U.S. IMPORTERS' QUESTIONNAIRE

PHOSPHPOR COPPER FROM KOREA

This questionnaire must be received by the Commission by <u>January 5, 2017</u>
See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping investigation concerning phosphor copper from Korea (Inv. No. 731-TA-1314 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

I understant				

PART I.—GENERAL INFORMATION

<u>Background.</u>-- This proceeding was instituted in response to a petition filed on March 9, 2016, by Metallurgical Products Company, West Chester, PA. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at

https://wwwadmin.usitc.gov/investigations/title 7/2016/phosphor copper korea/final.htm.

Phosphor copper covered by this investigation is master alloys¹ of copper containing between five percent and 17 percent phosphorus by nominal weight, regardless of form (including but not limited to shot, pellet, waffle, ingot, or nugget), and regardless of size or weight. Subject merchandise consists predominantly of copper (by weight), and may contain other elements, including but not limited to iron (Fe), lead (Pb), or tin (Sn), in small amounts (up to one percent by nominal weight). Phosphor copper is frequently produced to JIS H2501 and ASTM B–644, Alloy 3A standards or higher; however, merchandise covered by this investigation includes all phosphor copper, regardless of whether the merchandise meets, fails to meet, or exceeds these standards.

This merchandise is currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under subheading 7405.00.1000. This HTSUS subheading is provided for convenience and customs purposes; the written description of the scope of this investigation is dispositive.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing phosphor copper (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.-- The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

<u>Release of information</u>.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative

¹ A "master alloy" is a base metal, such as copper, to which a relatively high percentage of one or two other elements is added.

protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Porscha Stiger (202-205-3241, Porscha.Stiger@usitc.gov).

I-1.	OMB statisticsPlease report below the actual number of hours required and the cost to your
	firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-8. <u>FTZ, TIB, or bonded warehouses</u>.--Please indicate whether your firm enters phosphor copper into, or withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate whether your firm imports phosphor copper under the TIB (temporary importation under bond) program.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designed as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

Other sources ¹							
Reasons for importing if producer If your firm also produces phosphor copper in the United States, please indicate the reasons for importing this product. If your firm's reasons differ by source, please elaborate.							

Definitions

"Imports" –Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty) or consignee (i.e., to which the merchandise was first delivered).

"Import quantities" –Quantities reported should be net of returns.

"Import values" — Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"U.S. commercial shipments"—Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" — Product consumed internally by your firm.

"Transfers to related firms" – Shipments made to related domestic firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owns, manages, or otherwise controls. Such transactions are valued at fair market value.

"Export shipments"—Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" – Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5. <u>IMPORTS FROM KOREA</u>.—Report your firm's imports and your firm's shipments and inventories of phosphor copper imported from Korea by your firm during the specified periods.

PRICE DATA

- III-2a. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2013 of the following products your firm imported from Korea:
 - <u>Product 1</u>.—15% phosphor copper shot that meets or exceeds JIS H2501 Grade 1, Class A, 15 P Cu A, P content approximately 14.8%. P 14.7% to 14.9%, P+Cu>99.75%, Fe<0.03%, Pb<0.01%, Sn<0.01%, in drums or comparable containers
 - **Product 2.** —15% phosphor copper ingot/waffle that meets or exceeds JIS H2501 Grade 1, Class A, 15 P Cu A, P content approximately 14.8%. P 14.7% to 14.9%, P+Cu>99.75%, Fe<0.03%, Pb<0.01%, Sn<0.01%, in drums or comparable containers

Please note that values should be <u>f.o.b., U.S. point of shipment</u> (commercial sales) and landed duty paid (for internal consumption -- see Part II Definitions on p. 9 for definition of "import values") and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2013-September 2016, did your firm import from Korea and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data tables as appropriate.

III-2e. Additional costs for your direct imports of phosphor copper for your firm's own use or company transfer.

(i) If your firm reported direct import costs above (question III-2d to II-2e), please identify the factors that add to your cost of importing directly since January 1, 2013, **NOT** including costs already reflected in the landed, duty-paid (LDP) cost. Also estimate the share of the LDP cost this factor represents and explain the specific costs associated with each category.

