

Coming Soon!

Your Post-Harvest Microbial Food Safety Practices Survey will arrive soon.

The proposed Post-Harvest Microbial Food Safety Practices Survey seeks to assess the levels of food safety awareness, sanitation and post-harvest practices used by operations.

USDA **AGRICULTURE COUNTS**

Your operation, products and practices matter!

Why Should You Respond?

- Document and give credit to your industry for practices that are already in place.
- Provide a benchmark of practices prior to implementation of the Food Safety Modernization Act for comparison purposes.
- Results could be used to guide research and training efforts.
- Your responses are protected by Federal law. Confidentiality is guaranteed.
- Your input may influence key policy decisions.

Please respond! For more information, visit www.agcensus.usda.gov.
