U.S. PRODUCERS' QUESTIONNAIRE

SEAMLESS REFINED COPPER PIPE AND TUBE FROM CHINA AND MEXICO

This questionnaire must be received by the Commission by August 11, 2016

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its review of the antidumping duty orders concerning seamless refined copper pipe and tube ("SRC pipe and tube") from China and Mexico (Inv. Nos. 731-TA-1174-1175 (Review)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background. On November 22, 2010, the Department of Commerce issued antidumping duty orders on imports of SRC pipe and tube from China and Mexico. On October 1, 2015, the Commission instituted reviews pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make affirmative determinations, the orders will remain in place. If either the Commission or Commerce makes a negative determination(s), the Department of Commerce will revoke the order(s). Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/reviews/701731/2015/seamless refined copper pipe and tube china and/first review full.htm.

SRC pipe and tube covered by these reviews is "all seamless circular refined copper pipes and tubes, including redraw hollows, greater than or equal to 6 inches (152.4 mm) in length and measuring less than 12.130 inches (308.102 mm) (actual) in outside diameter ("OD"), regardless of wall thickness, bore (e.g., smooth, enhanced with inner grooves or ridges), manufacturing process (e.g., hot finished, cold-drawn, annealed), outer surface (e.g., plain or enhanced with grooves, ridges, fins, gills), end finish (e.g., plain end, swaged end, flared end, expanded end, crimped end, threaded), coating (e.g., plastic, paint), insulation, attachments (e.g., plain, capped, plugged, with compression or other fitting), or physical configuration (e.g., straight, coiled, bent, wound on spools).

The scope of these reviews covers, but is not limited to, seamless refined copper pipe and tube produced or comparable to the American Society for Testing and Materials ("ASTM") ASTM-B42, ASTM-B68, ASTM-B75, ASTM-B88, ASTM-B88M, ASTM-B188, ASTM-B251, ASTM-B251M, ASTM-B280, ASTM-B302, ASTM-B306, ASTM-B743, ASTM-B819, and ASTM-B903 specifications and meeting the physical parameters described therein. Also included within the scope are all sets of covered products, including "line sets" of seamless refined copper tubes (with or without fittings or insulation) suitable for connecting an outdoor air conditioner or heat pump to an indoor evaporator unit. The phrase "all sets of covered products" denotes any combination of items put up for sale that is comprised of merchandise subject to the scope.

"Refined copper" is defined as: (1) metal containing at least 99.85 percent by weight of copper; or (2) metal containing at least 97.5 percent by weight of copper, provided that the content by weight of any other element does not exceed the following limits:

ELEMENT	LIMITING CONTENT PERCENT BY WEIGHT
Ag – Silver	0.25
As – Arsenic	0.5
Cd – Cadmium	1.3
Cr – Chromium	1.4
Mg – Magnesium	0.8
Pb – Lead	1.5
S – Sulfur	0.7
Sn – Tin	0.8
Te – Tellurium	0.8
Zn – Zinc	1.0
Zr – Zirconium	0.3
Other elements (each)	0.3

Excluded from the scope of these orders are all seamless circular hollows of refined copper less than 12 inches in length whose OD (actual) exceeds its length. The products subject to these orders are currently classifiable under subheadings 7411.10.1030 and 7411.10.1090 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Products subject to these reviews may also enter under HTSUS subheadings 7407.10.1500, 7419.99.5050, 8415.90.8065, and 8415.90.8085. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these orders is dispositive."

Reporting of information.-- If information is not readily available from your records in exactly the form requested, furnish carefully prepared estimates. If your firm is completing more than one questionnaire in connection with this proceeding (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions in the questionnaires.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all of your files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

I-1. <u>OMB statistics</u>.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars			

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Reviews, USITC, 500 E St. SW, Washington, DC 20436.

I-2. <u>Establishments covered</u>.--Provide the city, state, zip code, and brief description of each establishment covered by this questionnaire. If your firm is publicly traded, please specify the stock exchange and trading symbol in the footnote to the table. Firms operating more than one establishment should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of SRC pipe and tube, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Lawrence Jones (202-205-3358, lawrence.jones@usitc.gov). Supply all data requested on a calendar-year basis.

II-1.	Contact information Please identify the responsible individual and the manner by which				
	Commission staff may contact that individual regarding the confidential information submitted				
	in part II.				

Name	
Title	
Email	
Telephone	
Fax	

II-2. <u>Changes in operations.</u>—Please indicate whether your firm has experienced any of the following changes in relation to the production of SRC pipe and tube since January 1, 2010.

