U.S. IMPORTERS' QUESTIONNAIRE

CERTAIN NEW PNEUMATIC OFF-THE-ROAD TIRES FROM CHINA, INDIA, AND SRI LANKA

This questionnaire must be received by the Commission by January 22, 2015

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping and countervailing duty investigations concerning certain new pneumatic off-the-road tires ("OTR tires") from China, India, and Sri Lanka (Inv. Nos. 701-TA-551-553 and 731-TA-1307-1308 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background. These proceedings were instituted in response to petitions filed on January 8, 2016, by Titan Tire Corporation of Des Moines, Iowa and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC of Pittsburgh, Pennsylvania. Antidumping and/or countervailing duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to these proceedings are available at

https://www.usitc.gov/investigations/701731/2016/certan new pneumatic off the road tires china/preliminary.htm.

<u>OTR tires</u> covered by these investigations include the following: new pneumatic tires designed for off-the-road (OTR) and off-highway use, subject to exceptions identified below. Certain OTR tires are generally designed, manufactured and offered for sale for use on off-road or off-highway surfaces, including but not limited to, agricultural fields, forests, construction sites, factory and warehouse interiors, airport tarmacs, ports and harbors, mines, quarries, gravel yards, and steel mills. The vehicles and equipment for which certain OTR tires are designed for use include, but are not limited to: (1) agricultural and forestry vehicles and equipment, including agricultural tractors, combine harvesters, agricultural high clearance sprayers, industrial tractors, log-skidders, agricultural implements, highway-towed implements, agricultural logging, and agricultural, industrial, skid-steers/mini-loaders; (2) construction vehicles and equipment, including earthmover articulated dump products, rigid frame haul trucks, front end loaders, dozers, lift trucks, straddle carriers, graders, mobile cranes, compactors; and (3) industrial vehicles and equipment, including smooth floor, industrial, mining,

¹ Agricultural tractors are dual-axle vehicles that typically are designed to pull farming equipment in the field and that may have front tires of a different size than the rear tires.

² Combine harvesters are used to harvest crops such as corn or wheat.

³ Agricultural sprayers are used to irrigate agricultural fields.

⁴ Industrial tractors are dual-axle vehicles that typically are designed to pull industrial equipment and that may have front tires of a different size than the rear tires.

⁵ A log-skidder has a grappling lift arm that is used to grasp, lift and move trees that have been cut down to a truck or trailer for transport to a mill or other destination.

⁶ Skid-steer loaders are four-wheel drive vehicles with the left-side drive wheels independent of the right-side drive wheels and lift arms that lie alongside the driver with the major pivot points behind the driver's shoulders. Skid-steer loaders are used in agricultural, construction and industrial settings.

⁷ Haul trucks, which may be either rigid frame or articulated (i.e., able to bend in the middle) are typically used in mines, quarries and construction sites to haul soil, aggregate, mined ore, or debris.

⁸ Front loaders have lift arms in front of the vehicle. They can scrape material from one location to another, carry material in their buckets, or load material into a truck or trailer.

⁹ A dozer is a large four-wheeled vehicle with a dozer blade that is used to push large quantities of soil, sand, rubble, etc., typically around construction sites. They can also be used to perform "rough grading" in road construction.

¹⁰ A straddle carrier is a rigid frame, engine-powered machine that is used to load and offload containers from container vessels and load them onto (or off of) tractor trailers.

¹¹ A grader is a vehicle with a large blade used to create a flat surface. Graders are typically used to perform "finish grading." Graders are commonly used in maintenance of unpaved roads and road construction to prepare the base course onto which asphalt or other paving material will be laid.

¹² I.e., "on-site" mobile cranes designed for off-highway use.

counterbalanced lift trucks, industrial and mining vehicles other than smooth floor, skid-steers/mini-loaders, and smooth floor off-the-road counterbalanced lift trucks.¹³ The foregoing list of vehicles and equipment generally have in common that they are used for hauling, towing, lifting, and/or loading a wide variety of equipment and materials in agricultural, construction and industrial settings. Such vehicles and equipment, and the descriptions contained in the footnotes are illustrative of the types of vehicles and equipment that use certain OTR tires, but are not necessarily all-inclusive.

