SUPPLEMENTARY INFORMATION:

I. Abstract and Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Bureau of Reclamation (Reclamation) has obtained the services of an outside entity to collect data on water pipelines. The information requested is required to comply with a request from Congress for Reclamation to assemble data on pipeline reliability for specific types of pipes.

A **Federal Register** notice announcing the collection of this information was initiated on February 26, 2014 (79 FR 10842), offering the public a 60-day public comment period. A summary of comments received during the 60-day comment period, disposition of comments, and revised information collection were published in the **Federal Register** on October 1, 2014 (79 FR 59291), and the public comment period was reopened for another 30 days. In response to the public's request for additional time to comment, a third notice was published in the **Federal Register** on October 30, 2014 (79 FR 64622), extending the comment period another 30 days. In total, the public was provided 120 days to comment on the ICR. Also at the public's request, all draft supporting documents were made available to the public for consideration.

The contract with Reclamation's previous partners, Battelle and Water Research Foundation, was terminated in July 2015. Reclamation has now obtained the services of Virginia Tech to develop a new survey to collect and assemble data on pipeline reliability.
