GENERAL INFORMATION

Background.-- This proceeding was instituted in response to a petition filed on March 31, 2016, by Compass Chemical International LLC, Smyrna, GA. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and dumping. U.S. producers of HEDP have provided the USITC with allegations about sales or revenue that they have lost due to competition from imports of HEDP from China. One or more domestic producer(s) have named your firm in such an allegation.

HEDP covered by these investigations include all grades of aqueous, acidic (non-neutralized) concentrations of 1-hydroxyethylidene-1, 1-diphosphonic acid ("HEDP"), also referred to as hydroxyethylidenediphosphonic acid, hydroxyethanediphosphonic acid, acetodiphosphonic acid, and etidronic acid. The CAS (Chemical Abstract Service) registry number for HEDP is 2809-21-4.

The merchandise subject to this investigation is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) at subheading 2931.90.9043. It may also enter under other HTSUS subheadings, including but not limited to subheadings 2811.19.6090 and 2931.90.9041. While HTSUS subheadings are provided for convenience and customs purposes only, the written description of the scope of this investigation is dispositive.