While the physical characteristics of certain OTR tires will vary depending on the specific applications and conditions for which the tires are designed (e.g., tread pattern and depth), all of the tires within the scope have in common that they are designed for off-road and off-highway use. Except as discussed below, OTR tires included in the scope of the proceeding range in size (rim diameter) generally but not exclusively from 8 inches to 54 inches. The tires may be either tube-type¹⁴ or tubeless, radial or non-radial, and intended for sale either to original equipment manufacturers or the replacement market.

Certain OTR tires, whether or not attached to wheels or rims, are included in the scope. However, if a subject tire is imported attached to a wheel or rim, only the tire is covered by the scope. Subject merchandise includes certain OTR tires produced in the subject countries whether attached to wheels or rims in a subject country or in a third country.

Excluded from the scope of these investigations are any products covered by the existing antidumping and countervailing duty orders on certain OTR tires from the People's Republic of China. See Certain New Pneumatic Off-the-Road Tires From the People's Republic of China: Notice of Amended Final Affirmative Determination of Sales at Less Than Fair Value and Antidumping Duty Order, 73 Fed. Reg. 51,624 (Dep't Commerce Sept. 4, 2008); Certain New Pneumatic Off-the-Road Tires From the People's Republic of China: Countervailing Duty Order, 73 Fed. Reg. 51,627 (Dep't Commerce Sept. 4, 2008). 15

In addition, specifically excluded from the scope are new pneumatic tires designed, manufactured and offered for sale primarily for on-highway or on-road use, including passenger cars, race cars, station wagons, sport utility vehicles, minivans, mobile homes, motorcycles, bicycles, on-road or on-highway trailers, light trucks, and trucks and buses. Such tires generally have in common that the symbol "DOT" must appear on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Such excluded tires may also have the following designations that are used by the Tire and Rim Association:

¹³ A counterbalanced lift truck is a rigid framed, engine-powered machine with lift arms that has additional weight incorporated into the back of the machine to offset or counterbalance the weight of loads that it lifts so as to prevent the vehicle from overturning. An example of a counterbalanced lift truck is a counterbalanced fork lift truck. Counterbalanced lift trucks may be designed for use on smooth floor surfaces, such as a factory or warehouse, or other surfaces, such as construction sites, mines, etc.

¹⁴ While tube-type tires are subject to the scope of this proceeding, tubes and flaps are not subject merchandise and therefore are not covered by the scope of this proceeding, regardless of the manner in which they are sold (e.g., sold with or separately from subject merchandise).

¹⁵ In these prior investigations, the Department found that imports of OTR tires mounted on wheels were not within the scope of subject merchandise. *See Certain New Pneumatic Off-The-Road Tires from the People's Republic of China: Final Affirmative Determination of Sales at Less Than Fair Value and Partial Affirmative Determination of Critical Circumstances*, 73 Fed. Reg. 40,485 (Dep't Commerce July 15, 2008) and accompanying Issues and Decision Memorandum at Comment 19.

Prefix letter designations:

P--Identifies a tire intended primarily for service on passenger cars;

LT--Identifies a tire intended primarily for service on light trucks; and,

ST--Identifies a special tire for trailers in highway service.

Suffix letter designations:

TR--Identifies a tire for service on trucks, buses, and other vehicles with rims having specified rim diameter of nominal plus 0.156" or plus 0.250";

MH--Identifies tires for Mobile Homes;

HC--Identifies a heavy duty tire designated for use on "HC" 15" tapered rims used on trucks, buses, and other vehicles. This suffix is intended to differentiate among tires for light trucks, and other vehicles or other services, which use a similar designation. Example: 8R17.5 LT, 8R17.5 HC;

LT--Identifies light truck tires for service on trucks, buses, trailers, and multipurpose passenger vehicles used in nominal highway service; and

MC--Identifies tires and rims for motorcycles.

The following types of tires are also excluded from the scope: Pneumatic tires that are not new, including recycled or retreaded tires and used tires; non-pneumatic tires, including solid rubber tires; tires of a kind designed for use on aircraft, all-terrain vehicles, and vehicles for turf, lawn and garden, golf and trailer applications. Also excluded from the scope are radial and bias tires of a kind designed for use in mining and construction vehicles and equipment that have a rim diameter equal to or exceeding 39 inches. Such tires may be distinguished from other tires of similar size by the number of plies that the construction and mining tires contain (minimum of 16) and the weight of such tires (minimum 1500 pounds).

