OFFICE OF COSMETICS AND COLORS  
"CERTIFICATE" (EXPORTS) APPLICATION  
*Instructions*

### 1. Requester Information

The company or person requesting the certificate.

### 2. Exporting Company Information

The company or person whose name and address will appear on the "To Whom It May Concern" letter (attached to each certificate). No name or address is listed on the actual certificate.

**NOTE: Do not request a cosmetic certificate for a product classified as a drug in the United States.** The terms "drug" and "cosmetic" are defined in the Federal Food, Drug, and Cosmetic Act (Sections 201 (g) and (i)).

- **The term "drug"** means articles intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease in man or other animals, and articles (other than foods and dietary supplements) intended to affect the structure or any function of the body of man or other animals.
- **The term "cosmetic"** means articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body or any part thereof for cleansing, beautifying, promoting attractiveness, or altering the appearance, and articles intended for use as a component of any such articles; except that such term shall not include soap (soap is defined in the Code of Federal Regulations at 21 CFR 701.20).

### 3. Type of Certificate Requested

FDA issues two types of certificates for cosmetics: 1. General and 2. Product Specific. You will need to determine from the importing country which type will be accepted. The certificates are described as follows:

**GENERAL certificate:** A General certificate does not list any specific products by name. It states that FDA has on file a letter "regarding The Status Of Products Exported From The United States." You only need to fill in the quantity of certificates you require. You need not submit any other information.

**PRODUCT SPECIFIC certificate:** A Product Specific certificate states that FDA has on file a letter regarding specific product(s), which will be listed by name in an attached Product List. If you wish to obtain a Product Specific certificate, you should:

- Determine the number of products to be listed on each certificate. For example, if you need five certificates for five products, decide if you want a single product listed with each certificate, or all five products listed with each certificate.
- Type a Product List including all products (that you want listed for each certificate) by exact brand name as they appear on the cosmetic product label (do not submit labels). Include a Product List for each Product Specific certificate you request, since one list will be attached to each Certificate. The Product List should be typed on an 8.5" X 11" sheet of paper. The format should include the words PRODUCT LIST centered at the top, with the name(s) of the cosmetic product(s) typed below at the left margin.

#### Mail your Certificate request to:

Certificate (Exports) Request  
Office of Cosmetics and Colors, HFS-125, CPK-2  
Center for Food Safety and Applied Nutrition
