

Attachment 13. Example Data Analysis Table Shells

Table X. Descriptive summary of the clients and services provided by CBO/HWC partners by district and across all districts.

	Broward County Public Schools	Los Angeles USD	San Francisco USD	All Districts Combined
	% (N)	% (N)	% (N)	% (N)
Type of Organization				
CBO				
Health/Wellness Centers				
Client Size				
Less than 10				
10-50				
50-100				
More than 100				
Client Age				
≤ 14				
15-19				
20-24				
25-29				
≥ 30				

Table X. Results of a chi-square test to examine changes in the percent of CBO/HWC partner organizations offering STD testing to students from baseline to follow-up

	Baseline Percent of Organizations offering STD testing to students from target schools		Follow-up Percent of Organizations offering STD testing to students from target schools		<i>t</i>	<i>df</i>	<i>p</i>
	%	<i>CI</i>	%	<i>CI</i>			
Broward County Public Schools ^a							
Los Angeles USD							
San Francisco USD							
All Districts Combined							

^a If cell size is less than 5 at the district level, only data from all districts combined will be tested.

Table X. Results of a t-test to examine changes in the mean CBO/HWC and LEA partnership scale score from baseline to follow-up

	Baseline Partnership Scale Score (mean score of 15 items)		Follow-up Partnership Scale Score (mean score of 15 items)		<i>t</i>	df	<i>p</i>
	<i>M</i>	<i>SD</i>	<i>M</i>	<i>SD</i>			
Broward County Public Schools ^a							
Los Angeles USD							
San Francisco USD							
All Districts Combined							

Table X. Results of a logistic regression to identify predictors of mean partnership success.

Predictors	Odds Ratio	95% Confidence Interval		<i>p</i>
		Lower Limit	Upper Limit	
Organizational type				
Partnership scale score				
Existence of an agreement with LEA				
Length of existence of an agreement with LEA
