SUPERVISOR/HV COMBO SURVEY

The U.S. Department of Health and Human Services has contracted with MDRC to evaluate the federal Maternal, Infant and Early Childhood Home Visiting program (MIECHV).

The Mother and Infant Home Visiting Program Evaluation (MIHOPE) is designed to build knowledge for policymakers and practitioners about the effectiveness of MIECHV.

Your answers will be kept confidential. Only the research team will have access to this information. Your answers will not be shared with anyone at your program or any other agencies. In our research reports, the information you provide will not be attributed by name to you or your individual program. One objective of MIHOPE is to learn about the role of supervisors in home visiting programs.

We are requesting that you complete this survey because you are a supervisor in one of the home visiting programs participating in MIHOPE. Your answers will help us to understand your role in the home visiting program and your perspective on the home visiting program.

- It will take about 1 hour and 45 minutes to complete this survey.
- If you are unsure how to answer a question, please give the best answer you can rather than leaving it blank.
- We would appreciate your response by MM/DD/YYYY.
- If you have questions at any time during the study, please call Alexander Vazquez at MDRC toll-free at 1-877-311-6372 or email Alexander.vazquez@mdrc.org.
- To thank you for your time, we will be sending you a gift card for \$40.