Factors	Estimated share of LDP (percent)	Explanation
Logistical or supply chain costs		
Warehousing costs		
Compliance costs		
Currency conversion costs		
Other		

(ii)	To which source does your firm compare costs in determining your additional
	transaction costs to directly import?

U.S. Importers	U.S. Producers	Both	Neither

	(iii)	benefits of directly importing phosphor copper instead of purchasing phosphor copper from a U.S. importer or from a U.S. producer.
III-2f.	throu	g data methodology.—If your firm reported data in response to any of the questions III-2a gh III-2f, please describe the method and the kinds of documents/records that were used npile your price data.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the price data, as Commission staff may contact your firm regarding questions on the price data. The Commission may also request that your company submit copies of the supporting documents/records (such as sales journal, invoices, etc.) used to compile these data.

III-3. Price setting.

(a)	How does your	rm determine the prices that it charges for sales of phosphor copper (chec	k
	all that apply)?	f your firm issues price lists, please submit sample pages of a recent list.	

Transaction by transaction	Contracts	Set price lists	Other	If other, describe

(b) Do your firm's contracts for sales of phosphor copper include any provision for price adjustment based on raw materials costs?

No	Yes	If yes, describe.

III-4. <u>Discount policy</u>.-- Please indicate and describe your firm's discount policies (*check all that apply*).

Quantity discounts	Annual total volume discounts	No discount policy	Other	Describe

III-5. Pricing terms.--

(a) What are your firm's typical sales terms for phosphor copper imported from Korea?

Net 30 days	Net 60 days	2/10 net 30 days	Other	Other (specify)

(b) On what basis are your firm's prices of imported phosphor copper from Korea usually quoted (check one)?

Delivered	F.o.b.	If f.o.b., specify point

III-6. <u>Contract versus spot</u>.--Approximately what share of your firm's sales of phosphor copper imported from Korea in 2015 was on a (1) long-term contract basis, (2) annual contract basis, (3) short-term contract basis, and (4) spot sales basis?

	Type of sale					
	Long-term contracts (multiple deliveries for more than 12 months)	Annual contracts (multiple deliveries for 12 months)	Short-term contracts (multiple deliveries for less than 12 months)	Spot sales (for a single delivery)	Total (shoul sum to 100.0%	d o
Share of 2015 sales	%	%	%	%	0.0	%

III-7. <u>Contract provisions.</u>— Please fill out the table regarding your firm's typical sales contracts for phosphor copper from Korea (or check "not applicable" if your firm does not sell on a long-term, short-term and/or annual contract basis).

Typical sales contract provisions	Item	Short-term contracts (multiple deliveries for less than 12 months)	Annual contracts (multiple deliveries for 12 months)	Long-term contracts (multiple deliveries for more than 12 months)

III-10.	Geographical shipmentsIn which U.S. geographic market area(s) has your firm sold phosphor
	copper imported from subject countries since January 1, 2013 (check all that apply)?

Geographic area		
Northeast.–CT, ME, MA, NH, NJ, NY, PA, RI, and VT.		
Midwest.–IL, IN, IA, KS, MI, MN, MO, NE, ND, OH, SD, and WI.		
Southeast.–AL, DE, DC, FL, GA, KY, MD, MS, NC, SC, TN, VA, and WV.		
Central Southwest.—AR, LA, OK, and TX.		
Mountains.–AZ, CO, ID, MT, NV, NM, UT, and WY.		
Pacific Coast.–CA, OR, and WA.		
Other.—All other markets in the United States not previously listed, including AK, HI, PR, and VI.		

III-11. <u>End uses.</u>--List the end uses of the phosphor copper that your firm imports from Korea. For each end-use product, what percentage of the <u>total cost</u> is accounted for by phosphor copper and other inputs?

		t of end-use product ted for by	Total
End use product	phosphor copper	Other inputs	(should sum to 100.0% across)

III-13.	Demand trends Indicate how demand within the United States and outside of the United
	States (if known) for phosphor copper has changed since January 1, 2013. Explain any trends
	and describe the principal factors that have affected these changes in demand.