Checi	k as many as appropriate.	If checked, please describe; leave blank if not applicable.
	Plant openings	
	Plant closings	
	Relocations	
	Expansions	
	Acquisitions	
	Consolidations	
	Prolonged shutdowns or production curtailments	
	Revised labor agreements	
	Other (e.g., technology)	

I-3.	Anticipated changes in operationsDoes your firm anticipate any changes in the character of your firm's operations or organization (as noted above) relating to the production of SRC pipe and tube in the future?				
	□ No	YesSupply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue. Include in your response a specific projection of your firm's capacity to produce SRC pipe and tube (in 1,000 pounds) for 2016 and 2017.			
-		our firm's response differs for particular orders, please indicate and explain the evocation of specific orders.			
I-4.	anticipate a above) relat	hanges in operations in the event the orders are revokedWould your firm y changes in the character of your firm's operations or organization (as noted noted to the production of SRC pipe and tube in the future if the antidumping duty pipe and tube from China and/or Mexico were to be revoked?			
	□ No	Yes Supply details as to the time, nature, and significance of such changes and provide underlying assumptions, along with relevant portions of business plans or other supporting documentation that address this issue. Include in your response a specific projection of your firm's capacity to produce SRC pipe and tube (in 1,000 pounds) for 2016			
		and 2017.			

II-5a. **Production using same machinery.--** Please report your firm's production of products made on the same equipment and machinery used to produce SRC pipe and tube, and the combined production capacity on this shared equipment and machinery in the periods indicated.

"Overall production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

¹ Data entered for production of SRC pipe and tube will populate here once reported in question II-6. ² Please identify these products: _____.

II-5b.	Operating parametersThe production capacity reported in II-3a is based on operating hou per week, weeks per year.	rs
II-5c.	<u>Capacity calculation</u> Please describe the methodology used to calculate overall production capacity reported in II-5a, and explain any changes in reported capacity.	
II-5d.	<u>Production constraints</u> Please describe the constraint(s) that set the limit(s) on your firm's production capacity.	

II-5e.	Product shifting Is your firm able to switch production (capacity) between SRC pipe and tube are other products using the same equipment and/or labor?							
	☐ No	Yes (i.e., have produced other products or are able to produce other products). Please identify other actual or potential products:						
II-5f.	production capacity	torsPlease describe the factors that affect your firm's ability to shift between products (e.g., time, cost, relative price change, etc.), and the degree ors enhance or constrain such shifts.						

II-6. <u>Production, shipment and inventory data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of SRC pipe and tube in its U.S. establishment(s) during the specified periods.

"Average production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"U.S. commercial shipments" –Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" –A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

<u>RECONCILIATION OF END USES</u>.--Please ensure that the quantities reported for end use applications by quantity (i.e., lines O, Q, and S) and value (i.e., lines P, R, and T) equal the quantity reported for commercial U.S. commercial shipment quantity (i.e., line D) and value (i.e., line E) in 2015. If the calculated fields below return values other than zero (i.e., "0"), the data reported must be revised prior to submission to the Commission.

Reconciliation item	Calendar year 2015
Quantity reconciliation : O + Q + S – D = zero ("0"), or revise	0
Value reconciliation : P + R + T – E = zero ("0"), or revise	0

Explanation of trends:

II-8. <u>Employment data</u>.--Report your firm's employment-related data related to the production of SRC pipe and tube and provide an explanation for any trends in these data.

"Production Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to June periods, calculate similarly and divide by 6.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

			January-June

III-8. Inputs from related suppliers at cost.--Please confirm that the inputs purchased from related suppliers, as identified in III-7, were reported in III-9a (financial results on SRC pipe and tube) in a manner consistent with the firm's accounting books and records.

Yes

No--In the space below, please report the valuation basis of inputs purchased from related suppliers as reported in table III-9a.

III-9a. Operations on SRC pipe and tube.--Report the revenue and related cost information requested below on the SRC pipe and tube operations of your firm's U.S. establishment(s). Do not report resales of products. Note that internal consumption and transfers to related firms must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for your firm's six most recently completed fiscal years, and for the specified interim periods. If your firm was involved in tolling operations (either as the toller or as the tollee), please contact Jennifer Brinckhaus at (202) 205-3188 before completing this section of the questionnaire.

³ COGS (whether for domestic or export sales) should include <u>costs associated with CS, IC, and Transfers</u>.

