AMENDMENT REVIEW FORM

(TO ADD OR CHANGE PREVIOUSLY APPROVED RESEARCH)

All changes or new activities for previously approved studies require submission, review, and approval of an Amendment Review Form. Please complete and submit this form to irb@westat.com and attach all necessary materials to be reviewed. Once the request has been reviewed, you will be contacted. If this change or new activity requires a full Board review, those meetings occur on the second Tuesday of every month. To check the date of meetings, please see the [meeting schedule](#) under IRB in WesInfo. Thank you for your cooperation.

Submission ID: CRV016-2

Description:

CRV016-1: Enrollment complete; research activities limited to Long-term Follow-up.

CRV016-2: Response to Minor Modifications.

All COMIRB Approved Investigators must comply with the following:

- 1 For the duration of your protocol, any change in the experimental design/consent and/or assent form must be approved by the COMIRB before implementation of the changes.
- 1 Use only a copy of the COMIRB-approved, stamped Consent and/or Assent Form. The investigator bears the responsibility for obtaining from all subjects "Informed Consent" as approved by the COMIRB. The COMIRB REQUIRES that the subject be given a copy of the consent and/or assent form after it is signed. Consent and/or assent forms must include the name and telephone number of the investigator.
- 1 Provide non-English speaking subjects with a certified translation of the approved Consent and/or Assent Form in the subject's first language.
- 1 The investigator also bears the responsibility for informing the COMIRB immediately of any Unanticipated Problems that are unexpected and related to the study in accordance with COMIRB Policy and Procedures.
- 1 Obtain COMIRB approval for all advertisements, questionnaires and surveys before use.
- 1 Federal regulations require a Continuing Review to renew approval of this project within a 12-month period from the last approval date unless otherwise indicated in the review cycle listed below. If you have a restricted/high risk protocol, specific details will be outlined in this letter. Non-compliance with Continuing Review will result in the termination of this study.

You will be sent a Continuing Review reminder **75 days prior** to the expiration date. Any questions regarding this COMIRB action can be referred to the Coordinator at 303-724-1055 or UCHSC Box F-490.

Your above referenced continuing review was approved through expedited review by Dr. George K. Phillips, IRB Chair or designee, 8/18/2014.

This is to inform you that you may continue your project.

Please note that this approval is granted until 7/22/2015. The IRB requires that you submit an application for annual renewal at the end of the approval period and/or at study completion. Please note that this office will automatically terminate the project on the date stated above, unless reviewed and re-approved by the IRB. ***It is the PI's responsibility to submit the application for annual renewal and the appropriate IRB forms at least one month before the expiration date.***

Please remember to:

1. Seek and obtain prior approval for any modifications to the approved protocol.
2. Promptly report any unexpected or otherwise significant adverse effects encountered in the course of this study to the Institutional Review Board within 7 calendar days. This includes information obtained from sources outside MedStar Health Research Institute and Georgetown University that reveals previously unknown risks from the procedures, drugs or devices used in this study.

Dear Dr. Yokochi:

I am pleased to inform you that at on September 5, 2014, the Institutional Review Board (IRB) approved your request to continue human subject use for the above proposal through the expedited review process. Your Human Use Approval will expire September 4, 2015. If the project is to continue after that date, a new request for continuation must be filed with the Research and Development (R&D) Office at least 1-month prior to the August 2015 meeting. You may continue your human use research based upon this notification.

In accordance with VHA Handbook 1200.01, you will also receive a confirmation letter from the Associate Chief of Staff for Research.

If you have any questions or concerns, please contact Douglas Miller, Research Committee Coordinator, R&D Office, at 433-0127, or email him at: douglas.miller@.va.gov.

The IRB wishes you continued success with this research project.

Sincerely,

Continuation/Final report form

The IRB is responsible for the continuing review of research to ensure that the rights and welfare of human participants are being protected. This application for renewal of approval or final report must be submitted to the Research Administration (IRB) Office by the published deadline date at least one month prior to the expiration date to guard against lapse in IRB approval.

EXPIRED RESEARCH: *If you have not responded in time to renew the protocol before it lapses, the protocol is considered expired. Any research activity conducted under an expired protocol is in violation of federal regulations, and could jeopardize the Health System's privilege to conduct human research. The federal regulations allow no "window" after the expiration of the approval period. It is important that your protocol be renewed on time. If your approval expires and you wish to continue your research, the protocol may have to undergo IRB review again as a new protocol. Timely renewal avoids approval lapses.*

The IRB must determine from the information provided on this form whether or not this study should be approved to continue. *Per Federal regulations, "continuing review of research must be substantive and meaningful."* Insufficient information may result in a delay in approving continuation of your project. If this study is part of a multi-center project, provide data on HFHS subjects separately from national data but include both when available.