Market	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation and factors
Within the United States					
Outside the United States					

No	Voc	If you who are describe
		lave there been any significant changes in the product range, product mix or nor copper since January 1, 2013?

No	Yes	If yes, please describe.

III-15. Conditions of competition.—

(a) Is the phosphor copper market subject to business cycles (other than general economy-wide conditions) and/or other conditions of competition distinctive to phosphor copper?

Check al	l that apply.	Please describe.
	No	Skip to question III-16.
	Yes-Business cycles (e.g. seasonal business)	
	Yes-Other distinctive conditions of competition	

(b) If yes, have there been any changes in the business cycles or conditions of competition for phosphor copper since January 1, 2013?

No	Yes	If yes, describe.

III-16.	<u>Supply constraints.</u> Has your firm refused, declined, or been unable to supply phosphor copper since January 1, 2013 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, been unable to meet timely shipment commitments, etc.)?								
	No	0	Yes	If yes, please describe.					
III-17.	Raw r 2013?		·ials Ho	w have p	hospho	r coppe	r raw material prices changed since January 1,

Alway	s Fre	quent	tly Somet	imes F	Rarely	Never	If "Frequently," "Sometimes," or "Rarely," please explain.		
III-19.					 '		y differences in end uses or customers for 8% ohor copper?		
	No	0	Yes	If yes, p	lease de	escribe.			
III-20. Packaging. What type of packaging (e.g., 55 gallon drum) does your firm use for its sales of phosphor copper?									

III-21. <u>Interchangeability</u>.--Is phosphor copper produced in the United States and in other countries interchangeable (*i.e.*, can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = no familiarity with products from a specified country-pair

Country-pair	Korea	Other countries
United States		
Korea		

For any country-pair producing phosphor copper which is *sometimes* or *never* interchangeable, please identify the country-pair and explain the factors that limit or preclude interchangeable use:

III-22. <u>Factors other than price</u>.--Are differences other than price (*e.g.*, quality, availability, transportation network, product range, technical support, *etc.*) between phosphor copper produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

- A = such differences are *always* significant
- F = such differences are *frequently* significant
- S = such differences are *sometimes* significant
- N = such differences are *never* significant
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	Korea	Other countries
United States		
Korea		

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's purchases of phosphor copper, identify the country-pair and report the advantages or disadvantages imparted by such factors:

III-23. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for phosphor copper since January 1, 2013. Indicate the share of the quantity of your firm's total shipments of phosphor copper that each of these customers accounted for in 2015.

	Customer's name	City	State	Share of 2015 sales (%)

2				
3				
4				
5				
6				
7				
8				
9				
10				

	<u> </u>			
III-24.	Other explanationsIf your firm would like to further explain a response to a question in Part III that did not provide a narrative response box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.			

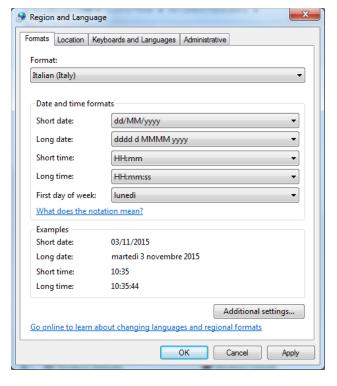

Correcting Valid number error messages.—If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

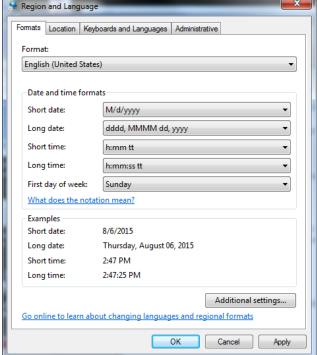

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/title 7/2016/phosphor copper korea/final.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: PHOS

• E-mail.—E-mail the MS Word questionnaire to Porscha.Stiger@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
