PART I.—GENERAL INFORMATION

This proceeding was instituted in response to a petition filed on January 20, 2016, by Auburn Manufacturing, Inc., Mechanic Falls, Maine. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2016/certain_amorphous_silica_fabric_china/final.htm.

ASF covered by these investigations is woven, industrial grade amorphous silica fabric (“ASF”), which contains a minimum of 90 percent silica (SiO₂) by nominal weight, and a nominal width in excess of 8 inches. The petition covers industrial grade ASF regardless of other materials contained in the fabric, regardless of whether in roll form or cut-to-length, regardless of weight, width (except for ASF tape, as discussed below), or length. The petition covers industrial grade ASF regardless of whether the product is approved by a standards testing body (such as being Factory Mutual (“FM”) Approved), or regardless of whether it meets any governmental specification.

Industrial grade ASF may be produced in various colors. The petition covers industrial grade ASF regardless of whether the fabric is colored. Industrial grade ASF may be coated or treated with materials that include, but are not limited to, oils, vermiculite, acrylic latex compound, silicone, aluminized polyester (Mylar®) film, pressure-sensitive adhesive, or other coatings and treatments. The petition covers industrial grade ASF regardless of whether the fabric is coated or treated. Industrial grade ASF may be heat-cleaned. The petition covers industrial grade ASF regardless of whether the fabric is heat-cleaned.

Industrial grade ASF may be imported in rolls or may be cut-to-length and then further fabricated to make welding curtains, welding blankets, welding pads, fire blankets, fire pads, or fire screens. Regardless of the name, all industrial grade ASF that has been further cut-to-length or cut-to-width or further finished by finishing the edges and/or adding grommets, is included within the scope of these petitions.

Subject merchandise also includes (1) any industrial grade ASF that has been converted into industrial grade ASF in China from fiberglass cloth produced in a third country; and (2) ASF that has been further processed in a third country, including but not limited to treating, coating, slitting, cutting to length, cutting to width, finishing the edges, adding grommets, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the in-scope industrial grade ASF.

Excluded from the scope of the petitions is ASF that is subjected to controlled shrinkage, which is also called “pre-shrunk” or “aerospace grade” ASF. In order to be excluded as a pre-shrunk or aerospace grade ASF, the ASF must meet the following exclusion criteria: (1) the ASF must contain a minimum of 98 percent silica (SiO₂) by nominal weight; (2) the ASF must have an areal shrinkage of 4 percent or less; (3) the ASF must contain no coatings or treatments; and (4) the ASF must be white in color. For purposes of this scope, “areal shrinkage” refers to the extent to which a specimen of ASF shrinks while subjected to heating at 1800 degrees F for 30 minutes.

Also excluded from the scope are ASF rope and tubing (or sleeving). ASF rope is a knitted or braided product made from amorphous silica yarns. Silica tubing (or sleeving) is braided into a hollow sleeve from amorphous silica yarns.

The subject imports are normally imported under statistical reporting numbers 7019.59.4021, 7019.59.4096, 7019.59.9021, and 7019.59.9096 of the Harmonized Tariff Schedule of the United States (“HTSUS”), but may also enter under HTSUS items 7019.90.1000 or 7019.90.5050. HTSUS provisions are

provided for convenience and customs purposes only; the written description of the scope of these investigations is dispositive.
