FS32A

For the next census in 2020, if the Census Bureau got information that you already provided to the Social Security Administration, they may not need to ask you for this information on a questionnaire. If you knew this information was being obtained from the Social Security Administration only to produce statistics, and that your personal information would remain unavailable to the anyone outside the Census Bureau, would you be strongly in favor of the Census Bureau getting your information from the Social Security Administration, somewhat in favor it, neither in favor nor against it, somewhat against it, or strongly against it?

- 5 Strongly in favor of it
- 4 Somewhat in favor of it
- 3 Neither in favor nor against it
- 2 Somewhat against it
- 1 Strongly against it
- 8 (DK)
- 9 (Refused)

[IF '5' IN FS32A, SKIP TO CB_CLK2, OTHERWISE, CONTINUE]

Now I will read you some reasons why some people like the idea of the Census getting your information from the Social Security Administration. For each statement, please tell me if this reason would make you strongly in favor of this, somewhat in favor of it, neither in favor nor against it, somewhat against it, or strongly against it.
