explanationsIf your firm would like to further explain a response to a question in Part II that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.						

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website

at: http://www.usitc.gov/investigations/701731/2015/circular_welded_carbon_qua lity_steel_pipe_oman/preliminary.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: CWP

• E-mail.—E-mail the MS Word questionnaire to Justin.enck@usitc.gov; include a scanned copy of the signed certification page (page 1). Please note that submitting your questionnaire by e-mail may subject your firm's business proprietary information to transmission over an unsecure environment and to possible disclosure. If you choose this option, the Commission warns you that any risk involving possible disclosure of such information is assumed by the submitter and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