The subject merchandise is currently imported under Harmonized Tariff Schedule of the United States ("HTSUS") statistical reporting numbers: 4011.20.1025, 4011.20.1035, 4011.20.5030, 4011.20.5050, 4011.61.00.00, 4011.62.00.00, 4011.63.00.00, 4011.69.00.50, 4011.92.00.00, 4011.93.40.00, 4011.93.8000, 4011.94.4000, 4011.94.8000, 8431.49.9038, 8431.49.9090, 8709.90.0020, and 8716.90.1020. Tires meeting the scope description may also be imported under the following HTSUS provisions: 4011.99.4550, 4011.99.8550, 8424.90.9080, 8431.20.0000, 8431.39.0010, 8431.49.1090, 8431.49.9030, 8432.90.0005, 8432.90.0015, 8432.90.0030, 8432.90.0080, 8433.90.5010, 8503.00.9560, 8708.70.0500, 8708.70.2500, 8708.70.4530, and 8716.90.5035. While HTSUS provisions are provided for convenience and customs purposes, the written description of the subject merchandise is dispositive.

Unmounted OTR tires. -- OTR tires that are not attached to wheels or rims.

Mounted OTR tires. – OTR tires that are attached to wheels or rims.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing OTR tires (as defined above) into the United States from a foreign manufacturer or through its selling agent.

<u>Reporting of information</u>.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

I-1.	OMB statisticsPlease report below the actual number of hours required and the cost to your
	firm of completing this questionnaire.

Hours	Dollars		

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-2.	Establishments covered Provide the name and address of establishment(s) covered by this
	questionnaire. If your firm is publicly traded, please specify the stock exchange and trading

I-8. FTZ, TIB, or bonded warehouses.--Please indicate whether your firm enters OTR tires into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports OTR tires under the TIB (temporary importation under bond) program.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States(HTS).

II-4.	Reasons for importing if producerIf your firm also produces OTR tires in the United States,
	please indicate the reasons for importing this product. If your firm's reasons differ by source,
	please elaborate.

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"U.S. commercial shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

"Export shipments"— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5. <u>Imports from China</u>.—Report your firm's imports and your firm's shipments and inventories of OTR tires produced in China during the specified periods. Include all unmounted tires, including tires imported with kits, but do not include value data for the kit itself, only the tire.

<u>RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.</u>--Generally, the data reported for the end-of-period inventories (i.e., line J) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, and H). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	Calendar years			January-	September

PRICE DATA

III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2012 of the following products your firm imported from China, India, and/or Sri Lanka:

Irrigation pivot tire, size 11.2-38, ply rating of 6, weight from 90 to 125 lbs., rim width 10 inches.

- <u>Product 1.--</u> Irrigation pivot tire, size 11.2-38, ply rating of 6, weight from 90 to 125 lbs., rim width 10 inches, *unmounted*, *tire only*.
- <u>Product 2</u>.-- Irrigation pivot tire, size 11.2-38, ply rating of 6, weight from 90 to 125 lbs., rim width 10 inches, sold as part of a kit.
- <u>Product 3.--</u> Irrigation pivot tire, size 11.2-38, ply rating of 6, weight from 90 to 125 lbs., rim width 10 inches, wheel-mounted tire.

Rear farm tire, size 9.5-24, ply rating of 6, weight from 48 to 58 lbs., rim width 8 inches.

- <u>Product 4.--</u> Rear farm tire, size 9.5-24, ply rating of 6, weight from 48 to 58 lbs., rim width 8 inches, *unmounted*, *tire only*.
- <u>Product 5.--</u> Rear farm tire, size 9.5-24, ply rating of 6, weight from 48 to 58 lbs., rim width 8 inches, sold as part of a kit.
- <u>Product 6.--</u> Rear farm tire, size 9.5-24, ply rating of 6, weight from 48 to 58 lbs., rim width 8 inches, wheel-mounted tire.

Front farm tire, size 9.5L-15, ply rating of 8, weight from 25 to 32 lbs., rim width 8 inches.

