PART I.—GENERAL INFORMATION

Background.-- The Department of Commerce issued antidumping duty orders on imports of “heavy” and “light” iron construction castings from Canada on March 5, 1986 and from Brazil and China on May 9, 1986. On May 15, 1986, Commerce issued a countervailing duty order on imports of “heavy” iron construction castings from Brazil. On September 23, 1998, Commerce issued the final results of a changed circumstance review concerning iron construction castings from Canada, in which the antidumping duty order with respect to “light” castings was revoked. On October 1, 2015, the Commission instituted a review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. § 1675(c)) (the Act) to determine whether revocation of the orders would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. If both the Commission and Commerce make affirmative determinations, the orders will remain in place. If either the Commission or Commerce makes negative determinations, the Department of Commerce will revoke the orders. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2015/iron_construction_castings_brazil_canada_and_china/fourth_review_full.htm

Iron construction castings covered by these reviews consist of heavy castings and light castings.

Heavy castings -- manhole covers, rings, and frames, catch basin grates and frames, cleanout covers and frames used for drainage or access purposes for public utility, water and sanitary systems, collectively imported under Harmonized Tariff Schedule (HTS) statistical reporting number 7325.10.0010 until 1999. Starting in 2000, heavy castings were imported under the following statistical reporting numbers: 7325.10.0010, 7325.10.0020, and 7325.10.0025. Heavy castings may also be imported under HTS statistical reporting number 7325.10.0080 as “other.” Heavy castings from Brazil are subject to both antidumping and countervailing duty orders. Heavy castings from Canada and China are subject to antidumping duty orders.

Light castings -- valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water and gas meters. These types of light castings were imported under HTS statistical reporting number 7325.10.0050 until 1999. Starting in 2000, these light castings were imported under the following two reporting numbers: 7325.10.0030 and 7325.10.0035. Light castings may also be imported under HTS statistical reporting number 7325.10.0080 as “other.” Light castings from Brazil and China are subject to antidumping duty orders.
