12. The undersigned requests that the firm identified in Item 6 be included on the list of establishments certified by USDA as meeting the requirements of the country specified with respect to the importation of meat/poultry or meat/poultry products. The export requirements and other references may be obtained from the USDA FSIS Export Library at <http://www.fsis.usda.gov/Regulations & Policies/Export Information/index.asp>.

We make this request with the understanding that, in addition to compliance with normal U.S. inspection requirements, the above-named firm voluntary agrees to the following:

- To comply with all provisions of appropriate inspection laws and regulations of the importing country when preparing product for export to that country. These requirements have been reviewed by officials of this firm and are fully understood.
- To reimburse USDA for any inspections over and above U.S. requirements, (Reference FSIS Directive 5110.1).
- To segregate and maintain identity of product eligible for export from noneligible product.
- To operate in the mode to meet the importing country's requirements anytime an export audit is made by a U.S. review team or by a foreign official.
- To notify appropriate FSIS officials promptly when firm wishes to be removed from the list of plants that are eligible to export to the country named herein (Item 3).

INSTRUCTIONS FOR FSIS FORM 9080-3

Purpose:

For most countries, all FSIS-authorized meat, poultry and egg product establishments are eligible to export meat, poultry and egg products, provided all requirements indicated in the Library of Export Requirements ([http://www.fsis.usda.gov/Regulations & Policies/Export Information/index.asp](http://www.fsis.usda.gov/Regulations%20&%20Policies/Export%20Information/index.asp).) are met. Several countries however, require additional certification provided by the plant and approved by FSIS. The country requirements listed in the Library of Export Requirements will reflect the necessity of this additional certification process if required. Plants wishing to export to such countries should submit this FSIS Form 9080-3 to the Office of International Affairs.

Instructions:

Complete FSIS Form 9080-3 in its entirety. All fields must be filled in order to process the request. The completed form should be faxed or mailed to the Office of International Affairs, the contact information for which appears on the form.

Approval:

Once submitted, the Office of International Affairs will process the request with the appropriate foreign authorities. Upon receiving approval, the plant information will be posted on the Library of Export Requirements under the list of approved plants for the appropriate country. Users should check the Library of Export Requirements to see when their plant has been approved. Users may also contact the Office of International Affairs for an update on the status of the application.
