

Summary of the changes from the current version of the FSIS Form 5200-2:

1. Added Fish of the order Siluriformes
2. Reorganized questions to mirror what Grant Curators see on the Public Health Information System Establishment Profile screen.
3. Changed format to make it easier to electronically submit the form. (Currently, you can fill it out electronically, but have to send in hard copies to the District Office. Now, it can all be sent via email.)
4. Incorporated the updated Privacy Act statement.
5. Revised instructions to make them easier to follow.
6. Added Continuation Sheet for more flexibility for adding information about fitness of persons responsibly connected with the applicant.