- <u>Product 7.--</u> Front farm tire, size 9.5L-15, ply rating of 8, weight from 25 to 32 lbs., rim width 8 inches, *unmounted*, *tire only*.
- <u>Product 8.--</u> Front farm tire, size 9.5L-15, ply rating of 8, weight from 25 to 32 lbs., rim width 8 inches, sold as part of a kit.
- <u>Product 9.--</u> Front farm tire, size 9.5L-15, ply rating of 8, weight from 25 to 32 lbs., rim width 8 inches, wheel-mounted tire.

Skid steer tire, size 10-16.5, ply rating of 10, weight from 55 to 85 lbs., rim width 8.25 inches.

- <u>Product 10.--</u> Skid steer tire, size 10-16.5, ply rating of 10, weight from 55 to 85 lbs., rim width 8.25 inches, *unmounted, tire only*.
- <u>Product 11.--</u> Skid steer tire, size 10-16.5, ply rating of 10, weight from 55 to 85 lbs., rim width 8.25 inches, sold as part of a kit.
- <u>Product 12.--</u> Skid steer tire, size 10-16.5, ply rating of 10, weight from 55 to 85 lbs., rim width 8.25 inches, wheel-mounted tire.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2012-September 2015, did your firm import from China, India, and/or Sri Lanka and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data tables as appropriate.
NoSkip to question III-3.

III-2a. Price data for China. --Report below the quarterly price data for pricing products imported from China and sold by your firm. For values, only report the value of the tire. Do not include the value of the kit or wheel on which the tire has been mounted. Please identify tire country(ies)-of-origin in each product's respective footnote.

China

III-3.	Cost sl	Cost share of tires in kits or wheel-mounted tires							
	(a)	Question III-2 above requested price data for only tires (whether sold individually, as part of a kit or as a wheel-mounted tire). Below, please provide the estimated share that the tire normally accounts for in the sales price of kits and/or wheel-mounted tires in 2015.							
				Tv	/pe		Percent of total paccounted for by the (percent)		
		Kits			1 -		(positiv)	%	
		Whee	l-mounted	tires				%	
	(b) Does the share of total price of kits or wheel-mounted tires attributable to only to vary by year or by how the tire is sold (unmounted tire only, as part of a kit, or as wheel-mounted tire)?								
			No	Yes		If yes, plea	se describe.		
	By ye	ar							
	By tir	e type							
III-4.	II-4. Price setting How does your firm determine the prices that it charges for sales of OTR tires (check all that apply)? If your firm issues price lists, please submit sample pages of a recent list.								
		saction by saction	Contracts	Set price lists	Other	If ot	her, describe		

III-5.	Discount policy Please indicate and describe your firm's discount policies (check all that
	apply).

Quantity discounts	Annual total volume discounts	No discount policy	Other	Describe

If your responses to the following questions (III-6 to III-11) differ in respect to the individual subject countries (China, India, and Sri Lanka), please indicate so in the narrative space in III-21. Other explanations.

III-6. Pricing terms.--

(a) What are your firm's typical sales terms for OTR tires imported from China, India, and/or Sri Lanka?

Net 30 days	Net 60 days	2/10 net 30 days	Other	Other (specify)

(b) On what basis are your firm's prices of imported OTR tires from China, India, and/or Sri Lanka usually quoted (check one)?

Delivered	F.o.b.	If f.o.b., specify point

III-7. Contract versus spot.--Approximately what share of your firm's sales of OTR tires imported from China, India, and/or Sri Lanka in 2015 was on a (1) long-term contract basis, (2) annual contract basis, (3) short-term contract basis, and (4) spot sales basis?

	Type of sale					
	Long-term contracts (multiple deliveries for more than 12 months)	Annual contracts (multiple deliveries for 12 months)	Short-term contracts (multiple deliveries for less than 12 months)	Spot sales (for a single delivery)	Total (should sum to 100.0%)	
Share of 2015 sales	%	%	%	%	0.0	%

III-7. <u>Contract provisions.</u>— Please fill out the table regarding your firm's typical sales contracts for OTR tires from China, India, and/or Sri Lanka (or check "not applicable" if your firm does not sell on a long-term, short-term and/or annual contract basis).

Typical sales contract provisions	Item	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)
Average contract No. of days			365	
Price renegotiation	Yes			
(during contract period)	No			
	Quantity			
Fixed quantity and/or price	Price			
,.	Both			
Meet or release	Yes			
provision	No			
Not applicab	le			

III-8. <u>Lead times.--</u>What is your firm's share of sales of OTR tires imported from China, India, and/or Sri Lanka from inventory and produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of OTR tires?

