PART I.—GENERAL INFORMATION

Background. --This proceeding was instituted in response to petitions filed on September 20, 2016, by the Rebar Trade Action Coalition and its individual members: Byer Steel Group, Inc., Cincinnati, OH; Commercial Metals Company, Irving, TX; Gerdau Ameristeel U.S. Inc., Tampa, FL; Nucor Corporation, Charlotte, NC; and Steel Dynamics, Inc., Pittsboro, IN. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/title_7/2017/steel_concrete_reinforcing_bar_japan_taiwan_and/inal.htm

Rebar. -- The merchandise subject to these investigations is steel concrete reinforcing bar imported in either straight length or coil form (rebar) regardless of metallurgy, length, diameter, or grade or lack thereof. Subject merchandise includes deformed steel wire with bar markings (*e.g.*, mill mark, size, or grade) and which has been subjected to an elongation test. The subject merchandise includes rebar that has been further processed in the subject country or a third country, including but limited to a cutting, grinding, galvanizing, painting, coating, or any other processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the rebar. Specifically excluded are plain rounds (*i.e.*, nondeformed or smooth rebar). Also excluded from the scope is deformed steel wire meeting ASTM A1064/A1064M with no bar markings (*e.g.*, mill mark, size, or grade) and without being subject to an elongation test.

The subject merchandise is classifiable in the Harmonized Tariff Schedule of the United States ("HTSUS") primarily under statistical reporting numbers 7213.10.0000, 7214.20.0000, and 7228.30.8010. The subject merchandise may also be reported under other HTSUS numbers including 7215.90.1000, 7215.90.5000, 7221.00.0017, 7221.00.0018,¹ 7221.00.0030, 7221.00.0045, 7222.11.0001, 7222.11.0057, 7222.11.0059, 7222.30.0001, 7227.20.0080, 7227.90.6030, 7227.90.6035, 7227.90.6040, 7228.20.1000, and 7228.60.6000.

Reporting of information. -- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (*i.e.*, a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

Confidentiality. --The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (*see* 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification. --The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting

¹ Prior to the establishment of statistical reporting numbers 7221.00.0017, 7221.00.0018 on July 1, 2016, rebar may have been imported under statistical reporting number 7221.00.15 (discontinued on July 1, 2016).

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C and D), less total shipments (i.e., lines F, G, H, and I). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

II-12. **Other explanations.**--If your firm would like to further explain a response to a question in Part II that did not provide a narrative box, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid Number Error Messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

The screenshot shows the 'Region and Language' dialog box with the 'Formats' tab selected. The 'Format' dropdown is set to 'Italian (Italy)'. Under 'Date and time formats', the settings are: Short date: dd/MM/yyyy, Long date: dddd d MMMM yyyy, Short time: HH:mm, Long time: HH:mm:ss, and First day of week: lunedì. An 'Additional settings...' button is at the bottom right. A link 'Go online to learn about changing languages and regional formats' is at the bottom left. The 'OK' button is highlighted in blue.
