A central and trusted source of scientific evidence for what works in education.

## REGISTRY OF EVALUATION RESEARCHERS

### LETTER OF COMMITMENT

DATE:

To the What Works Clearinghouse:

As part of (my/our) registration for listing in the Registry of Evaluation Researchers for the What Works Clearinghouse (WWC), (I/we) understand that the purpose of the registry is to provide a public listing to assist people in identifying those evaluators who have experience in conducting causal inference studies of the effectiveness of educational interventions.

(I/We) commit to using the highest standards of scientific evidence, as defined by the WWC,<sup>1</sup> for answering questions about the effectiveness of educational interventions. Furthermore, (I/we) agree to make clear to sponsors and clients the degree to which the work (I/we) plan to conduct on their behalf will overcome or limit the threats to construct, internal, external, and statistical validity and the resulting implications for making appropriate causal claims.

(I/We) hereby submit (my/our) request for registration and give you permission to use the information provided in the submission in the Registry of Evaluation Researchers and related WWC products. (I/We) further attest that the information provided for this registry submission is complete and accurate as of this date.

Sincerely,