II-9b.	quantities and values have been calculate return the correct	nciliationThe calculable line items from question III-9a (i.e., total net sales ues, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) and from the data submitted in the other line items. Do the calculated fields data according to your firm's financial records ignoring non-material ay arise due to rounding?
	Yes No-	If the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise.
		Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (<i>i.e.</i> , expenses are positive and incomes or reversals are negativeinstances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (<i>i.e.</i> , income is positive, expenses or reversals are negative).
		If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-10. Nonrecurring items (charges and gains) included in the subject product financial results.--For each annual and interim period for which financial results are reported in question III-9a, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific table III-9a line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (in \$1,000), as reflected in table III-9a; i.e., if an aggregate nonrecurring item has been allocated to table III-9a, only the allocated value amount included in table III-9a should be reported in the schedule below. Note: The Commission's objective here is to gather information only on material (significant) nonrecurring items which impacted the reported financial results of the subject product in table III-9a.

		Fiscal years ended					January-June	
	2010	2011	2012	2013	2014	2015	2015	2016

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and
	records of the companyIf non-recurring items were reported in table III-10 above, please
	identify where your company recorded these items in your accounting books and records in the normal course of business; i.e., just as responses to question III-10 identify where these items are reported in table III-9a.

III-12. <u>Asset values</u>.--Report the <u>total</u> assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of SRC pipe and tube. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for SRC pipe and tube in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in table III-9a. Provide data as of the end of your firm's six most recently completed fiscal years.

Note: Total assets should reflect <u>net assets</u> after any accumulated depreciation and allowances deducted.

Total assets should be <u>allocated to the subject products</u> if these assets are also related to other products. Please provide a <u>brief explanation if there are any substantial changes</u> in total asset value during the period; e.g., due to asset write-offs, revaluation, and major purchases.

PRICE DATA

- IV-2. IV-2. This section requests quarterly quantity and value data, f.o.b. your U.S. point of shipment, for your commercial shipments to unrelated U.S. customers during January 2007–June 2010 of the following products produced by your firm.
 - Product 1.-- Seamless refined copper pipe and tube, 1/2" Type L, hard temper, 20' lengths
 - Product 2.-- Seamless refined copper pipe and tube, 3/8" OD, ACR/RST coil, 50'-100' lengths
 - Product 3.-- Seamless refined copper pipe and tube, 3/4" OD, ACR/RST coil, 50'-100' lengths
 - <u>Product 4.--</u> Seamless refined copper pipe and tube, 3/8" OD, smooth bore LWC, 0.0249"-0.0327" bottom wall thickness
 - **Product 5.--** Seamless refined copper pipe and tube, 3/4" OD, smooth bore LWC, 0.0327"-0.0430" bottom wall thickness
 - **Product 6.--** Seamless refined copper pipe and tube, 3/8" OD, inner-grooved LWC, 0.0110"-0.0144" bottom wall thickness

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

(a)	During January 2010 - June 2016, did your firm produce and sell to unrelated U.S. customers
	any of the above listed products (or any products that were competitive with these
	products)?

YesPlease complete the following pricing data table(s) as appropriate.
NoSkip to question IV-3.

IV-2(b). <u>Price data: Plumbing</u>.--Report below the quarterly price data¹ for pricing products² produced and sold by your firm for use in plumbing applications.

IV-22.	Barriers to tradeAre your firm's exports of SRC pipe and tube subject to any tariff or non-tarif
	barriers to trade in other countries?

No	Yes	If yes, please list the countries and describe any such barriers and any significant changes in such barriers that have occurred since January 1, 2010, or that are expected to occur in the future.

IV-23. <u>Interchangeability.</u>--Is SRC pipe and tube produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)? Please indicate A, F, S, N, or 0 in the table below:

A = the products from a specified country-pair are *always* interchangeable

F = the products are *frequently* interchangeable

S = the products are *sometimes* interchangeable

N = the products are *never* interchangeable

0 = no familiarity with products from a specified country-pair

Country-pair	China	Mexico	Other countries

Mexico			
	e, identify the count	• •	is sometimes or never he factors that limit or preclude

IV-24. <u>Factors other than price</u>.--Are differences other than price (*e.g.*, quality, availability, transportation network, product range, technical support, *etc.*) between SRC pipe and tube produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	China	Mexico	Other countries
United States			
China			
Mexico			

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of SRC pipe and tube, identify the country-pair and report the advantages or disadvantages imparted by such factors:

IV-25.	Other explanationsIf your firm would like to further explain a response to a question in Part
	IV that did not provide a narrative response box, please note the question number and the
	explanation in the space provided below. Please also use this space to highlight any issues your
	firm had in providing the data in this section, including but not limited to technical issues with
	the MS Word guestionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/secretary/fed reg notices/meetings/documents/sunset us producer questionnaire.pdf

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: SRCP

• E-mail.—E-mail the MS Word questionnaire to lawrence.jones@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm <u>does not </u>**produce this product**, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

<u>Parties to this proceeding</u>.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
