1. CIRCUMSTANCES NECESSITATING COLLECTION OF INFORMATION

This notice allows U.S. shareholders of a foreign insurance company to use the foreign insurance company's historical loss payment patterns in computing the company's insurance reserves provided the company has a certain number of years of data and makes an election to use that data. A domestic insurance company can elect to use its own historical data in computing its reserves provided certain requirements are satisfied and an election is made. This notice allows a foreign insurance company to elect to calculate its insurance reserves in a manner similar to a domestic insurance company. Also, this notice provides guidance on how to determine a foreign insurance company's foreign loss payment patterns.

2. USE OF DATA

The data will be used by IRS examiners to determine whether U.S. shareholders of foreign insurance company's are calculating the insurance reserves of the foreign insurance company correctly for purposes of section 954(i).

12. ESTIMATED BURDEN OF INFORMATION COLLECTION

Under section V (entitled Applicable Loss Payment Pattern)

of Notice 2002-69, U.S. shareholders of a foreign insurance company may elect, provided certain conditions are satisfied, to calculate foreign insurance reserves of the companies using the company's historical payment pattern data. U.S. shareholders making this election will be large U.S. insurance companies conducting business in foreign countries through controlled foreign corporations. We estimate that no more than 300 large insurance companies will need to make an annual submission with respect to their controlled foreign corporations. The estimated annual burden will be about one hour per respondent for a total 300 hours for all companies each year.

Estimates of the annualized cost to respondents for the hour burdens shown are not available at this time.

14. ESTIMATED ANNUALIZED COST TO THE FEDERAL GOVERNMENT

16. PLANS FOR TABULATION, STATISTICAL ANALYSIS AND PUBLICATION

There are no plans for tabulation, statistical analysis and publication.

17. REASONS WHY DISPLAYING THE OMB EXPIRATION DATE IS INAPPROPRIATE

We believe that displaying the OMB expiration date is inappropriate because it could cause confusion by leading taxpayers to believe that the notice sunsets as of the expiration date. Taxpayers are not likely to be aware that the Service intends to request renewal of the OMB approval and obtain a new expiration date before the old one expires.