DIRECTIONS FOR FORM COMPLETION:

1. Use this form for **all** continuation or final reports. Tab through the form, entering your information in the spaces provided.
2. **E-mail** this completed form **and** consent form/s (if still recruiting subjects) to: research_admin@hfhs.org
You must follow these directions:
 - The e-mail subject line must be in the following format (with underscore):
 - a. Indicate 'IRB continuation' or 'IRB final'
 - b. PI last name
 - c. HFHS IRB #
 - d. Indicate 'expedited' or 'full'
 - e. **Example:** 'IRB continuation_Jones_123_full' or 'IRB final _Jones_123_expedited'
 - Attach the continuation/final report form saved with a title of: PI last name and IRB number (i.e. 'jones_123'). Note use an underscore between the items.
 - *If applicable:* attach the consent saved with PI last name, IRB number and 'ICF' (i.e. 'jones_123_ICF') as the title. If there is more than one consent form, differentiate them by number (ICF_1, ICF_2, ICF_3, etc.) or other obvious way (ICF_main study, ICF_genetic_substudy) (use an underscore between the items).
3. Your forms will be returned to you by e-mail. You may print them for your records as you will **not** be receiving copies through interdepartmental mail. As always, should you need a copy, the IRB maintains paper files for every study.

All IRB forms are available on our website (<http://henry.hfhs.org/body.cfm?id=7764>).

Continuation/Final Report

All submissions must be sent electronically to: research_admin@hfhs.org
Investigators are responsible for utilizing the most current versions of IRB forms and the IRB has the authority to refuse out of date forms.

This secure electronic notification between password protected authentications has been deemed by the University of Minnesota to constitute a legal signature.

You may go to the View Completed section of <http://eresearch.umn.edu/> to view or print your continuing review submission.

For grant certification purposes you will need this date and the Assurance of Compliance number, which is FWA00000312 (Fairview Health Systems Research FWA00000325, Gillette Childrens Specialty Healthcare FWA00004003). Approval will expire one year from that date. You will receive a report form two months before the expiration date.

In the event that you submitted a consent document with the continuing review form, it has also been reviewed and approved. If you provided a summary of subjects' experience to include non-UPIRTSO events, these are hereby acknowledged.

As Principal Investigator of this project, you are required by federal regulations to inform the IRB of any proposed changes in your research that will affect human subjects. Changes should not be initiated until written IRB approval is received. Unanticipated problems and adverse events should be reported to the IRB as they occur. Results of inspections by any external regulatory agency (i.e. FDA) must be reported immediately to the IRB. Research projects are subject to continuing review.

MEMORANDUM

TO: Joel Weissfeld, MD, MPH *Chris*

FROM: Christopher R. Ryan, PhD

DATE: June 26, 2014

SUBJECT: IRB #9602115: Prostate, Lung, Colorectal and Ovarian Cancer Screening Trial (UPCI 93-03)

The renewal of the above-referenced proposal has received expedited review and approval by the Institutional Review Board under 45 CFR 46.110 (8). **This protocol is closed to accrual and all protocol interventions are complete.**

Approval Date: June 26, 2014

Renewal Date: June 26, 2015

Please note that it is the investigator's responsibility to report to the IRB any unanticipated problems involving risks to subjects or others [see 45 CFR 46.103(b)(5) and 21 CFR 56.108(b)]. The IRB Reference Manual (Chapter 3, Section 3.3) describes the reporting requirements for unanticipated problems which include, but are not limited to, adverse events. If you have any questions about this process, please contact the Adverse Event Coordinator at 412-383-1144

The protocol and consent forms, along with a brief progress report must be resubmitted at least **one month prior** to the renewal date noted above as required by FWA00006790 (University of Pittsburgh), FWA00006735 (University of Pittsburgh Medical Center), FWA00000600 (Children's Hospital of Pittsburgh), FWA00003567 (Magee-Womens Health Corporation), FWA00003338 (University of Pittsburgh Medical Center Cancer Institute).

Please be advised that your research study may be audited periodically by the University of Pittsburgh Research Conduct and Compliance Office.
