Introduction

Who is conducting the survey?

This survey is being conducted by Westat on behalf of the Oregon Employment Department and the U.S. Department of Labor. The U.S. Office of Management and Budget approved this research (OMB Control No. XXX, expiration date of XXX).

What is the purpose of the survey?

The purpose of this survey is to gather information to provide a better understanding of Oregon employers' familiarity with Oregon's Work Share program. The Work Share program is an unemployment insurance program that provides employers and their workers with an alternative to layoffs by reducing employees' hours and partially replacing lost earnings with Unemployment Insurance. You might also know of it as "shared work," work sharing" or "short-time compensation."

Participation and privacy

Your participation in the study is important to provide an accurate estimate of how familiar Oregon employers are with the program. We estimate that the survey take only 1 to 2 minutes to complete. Participation is voluntary and will not affect your firm's current or future unemployment insurance tax rate or eligibility for any public-funded program. Survey responses will be analyzed together with state unemployment insurance administrative information to get a full understanding of employer's experiences and perspectives. Your answers will be kept private to the extent permitted by law. You and your business will never be identified in any report based on the survey.