Source	Share of 2015 sales	Lead time (average number of days)
From your firm's U.S. inventory	%	
From foreign manufacturers' inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

U.S. Importers' Questionnaire – **OTR tires**

III-9.

Shipp	ing information.—							
(a)	What is the approximate percentage of the total delivered cost of OTR tires imported from China, India, and/or Sri Lanka that is accounted for by U.S. inland transportation costs? percent.							
(b)	Who generally arranges the transportation to your firm's customers' locations? Your firm Purchaser (check one)							
(c)	When your firm sells OTR tires imported from China, Ir is it shipped? Point of importation Storage facility (check one)		Lanka, from where					
(d)	Indicate the approximate percentage of your firm's sales of OTR tires imported from China, India, and/or Sri Lanka that are delivered the following distances from your firm's U.S. point of shipment.							
	Distance from your firm's U.S. point of shipment	Share						
	Within 100 miles	%						
	101 to 1,000 miles	%						
	Over 1,000 miles	%						
	Total (should sum to 100.0%)	0.0 %	1					
			_					

III-10. <u>Geographical shipments.</u>--In which U.S. geographic market area(s) has your firm sold OTR tires imported from subject countries since January 1, 2012 (check all that apply)?

Geographic area	China	India	Sri Lanka
NortheastCT, ME, MA, NH, NJ, NY, PA, RI, and VT.			
Midwest.–IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.			
Southeast.—AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.			
Central Southwest.–AR, LA, OK, and TX.			
Mountains.–AZ, CO, ID, MT, NV, NM, UT, and WY.			
Pacific Coast.–CA, OR, and WA.			
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.			

III-11. <u>End uses.</u>--List the end uses of the OTR tires that your firm imports from China, India, and/or Sri Lanka. For each end-use product, what percentage of the <u>total cost</u> is accounted for by OTR tires and other inputs?

	Share of total cost	Total	
End use product			(should sum to 100.0% across)
	%	%	0.0 %
	%	%	0.0 %
	%	%	0.0 %

III-12.	12. <u>Substitutes</u> Can other products be substituted for OTR tires?						
	☐ No	No YesPlease fill out the table.					
		End use in which this	Н		nanges in the price of this substitute fected the price for OTR tires?		
	Substitute substitute is used		No	Yes	Explanation		
1.							
2.							
3.							

III-13.	Demand trends Indicate how demand within the United States and outside of the United
	States (if known) for OTR tires has changed since January 1, 2012. Explain any trends and
	describe the principal factors that have affected these changes in demand.

Market	Туре	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation and factors
Within	Tires only					
the United	Kits					
States	Wheel-mounted tires					
Outside	Tires only					
the United	Kits					
States	Wheel-mounted tires					

III-14. **Product changes.**—Have there been any significant changes in the product range, product mix or marketing of OTR tires since January 1, 2012?

No	Yes	If yes, please describe.

ditions of	competition.—
	ditions of

(a)	Is the OTR tires market subject to business cycles (other than general economy-wide
	conditions) and/or other conditions of competition distinctive to OTR tires?

Check all that apply.		Please describe.
	No	Skip to question III-16.
	Yes-Business cycles (e.g. seasonal business)	
	Yes-Other distinctive conditions of competition	

(b) If yes, have there been any changes in the business cycles or conditions of competition for OTR tires since January 1, 2012?

No	Yes	If yes, describe.

III-16. <u>Supply constraints</u>.--Has your firm refused, declined, or been unable to supply OTR tires since January 1, 2012 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, been unable to meet timely shipment commitments, etc.)?

No	Yes	If yes, please describe.

III-17. Raw materials.-- How have raw materials prices for tires and wheel-mounted tires changed since January 1, 2012?

Туре	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for OTR tires.
Tires only					
Wheel-mounted tires					

III-18. <u>Interchangeability.--</u>Are OTR tires produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = no familiarity with products from a specified country-pair

II-21.	Other explanationsIf your firm would like to further explain a response to a question in Part III that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/701731/2016/certan_new_pneumatic_off_the_ro_ad_tires_china/preliminary.htm.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: OTR2

• E-mail.—E-mail the MS Word questionnaire to mgs@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
