# FOREIGN PRODUCERS'/EXPORTERS' QUESTIONNAIRE

### **CERTAIN TISSUE PAPER PRODUCTS FROM CHINA**

This questionnaire must be received by the Commission by March 8, 2016

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its review of the antidumping duty order concerning certain tissue paper products ("tissue paper") from China (Inv. No. 731-TA-1070B (Second Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII.

#### PART I.--GENERAL INFORMATION

<u>Background.</u> On March 30, 2005, the Department of Commerce issued an antidumping duty order on imports of tissue paper from China. On June 1, 2015, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make an affirmative determination, the order will remain in place. If either the Commission or Commerce makes a negative determination, the Department of Commerce will revoke the order. Questionnaires and other information pertinent to this proceeding are available at

http://wwwadmin.usitc.gov/investigations/701731/2015/certain\_tissue\_paper\_products\_china/second\_review\_full.htm

<u>Tissue paper</u> products covered by the Order are cut-to-length sheets of tissue paper having a basis weight not exceeding 29 grams per square meter. Tissue paper products subject to this order may or may not be bleached, dye-colored, surface-colored, glazed, surface decorated or printed, sequined, crinkled, embossed, and/or die cut. The tissue paper subject to this order is in the form of cut-to-length sheets of tissue paper with a width equal to or greater than one-half (0.5) inch. Subject tissue paper may be flat or folded, and may be packaged by banding or wrapping with paper or film, by placing in plastic or film bags, and/or by placing in boxes for distribution and use by the ultimate consumer. Packages of tissue paper subject to this order may consist solely of tissue paper of one color and/or style, or may contain multiple colors and/or styles.

Excluded from the scope of this order are the following tissue paper products: (1) tissue paper products that are coated in wax, paraffin, or polymers, of a kind used in floral and food service applications; (2) tissue paper products that have been perforated, embossed, or die-cut to the shape of a toilet seat, i.e., disposable sanitary covers for toilet seats; and (3) toilet or facial tissue stock towel or napkin stock, paper of a kind used for household or sanitary purposes, cellulose wadding, and webs of cellulose fibers (HTSUS 4803.00.20.00 and 4803.00.40.00).

Subject tissue paper includes both bulk and consumer tissue paper products defined as follow:

<u>Bulk tissue paper</u> is not resold, but is used to wrap or package the purchaser's customers' purchases, as dunnage, filler, interleaving, etc., and is incidental to the purchase of another item. Bulk tissue is generally sold by ream (480-500 sheets) but may also be sold in half-ream or multiple-ream quantities or by weight. It is generally sold flat or quire-folded packaged in sealed polybags and/or corrugated boxes. Bulk tissue paper is generally plain white or solid color but may be printed with various designs.

<sup>&</sup>lt;sup>1</sup> On January 30, 2007, at the direction of CBP, the Department added the following HTSUS classifications to the AD/CVD module for tissue paper: 4802.54.3100, 4802.54.6100, and 4823.90.6700. However, we note that the six digit classifications for these numbers were already listed in the scope.

<u>Consumer tissue paper</u> is sold to purchasers in packaged form and ready for resale to their customers, the final end users. Consumer tissue is usually sold folded (tissue folds) in various formats and sheet counts (5-400 sheets). Consumer tissue paper is generally plain white or solid color but may be printed with various designs and may also include specialty tissue paper such as handmade, die-cut, hot-stamped, or spot-glitter tissue paper. Club packs are consumer tissue that are sold either flat or folded usually in quantities of 100-400 sheets.

<u>Reporting of information</u>.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information**.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

	firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 30 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

<u>Trade data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of **bulk tissue paper** and **consumer tissue paper** in your establishment(s) in China during the specified periods in tables II-14 and II-15.

<u>Do not submit data by manufacturing facility if they are in the same country.</u> If your firm has multiple manufacturing establishments within one country, you are required to combine data for those establishments within one foreign producer questionnaire response.

<u>Do not submit data on multiple countries combined</u>. The establishments reported here should all be located in the country of the firm's address reported on the certification page. Multinational companies with production in multiple subject countries should submit separate foreign producer questionnaire responses for each subject country.

"Average production capacity" or "capacity" –The level of production that your establishment(s) could reasonably have expected to attain during the specified periods for all products manufactured in that establishment using the same manufacturing equipment. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" -- All production in your establishment(s) in China, including production consumed internally within your firm.

"Shipments" -- Shipments of products produced in your establishment(s) in China. Quantities reported should be net of returns. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment in China.

"Home market commercial shipments" -- Shipments, other than internal consumption and transfers to related firms, within China.

"Home market internal consumption/transfers to related firms" -- Shipments made to related firms in China, including product consumed internally by your firm.

**"Export shipments"**--Shipments to destinations outside China, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

### II-14. Trade data for bulk tissue paper.

"Bulk tissue paper" – is sold to retailers for their own use and not for resale to consumers. Bulk tissue is generally sold by ream (480-500 sheets) but may also be sold in half-ream or multiple-ream quantities or by weight. It is generally sold flat or quire-folded packaged in sealed polybags and/or corrugated boxes. Bulk tissue paper is generally plain white or solid color but may be printed with various designs.
