Qualitative Feedback on Agency Service Delivery”
(OMB Control Number: 0917-0036)**

TITLE OF INFORMATION COLLECTION: OMB No. 0917-0036 Indian Health Service (IHS) Wind River Service Unit (WRSU) Customer Satisfaction Survey

PURPOSE: The IHS goal is to raise the health status of the American Indian and Alaska Native people to the highest possible level by providing comprehensive health care and preventive health services. To support the IHS mission, the Wind River Service Unit (WRSU) is an accredited Medical Home through the Accreditation Association for Ambulatory Health Care (AAAHC), Inc. The attached three patient satisfaction surveys were developed to address the Improving Patient Care Initiative and AAAHC Medical Home standards to health care.

The WRSU through its clinical services department will be responsible for providing oversight for the “Customer Satisfaction Surveys.” The information collected from patients at both the Fort Washakie Health Center and Arapahoe Health Center will be used for quality assurance performance improvements (QAPI) that will result in improved quality of care services.

Voluntary customer satisfaction surveys will be conducted through primarily self-interviews with occasional direct interviews between WRSU staff and patient, phone calls (due to patient complaints), mail, and the internet. The information gathered will be used by agency management and staff to identify strengths and weaknesses in current service provision, to plan and redirect resources, to make improvements that are practical and feasible, and to provide vital feedback at governing body meetings with partner agencies, tribal leaders, system operators, health boards, and community members regarding customer satisfaction or dissatisfaction with WRSU.

DESCRIPTION OF RESPONDENTS: WRSU patients that utilize the Fort Washakie Health Center and the Arapahoe Health Center.
